All parts labeled (Req) are the main base.
All other parts are optional, and up to the builder
as to the amount of detail desired.
The Gear Bottom can be independent,
but if Gear Braces are made, it is recommended to
build and attach the Gear Bottom first.
All parts in "End Pieces" are another group.
Side Braces can be independent as well,
but if the Side Parts are made the Braces should be as well.
