thank you for downloading this model of "The Lich"
this model is not easy,
so you should have a bit experience in papercraft

specially the face and the hands are tricky
so be patience and take your time

i prefere to use a bit more thicker paper for the robe
that the model will not collapse

don’t wonder that the lower pieces of the robe are open
i notice that the pieces are useless and very hard to close
so don’t care about it

also not wonder that there are two pairs of shoulders
i re-worked the middle pair because it has some very ugly pieces

as you can see the pedestal is very big
and not necessary that the model will stand
so i leave it up to you if you wanna build it

i added the texture of the orb
that you can do some stuff with it
the orb is also optional
if you doing the "spine-chest" part strong enough
the model can also hold the wand in both hands

if you have any problems
feel free to ask me at
