HoB

Hello!

Thank you for folding our very own **Sprite Papercraft**
We hope you enjoy!

Follow the instructions below & observe the guides on the back for help along the way!

STEP 1 - Cut-Out

Carefully remove all pieces from the template with a cutting tool.

(If you have a Limited Edition version, continue to step 2)

STEP 2 - Pre-Fold

Use tweezers to crimp all flaps on every piece, while also using your fingers to lightly bend the pieces into their native shapes.

STEP 3 - Glue

Follow the flap numbering on each piece. Lightly apply glue on the green lines. Use tweezers or fingers to hold flaps closed while the glue bonds. Tightly pack every piece with tissue paper before completely sealing.

(Add coins inside the torso at it's base to help ground the figure)

STEP 4 - Join

Each piece has a matching shape that reflects where to glue.
Be sure of proper placement before dedicating to the bonding.
