Condor Flugdienst (Old Livery) Airbus A320

159

Condor, legally incorporated as Condor Flugdienst GmbH (lit. 'Condor Flight Service'), is a German airline based in Neu Isenburg, Hesse. It was established in 1955 with Frankfurt Airport as its main base. Condor offers scheduled and charter flights and operates, from Germany, medium-haul flights to the Mediterranean Basin and the Canary Islands as well as long-haul flights to destinations in Africa, Asia, North America, South America and the Caribbean. Whereas medium-haul flights are operated from many German airports and Zurich, long-haul flights usually depart from Frankfurt, with a few charter services operated from Düsseldorf and Munich.

The Airbus A320 family is a series of narrow-body airliners developed and produced by Airbus. The A320 was launched in March 1984, first flew on 22 February 1987, and was introduced in April 1988 by Air France. The first member of the family was followed by the stretched A321 (first delivered in January 1994), the shorter A319 (April 1996), and the even shorter A318 (July 2003).

The A320 series has two variants, the A320-100 and A320-200. Only 21 A320-100s were produced. These aircraft, the first to be manufactured, were delivered to Air Inter – later acquired by Air France – and British Airways as a result of an order from British Caledonian made prior to its acquisition. The primary differences from the -100 were the -200's wingtip fences and increased fuel capacity, providing increased range.
