BOEING 737-800

Jeju Air (Flight 2216) Boeing 737-800

144

Jeju Air Co., Ltd. (Korean: 제주항공; RR: Jejuhang-gong) is the first and the largest South Korean low-cost airline, the airline is headquartered in Jeju City with its largest base at Jeju International Airport.

Jeju Air Flight 2216 was a scheduled international passenger flight operated by Jeju Air from Suvarnabhumi Airport in Bangkok, Thailand, to Muan International Airport in Muan County, South Korea, and on 29 December 2024, the Boeing 737-800 operating the flight had a bird ingest into one of the engines, issued a mayday alert, performed a go-around, and on its second landing attempt, failed to deploy its landing gear and belly landed well beyond the normal touchdown zone. It overran the runway and crashed into a berm encasing a concrete structure that supported an antenna array for the instrument landing system. The collision killed all 175 passengers and 4 of 6 crew members. The surviving 2 cabin crew were seated in the rear of the plane, which detached from the fuselage, and were rescued with injuries.

The Boeing 737-800 is a stretched version of the 737-700. It replaced the 737-400. The Boeing 737-800 competes with the Airbus A320. The 737-800 seats 162 passengers in a two-class layout or 189 passengers in a one-class layout. The 737−800 was launched by Hapag-Lloyd Flug (now TUIfly) in 1994 and entered service in 1998.

Following Boeing's merger with McDonnell Douglas, the 737-800 also filled the gap left by Boeing's decision to discontinue the McDonnell Douglas MD-80 and MD-90 aircraft. For many airlines in the U.S., the 737-800 replaced aging Boeing 727-200 trijets.

Scale: 1:100
Length: (395mm)
Width: (358mm)
Parts: 313 (12 pages)

Attach the parts in order.
A1 - I6
You can choose to make either a grouded style (With Wheels) or an in-flight style (without wheels) aircraft.

*This model is designed for papercraft and is different in several ways from the real plane
*Build the model by carefully reading the Assembly Instructions.
*The final size of the model may vary slightly depending on the configuration of your printer
