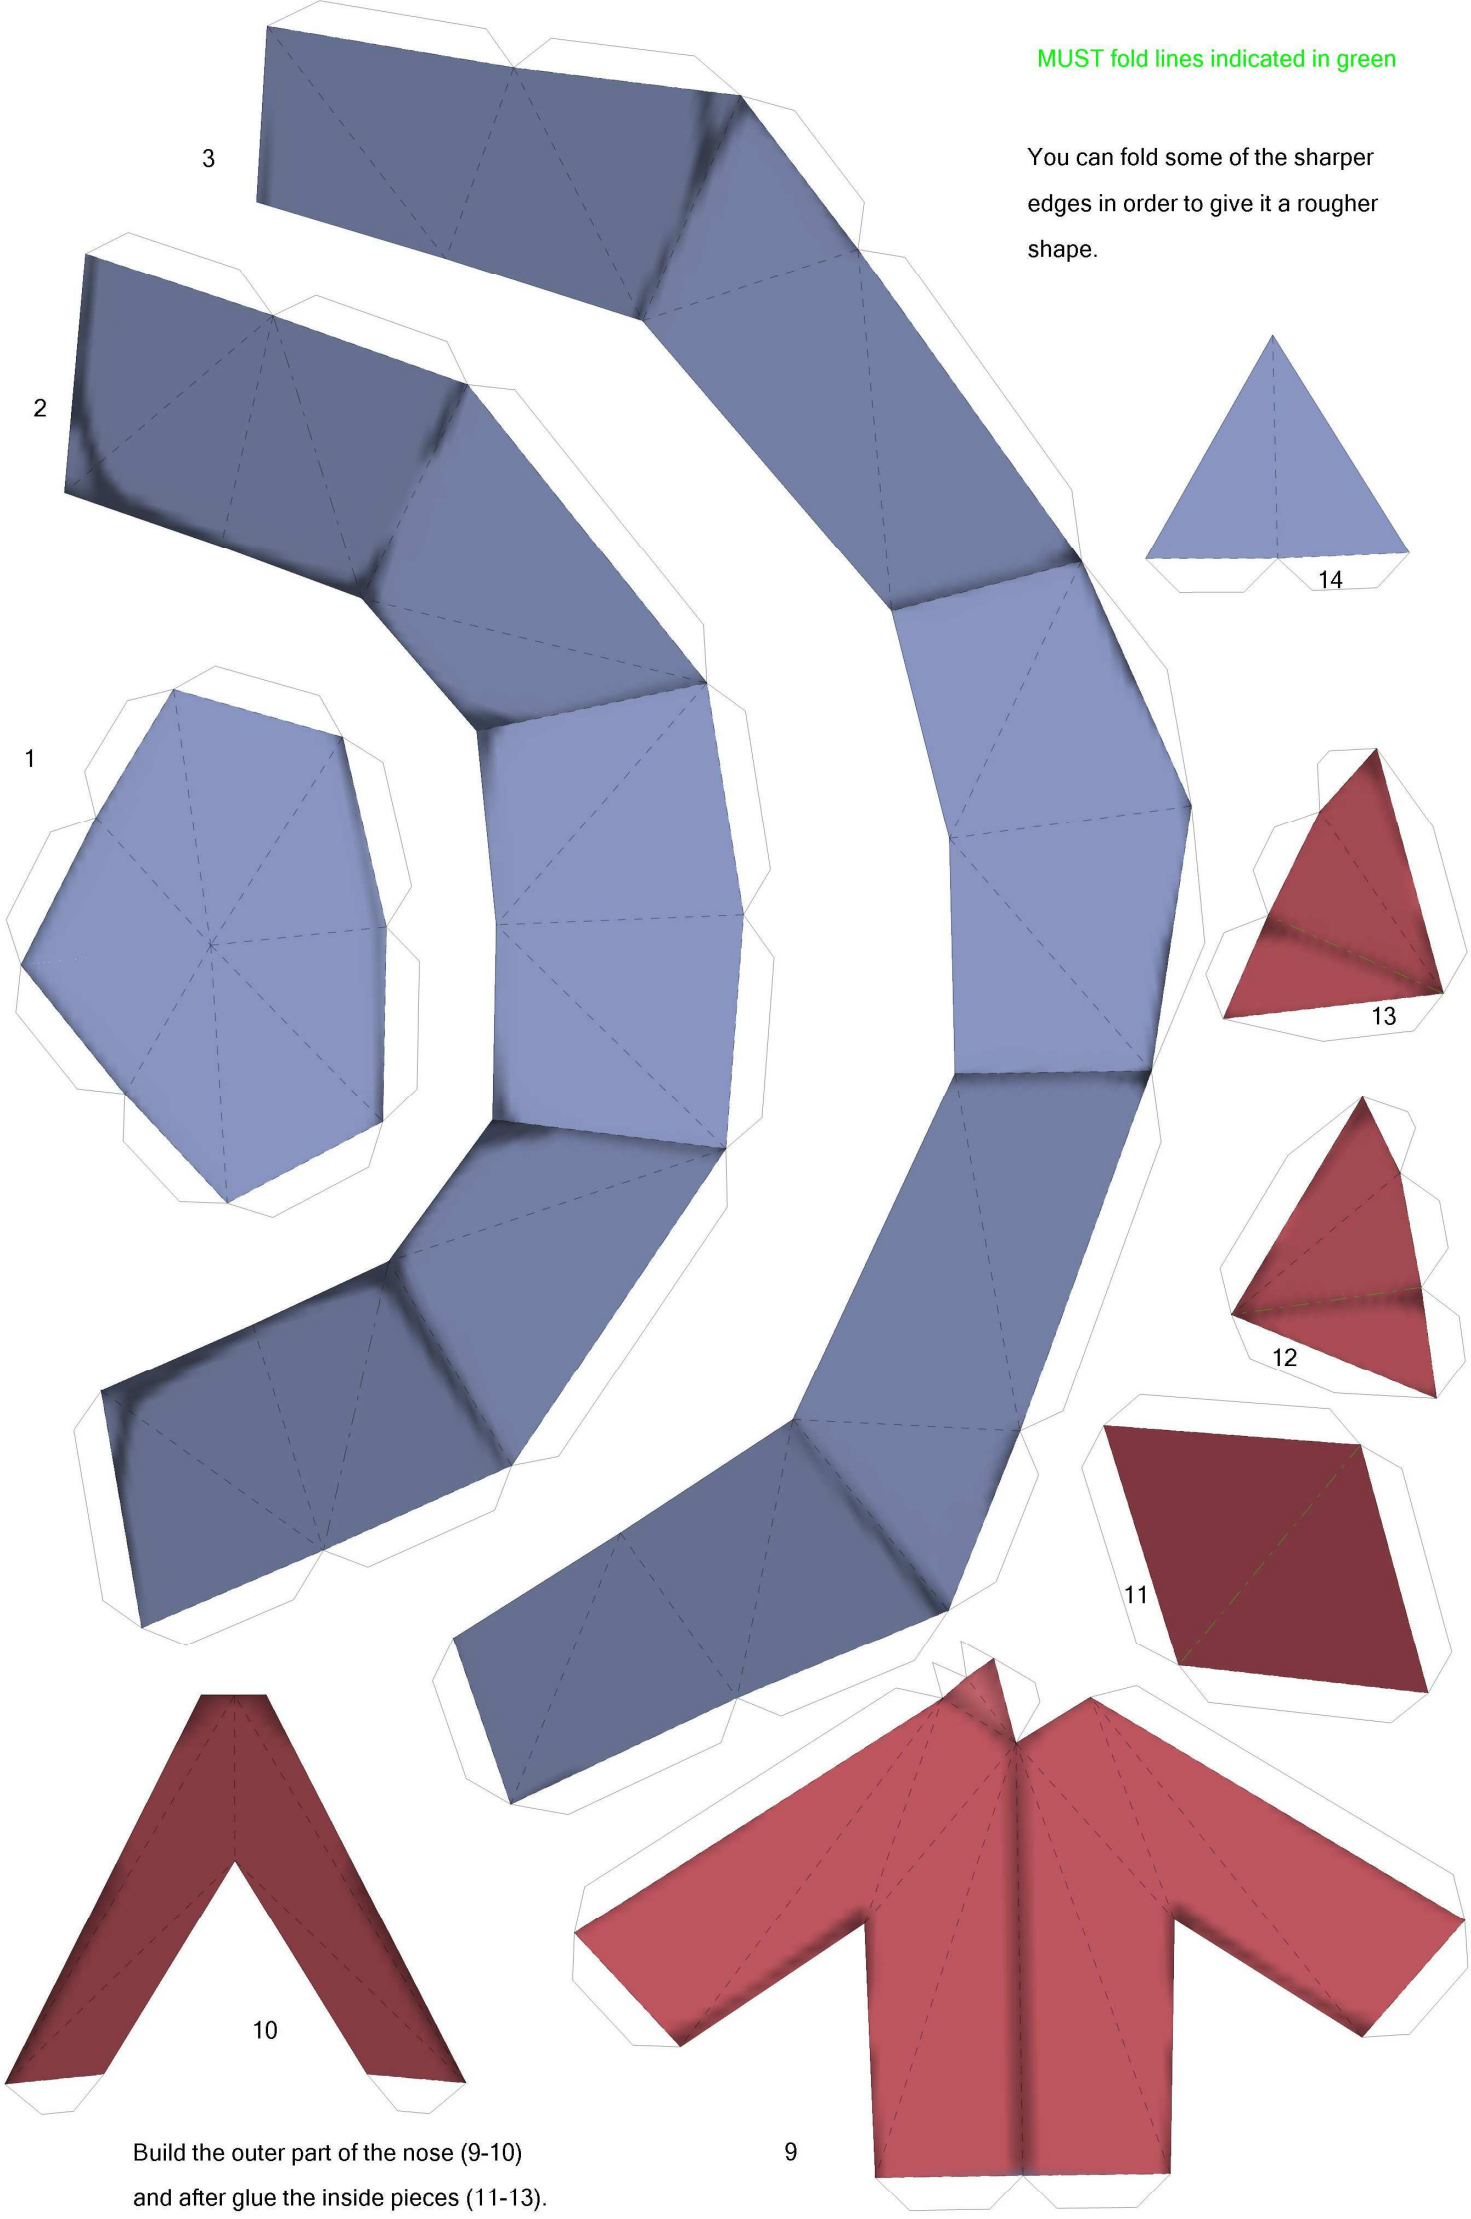
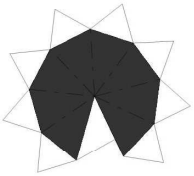
MUST fold lines indicated in green

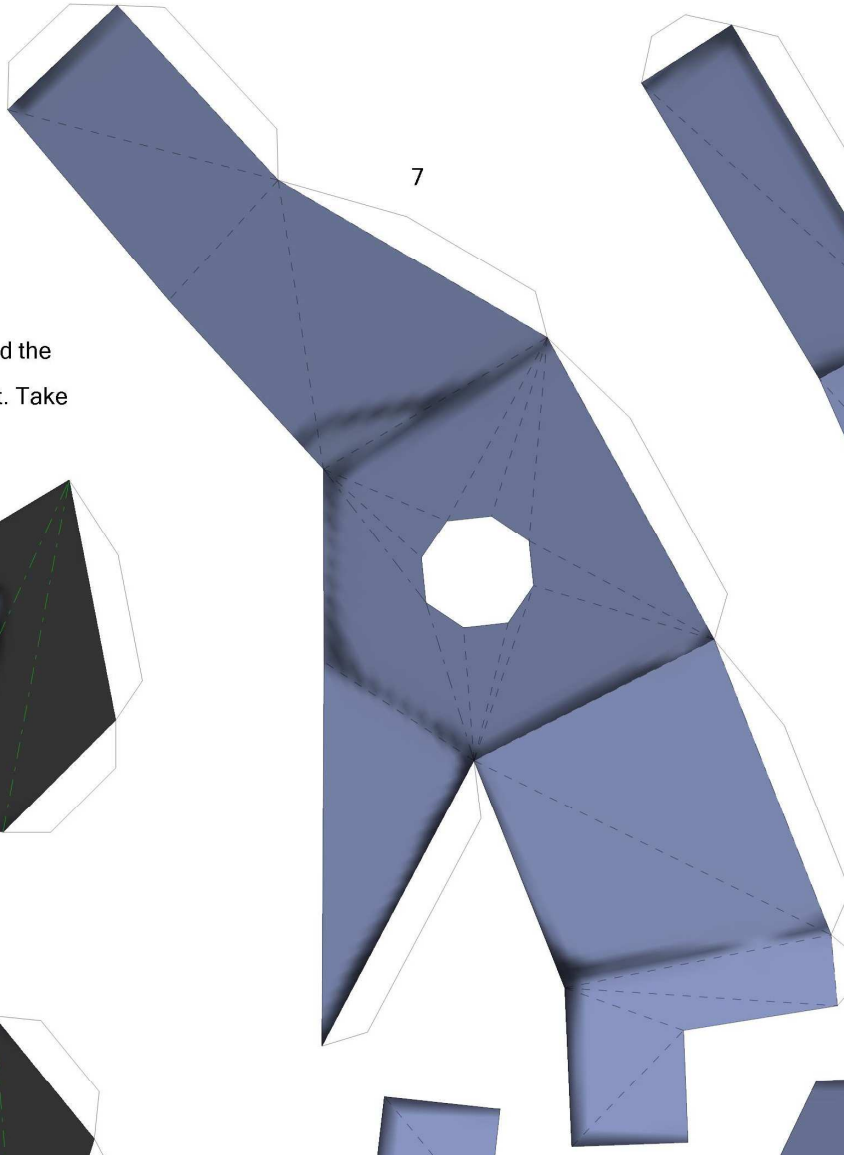
You can fold some of the sharper edges in order to give it a rougher shape.



Build the outer part of the nose (9-10) and after glue the inside pieces (11-13).

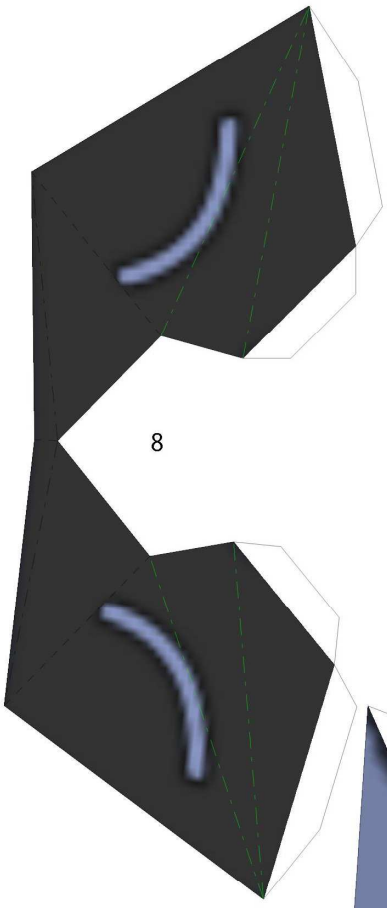


6

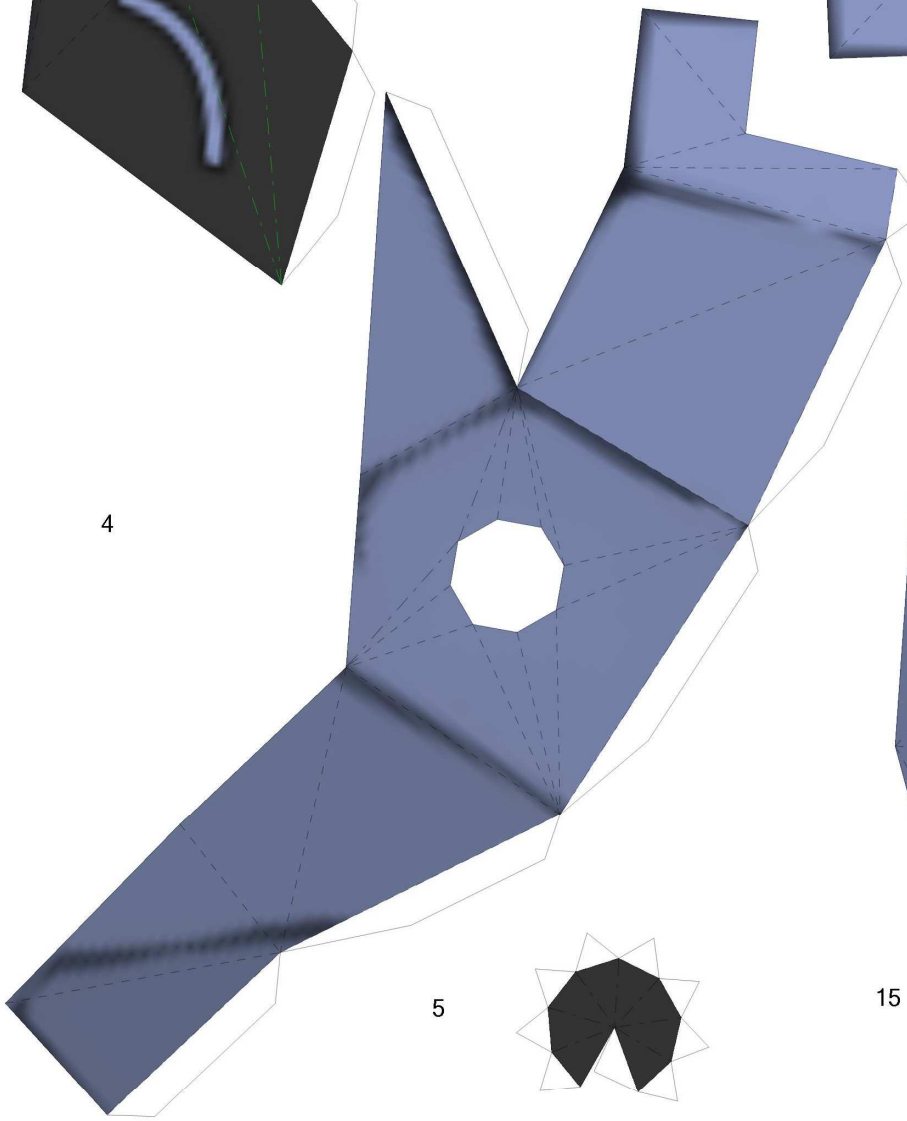


7

Connecting the nose and the eyes is the harderst part. Take your time there.



8



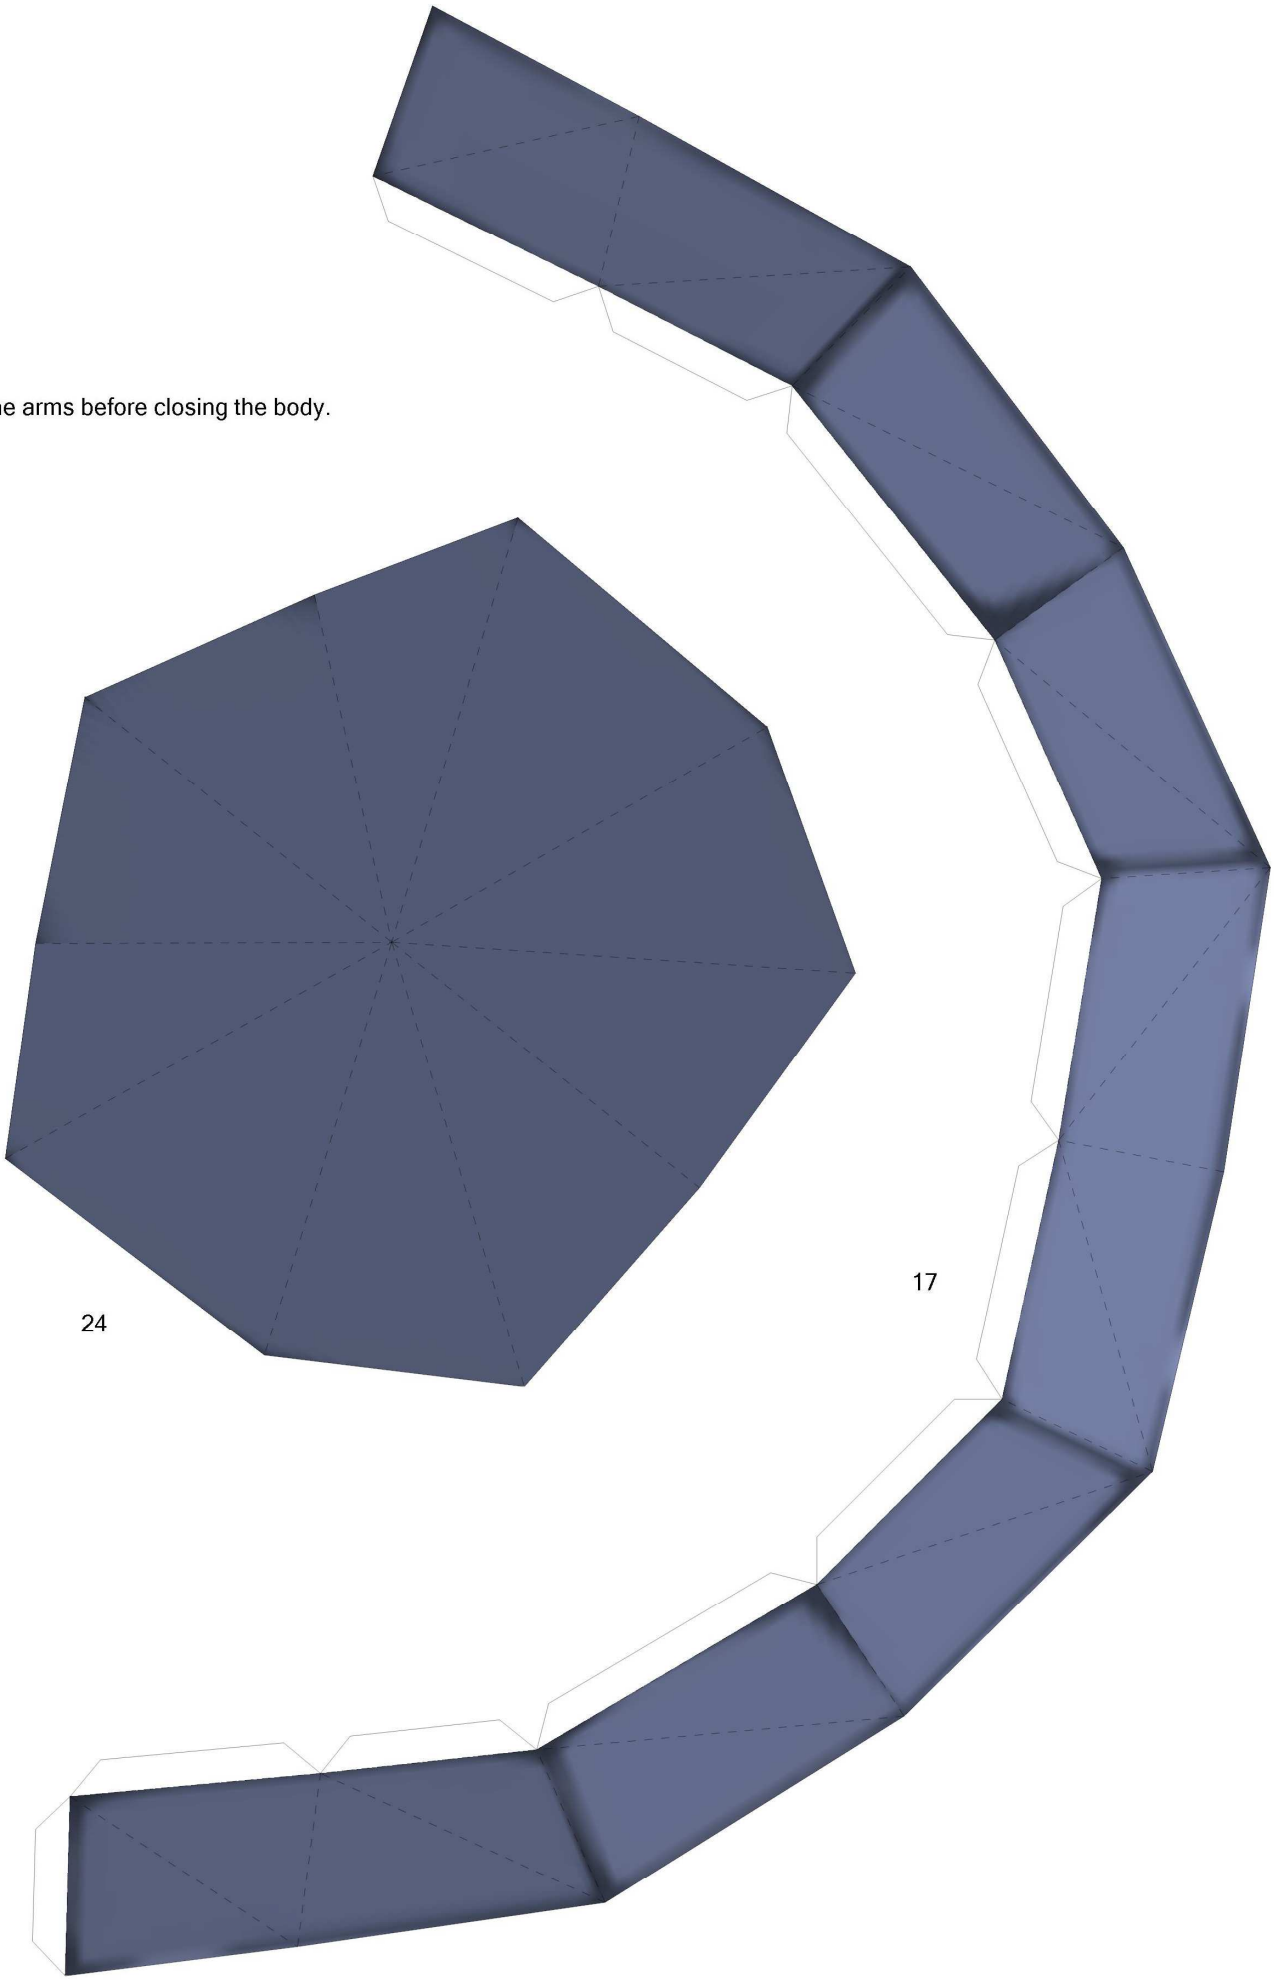
4

16

15

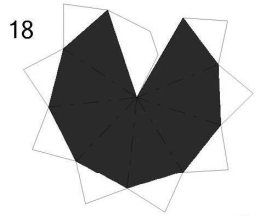
5

Glue the arms before closing the body.

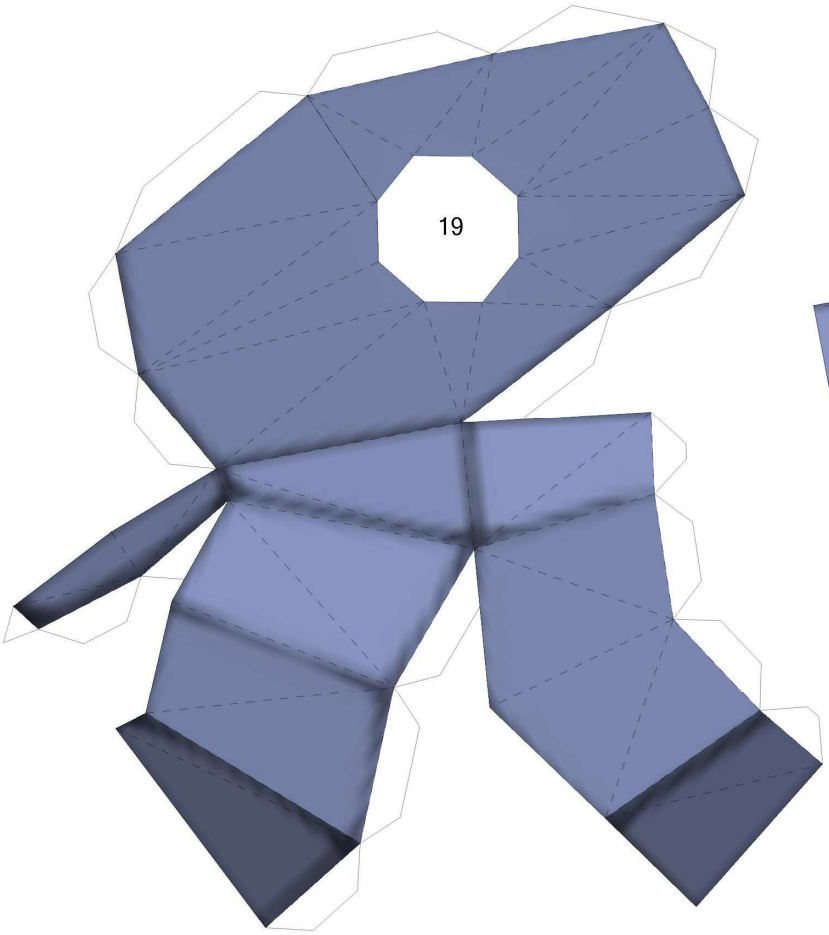


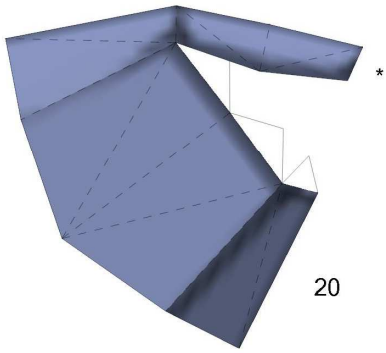
24

17

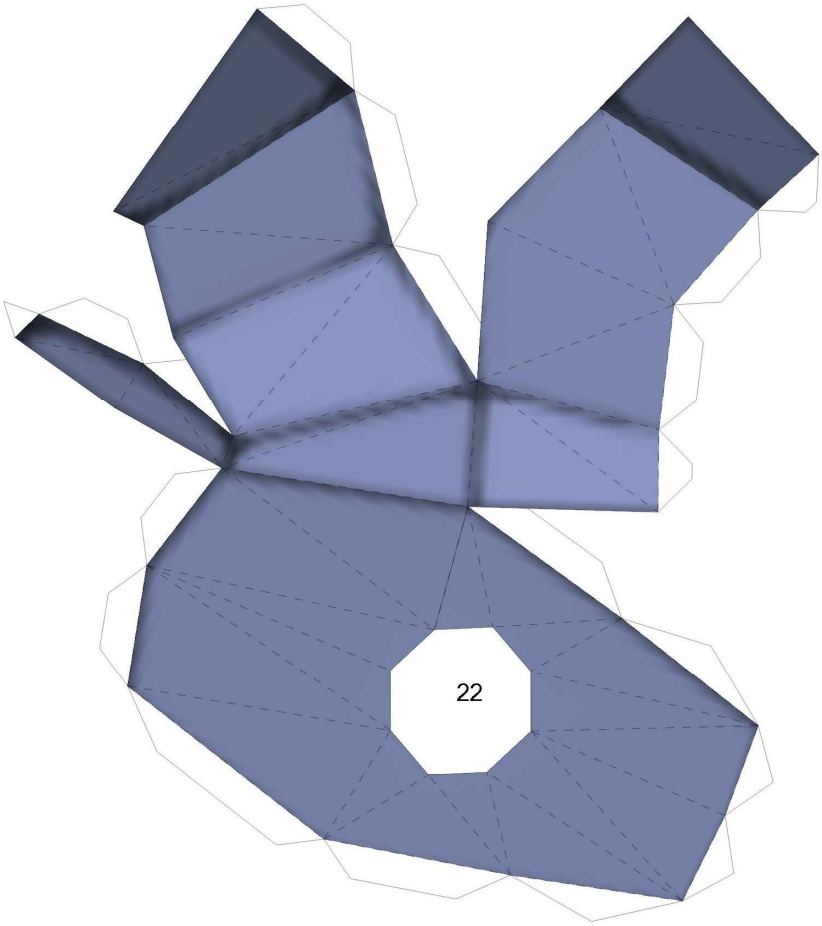


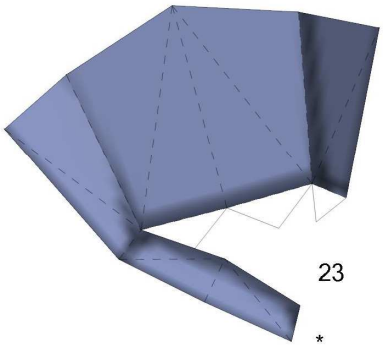
CLose the arms at the *

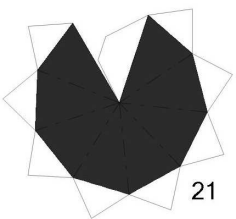




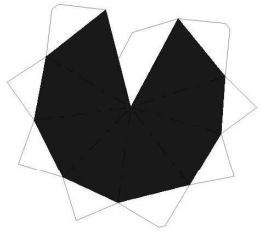
You can glue the arms any way you want. You can also use magnets, put one inside the arms and glue one on the inside of the body where it connects.







25



After closed, place the legs side by side and put the body on top on a position similar to the pdo. Put glue on top and let it rest there til dry.

Close the legs at the top
