Preliminary - Tools to consider

Honestly? I find the lack of pom-poms on the Compilation FFVII moogles really disturbing...

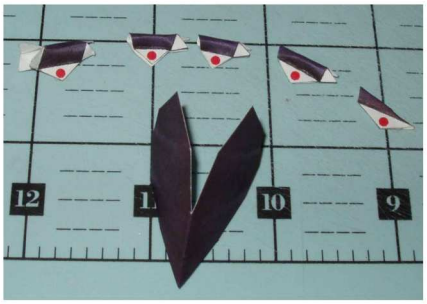
Construct parts 1-4 and 5-8

Construct parts 9-17

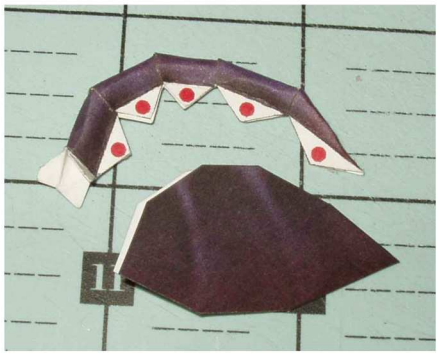
Combine the legs and lower torso

Attach parts 18-21

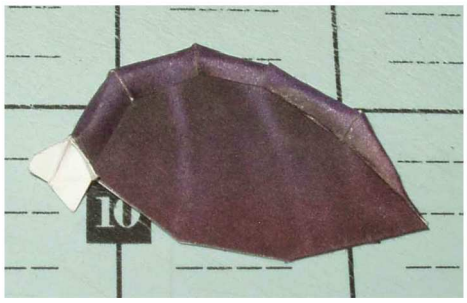
Fold part 22 in half, then valley-fold the ● marked tabs of parts 23-27. Glue the backs of the ● marked tabs together.

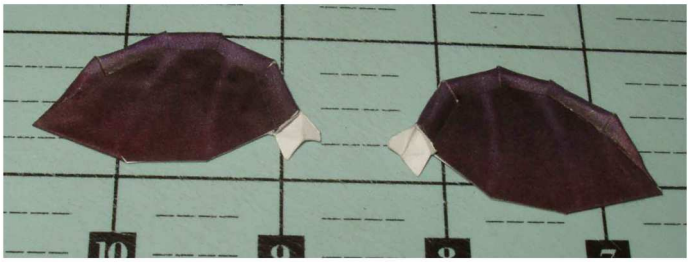


Combine parts 23-27



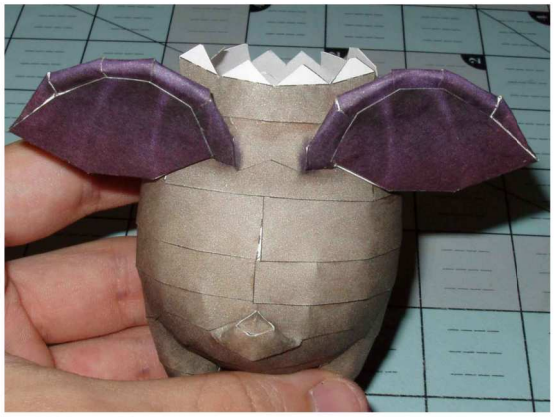
Apply glue to both sides of the ● marked tabs and to the inside of part 22, then glue part 22 together over the ● marked tabs.





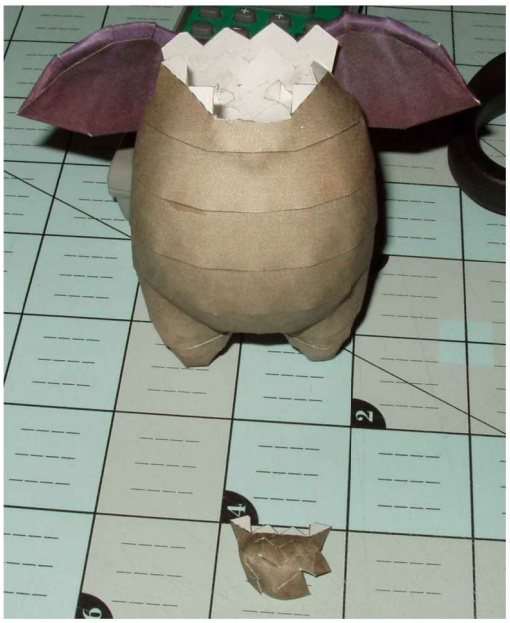
Repeat for parts 28-33

Attach parts 34-36



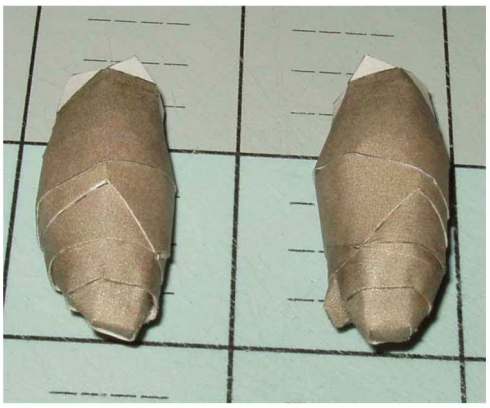
Insert the tabs of the wings through the holes made by parts 34-36, then apply glue and open up the tabs on the inside to attach.

Construct parts 37-39

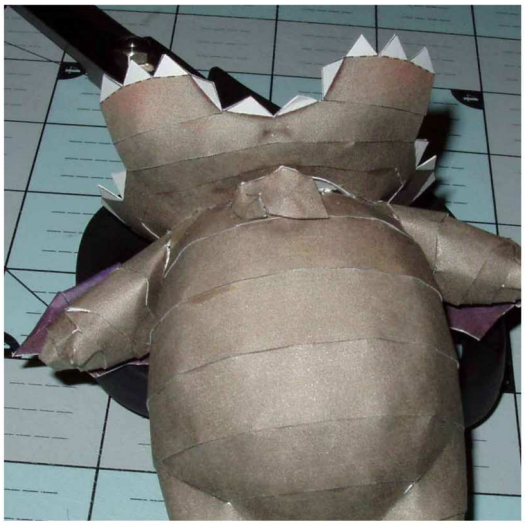


Attach to the torso

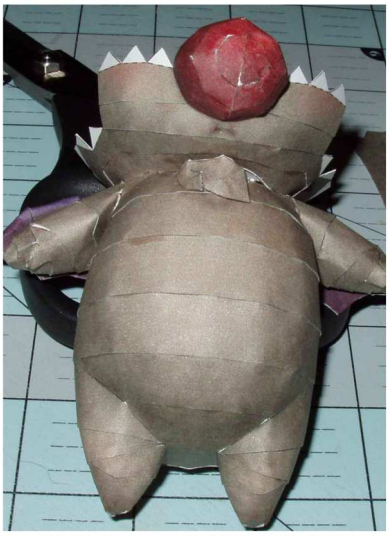
Construct parts 40-45 and 46-51



Attach the arms
to the torso



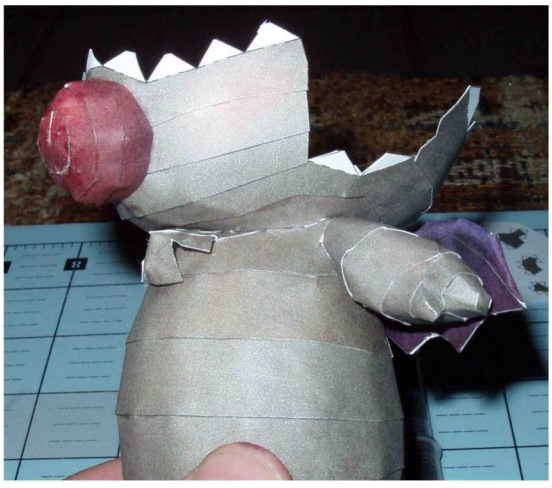
Attach parts
52-56

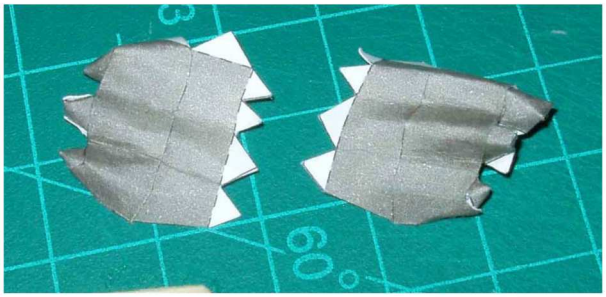


Construct and attach parts 57-61

Construct parts 64-68 and 69-73.
Be sure to pre-shape the "waves"
if you're building the lineless version.

Attach parts 62-63





Attach the whiskers to the face

Attach parts 74 and 75

Attach parts 76-78

Attach parts 79-83

Be sure not to let your moogle fall into the wrong hands...
