

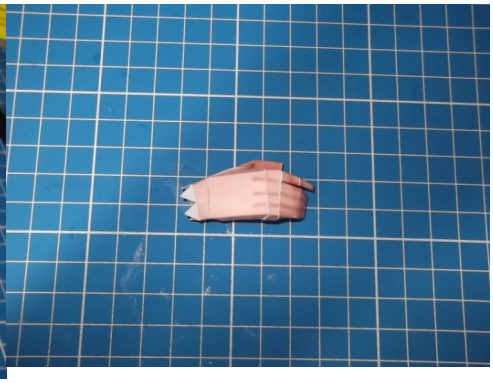
LIGHTNING AYA´S COSTUME

WWW.THELASTINLINEAGAIN.BLOSPOT.COM

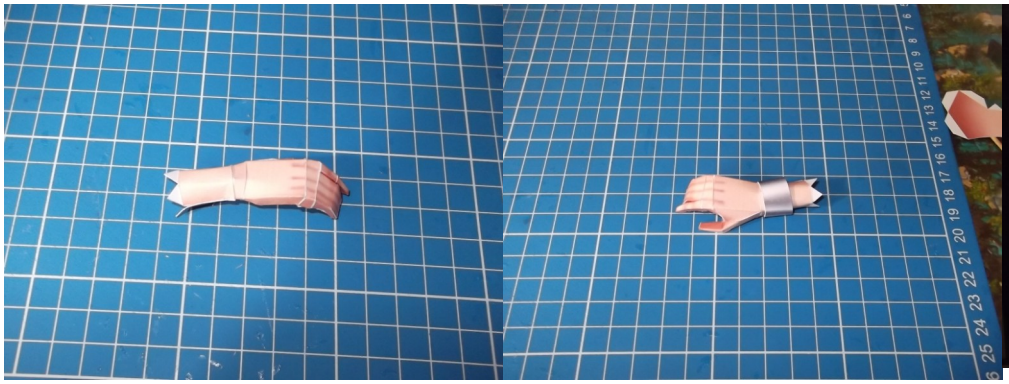
First build the right foot (1-7) then make a Little cut on (8) to place piece (9) finish the boot and glue pieces (11-16) to finish the leg.

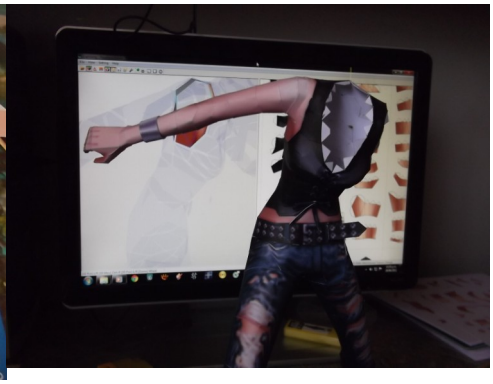
Do the same for the left leg (17-32), now take pices (33,34) to attach both legs together, glue pieces (35-37)

Now attach pieces (38,39) and (40-43), once you have the body, attach piece (44) at the red point on the belt and pieces (45,46) on the abdominis.

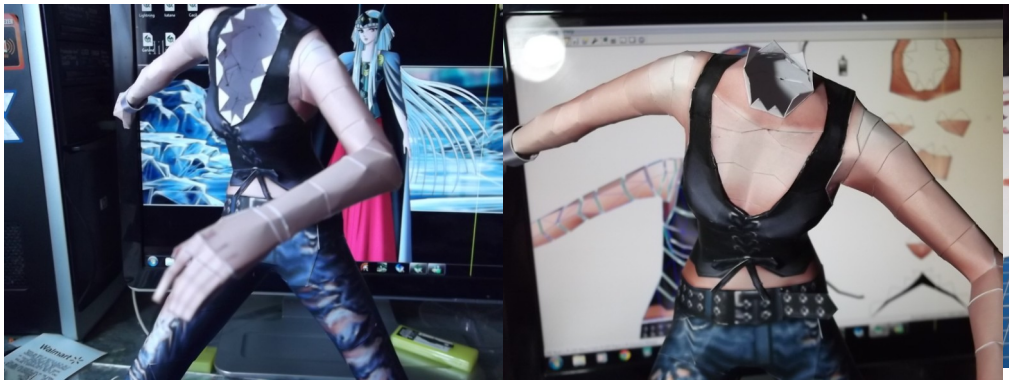


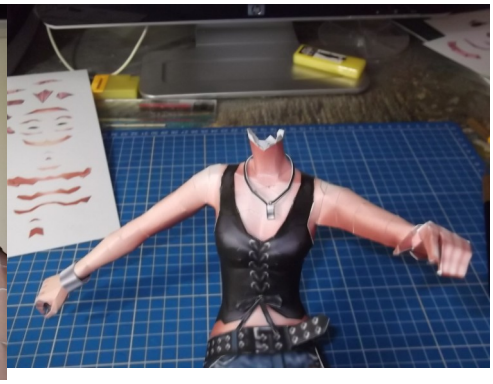
Glue pieces (47,48), then complete the back and the shoulders (49-53), lets start with the arms, first the right hand (54-61), remember first build the fingers then the hand.





Now attach piece (62) and fold piece (63) to glue it on the wrist, complete the right arm (64 -72) and attach to the body.



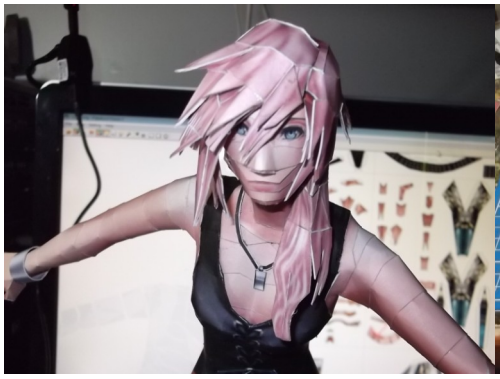


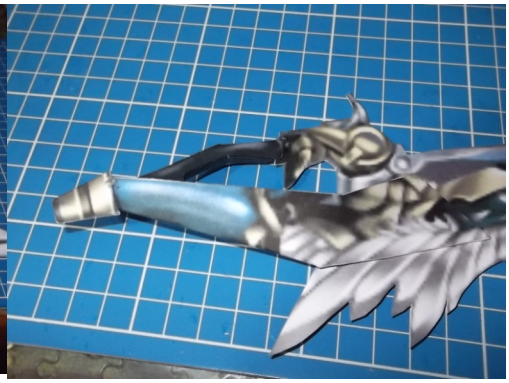
Do the same for the left arm (73-90) and attach to the body, this part is difficult so take your time to glue pieces (91-97), now build the neck (98,99) and place the necklace (100-102).

Here comes the most difficult part, first build the face (103-118), now glue pieces (119-123) at the nape, then build pieces (124,125) and attach to the head.

Place pieces (126,127) in the red points, trim the excess. Continue building pieces (128,129), then build all the spiky hair (130-141) on the right side.

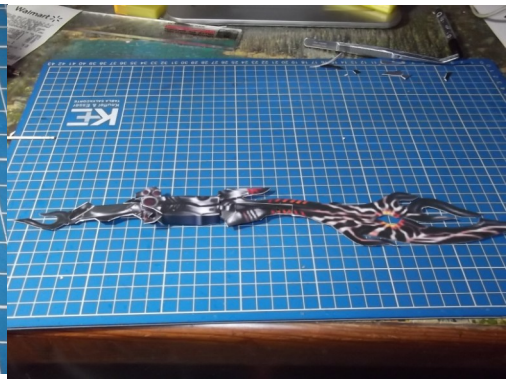
Now glue pieces (142-145) and close the head with pice (146), you will need to press a Little bit the head to close it.





Now place all the hair details (147-161) if you want.. Lets build the swords, first build pices (162,163) then build all the blade (166-170) to attach the blade to the grip you need to cut the blade making a silhouette with the grip´s form, now build pieces (171-173) and attach to the grip.

The omega weapon, first build pieces (1-4), now glue piece (5) on the red points. Trim the excess.



Build pieces (6-11) to build the grip, remember, the red points are for place the double sided textures, now build pieces (12-14) and attach all together.
