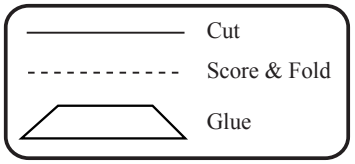
- Make sure all the Front panels are facing forward when you construct the model.

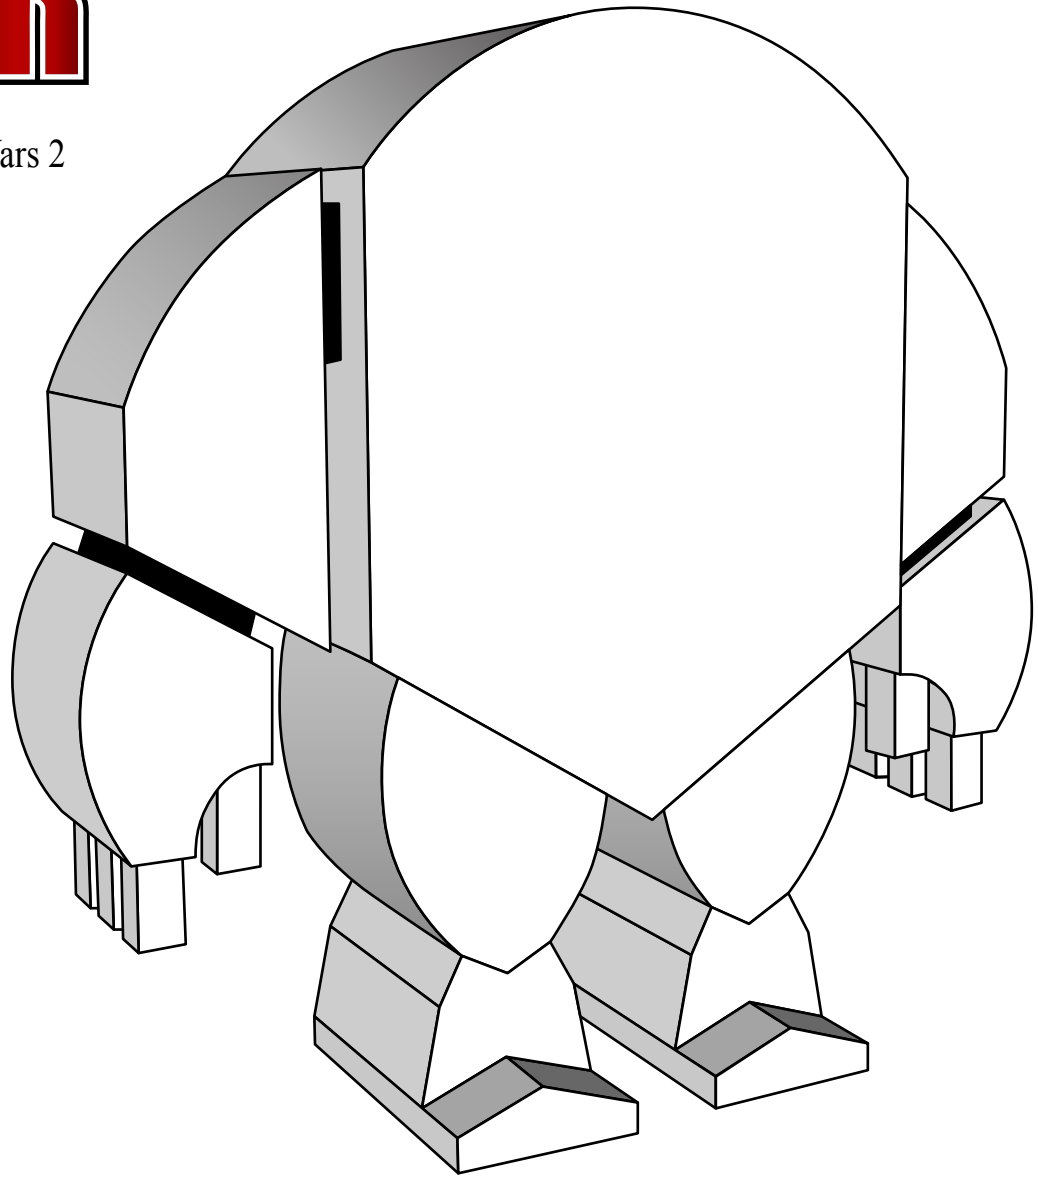
Red Servitor Golem

Based on the Collectible Miniature from The online MMO Guild Wars 2

Build Example



Construct the pieces to look like this.



- Build all the seperate pieces before constructing.
- When assembling the Legs. Line the 3 pieces up at the back. This will let the foot stick out the correct length.
- Cut the lines the thumb holes, ⊠ & insert the Thumb. You may need to cut slightly outside the box for fitting, but only do this if neccesary.
