BOEING 737 MAX 8

Jeju Air Boeing 737 MAX 8

200

Jeju Air Co., Ltd. (Korean: 제주항공; RR: Jejuhang-gong) is the first and the largest South Korean low-cost airline. Named after Jeju Island, the airline is headquartered in Jeju City with its largest base at Jeju International Airport. It is a founding member of the Value Alliance.

The airline was established as a joint venture by Aekyung Group and the government of Jeju Province on 25 January 2005. It was established under a different Korean name (제주에어; a transliteration of "Jeju Air"). It received a business license on 25 August 2005, which made it the third major airline in the country after Korean Air and Asiana Airlines. On 20 September 2005, it changed its Korean name to its current form. It acquired its first aircraft on 2 May 2006, and had its first commercial flight, on the Jeju-Gimpo route, on 5 June 2006. By the end of 2006, it had five aircraft. In addition to air service, the group is also the owner of a Holiday Inn Express in Seoul

The Boeing 737 MAX is the fourth generation of the Boeing 737, a narrow-body airliner manufactured by Boeing Commercial Airplanes (BCA), a division of American company Boeing. It succeeds the Boeing 737 Next Generation (NG) and competes with the Airbus A320neo family. The 737 MAX is based on earlier 737 designs, with more efficient CFM International LEAP-1B engines, aerodynamic changes, including its distinctive split-tip winglets, and airframe modifications. The new series was announced on August 30, 2011. It took its maiden flight on January 29, 2016 and was certified by the U.S. Federal Aviation Administration (FAA) in March 2017. The first delivery was a MAX 8 in May 2017 to Malindo Air, with whom it commenced service on May 22, 2017.

Scale: 1:100
Length: (395mm)
Width: (358mm)
Parts: 300 (12 pages)

Attach the parts in order.
A1 - I6
You can choose to make either a grouded style (With Wheels) or an in-flight style (without wheels) aircraft.

*This model is designed for papercraft and is different in several ways from the real plane
*Build the model by carefully reading the Assembly Instructions.
*The final size of the model may vary slightly depending on the configuration of your printer
