

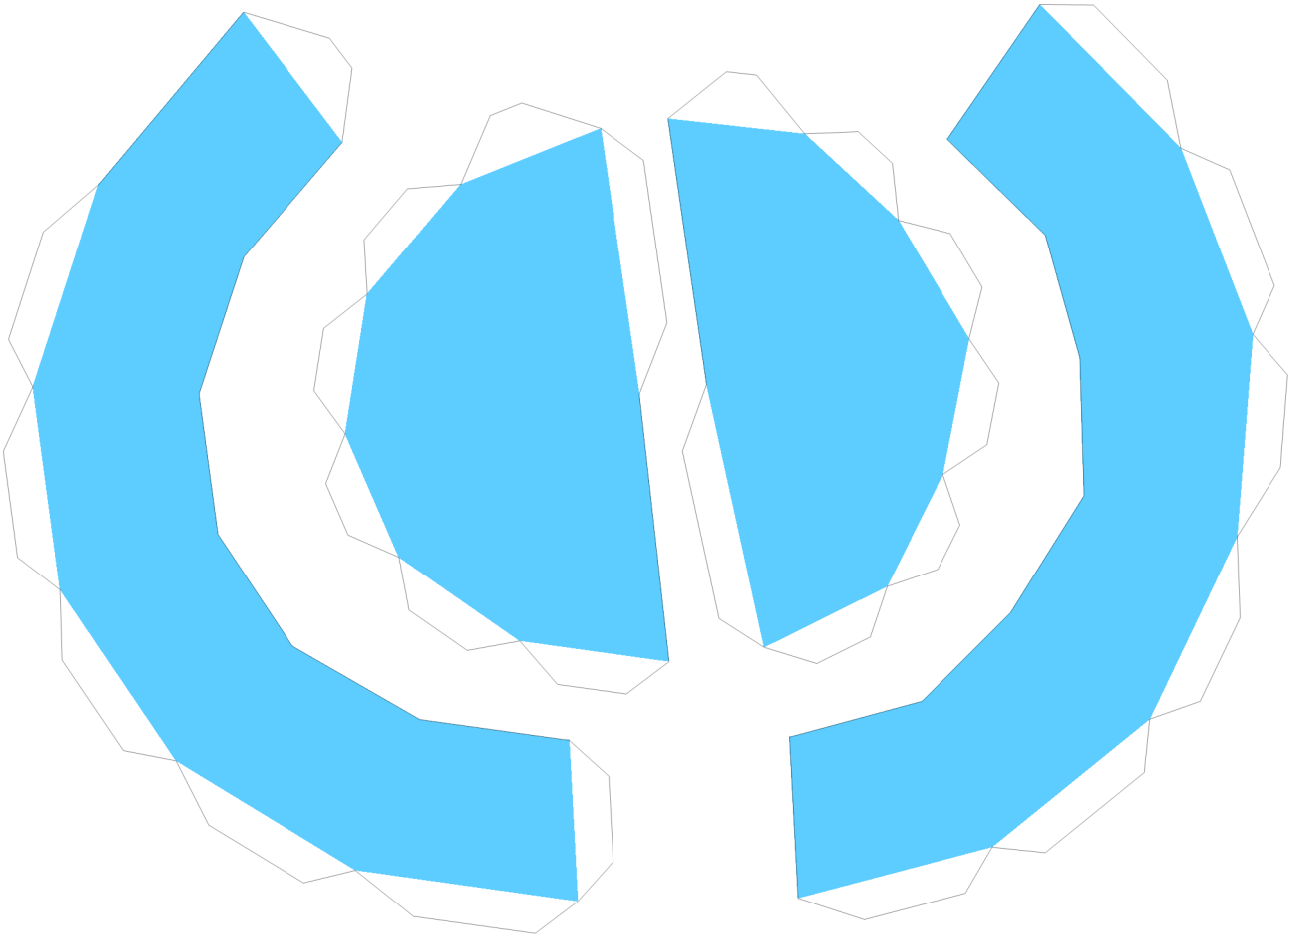
CHINCHOU

by PMF

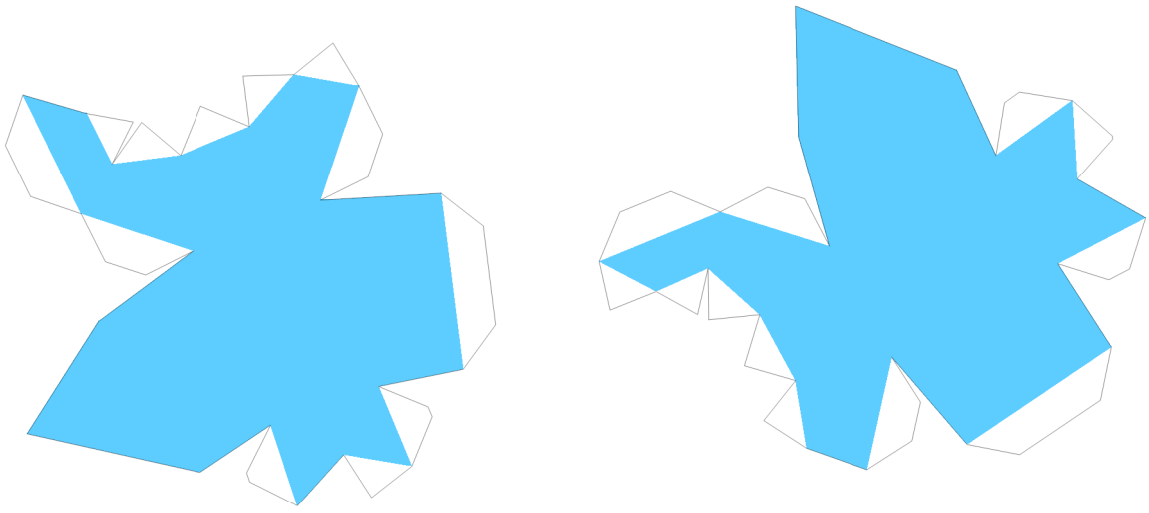
PaPerPokés

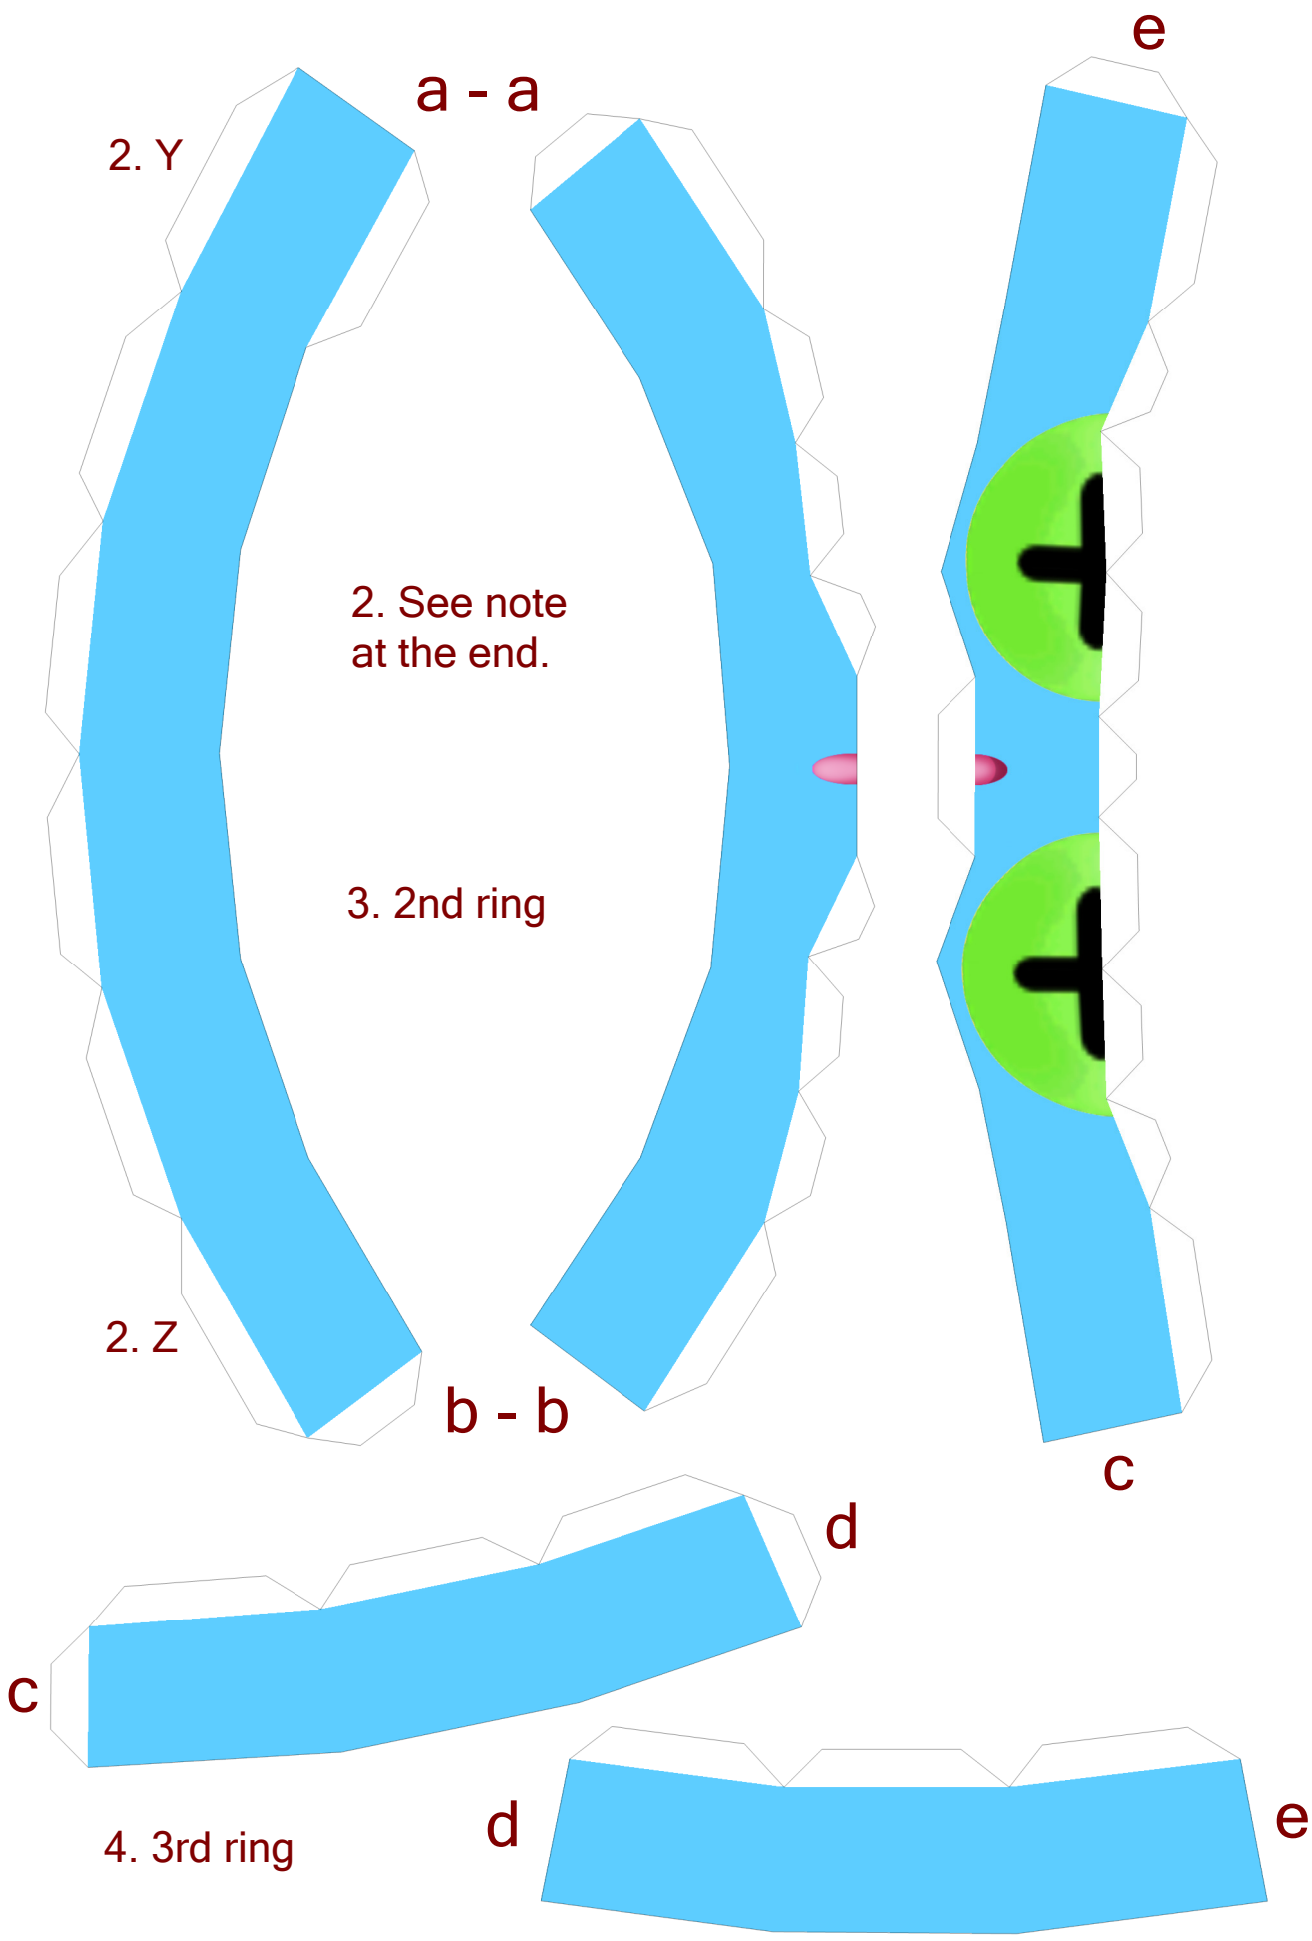
www.pokemonpapercraft.com



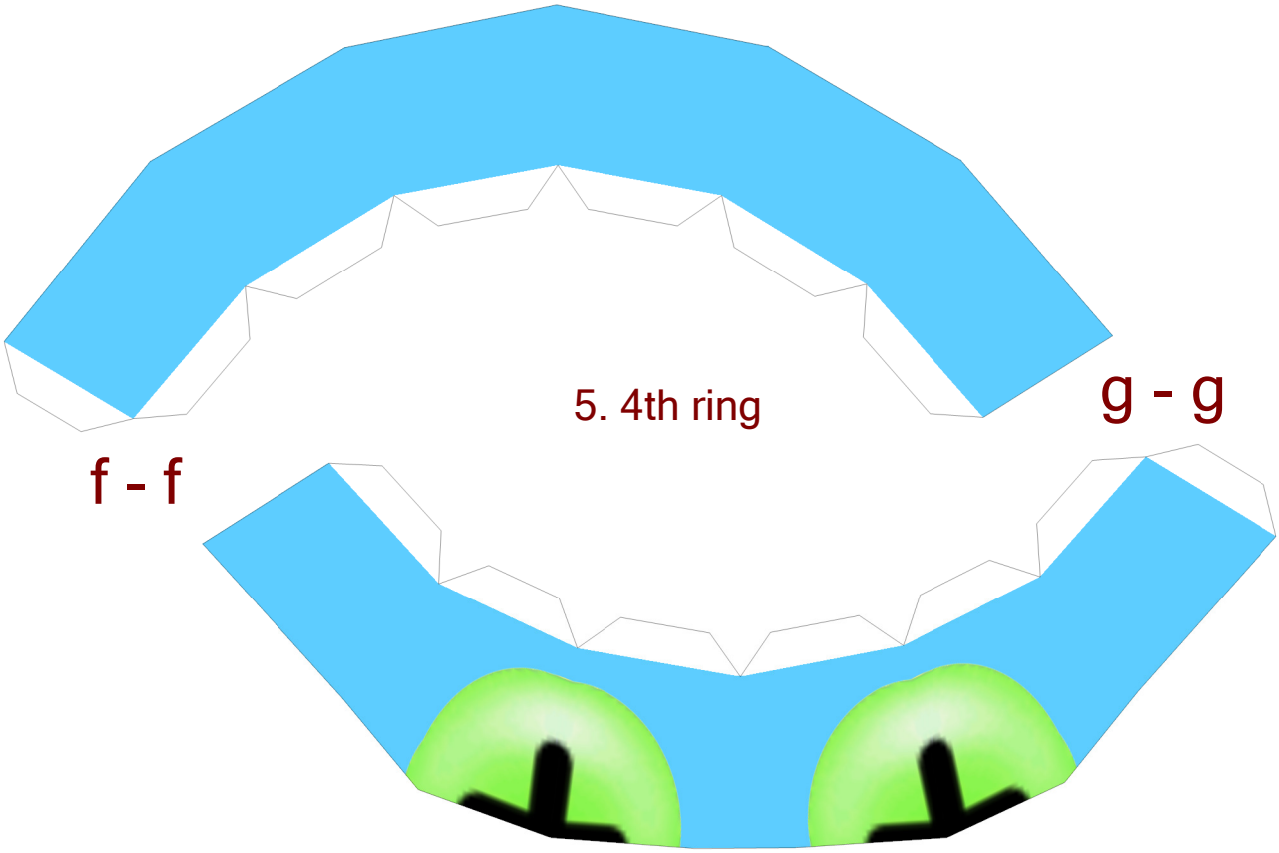
1. Start by building the bottom.

Build feet now of wait til the end.
Doesn't matter, they are glued on the body.

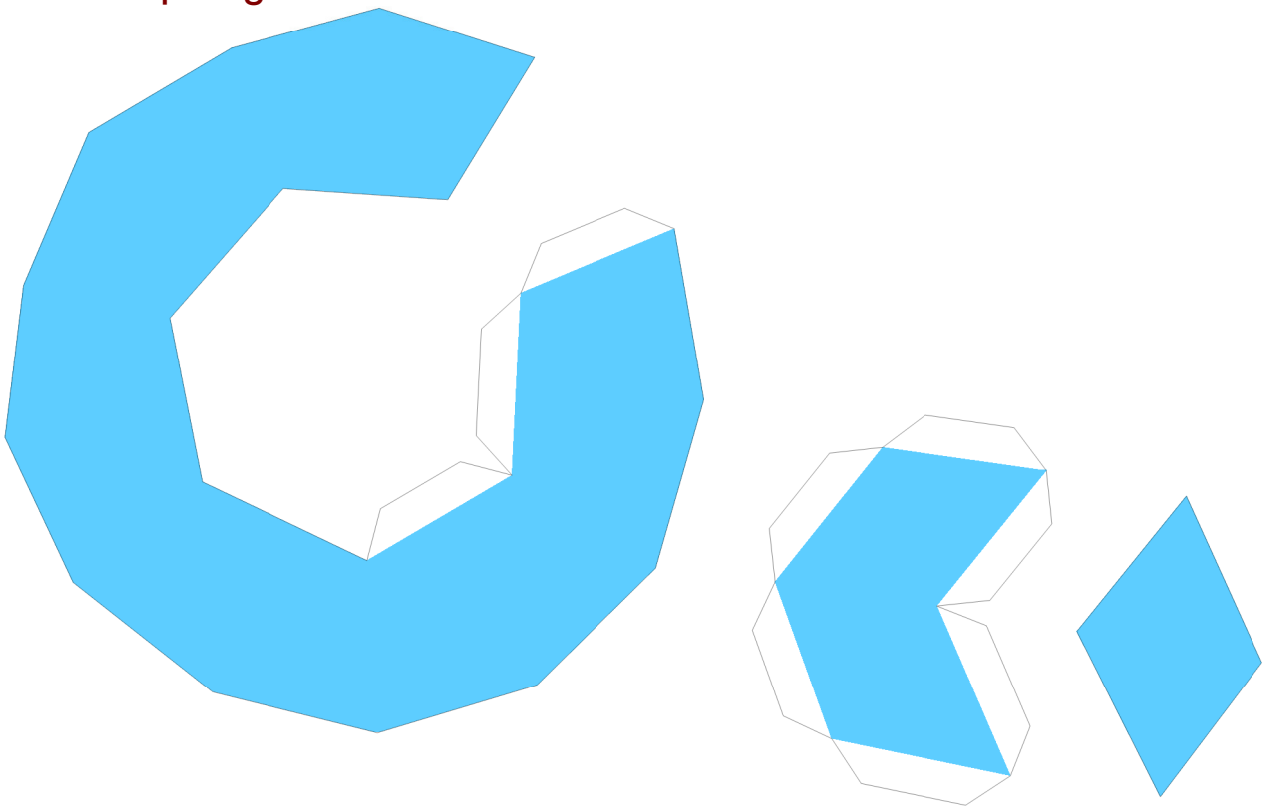




a - a
2. Y
2. See note
at the end.
3. 2nd ring
2. Z
b - b
e
c
d
c
4. 3rd ring
d
e

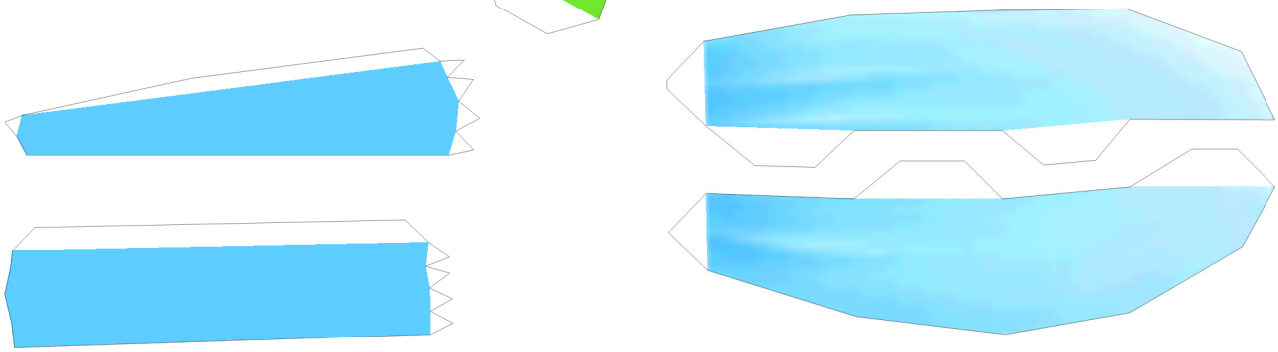


6. top ring

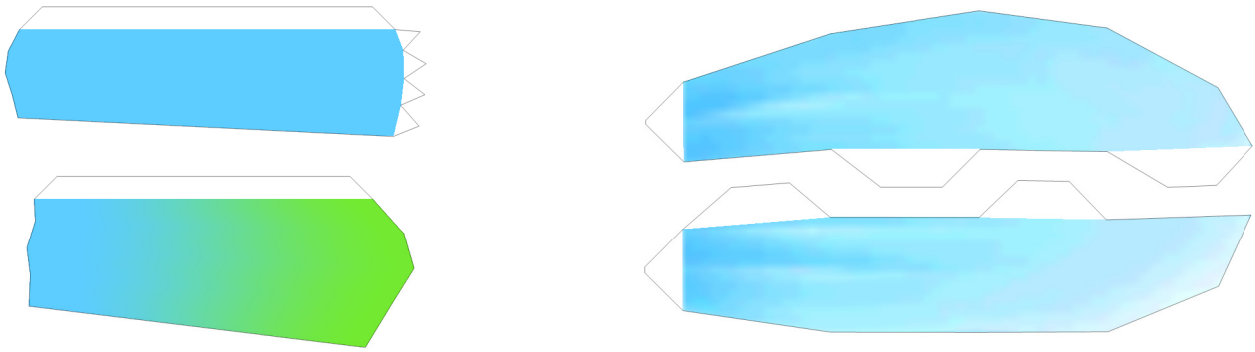


7. Glue the left part on the top.
Then close with the no-tabs piece.

Right antenna



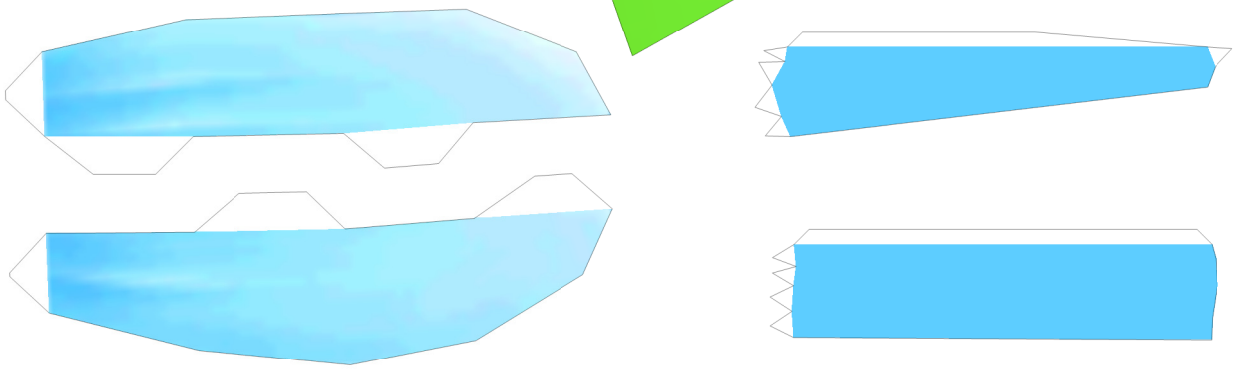
2. Y



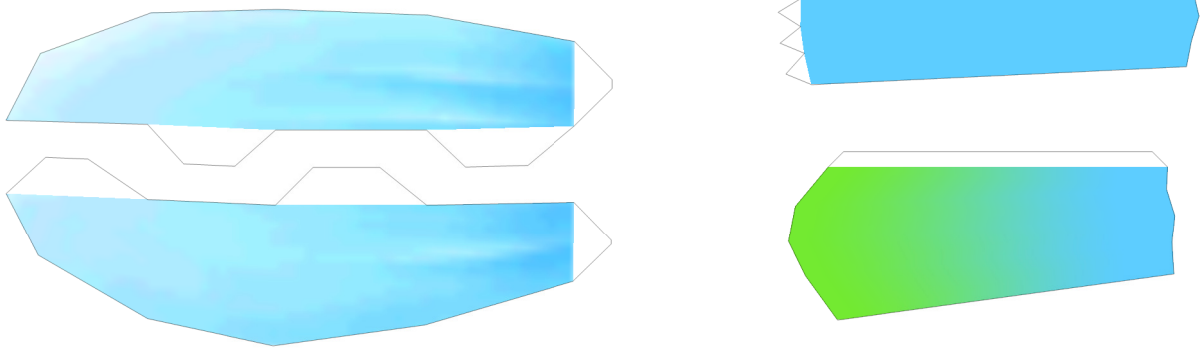
8. Build the bulb part first, starting at the paler base.

9. Glue each piece of the antenna piece by piece, starting at the top of the bulb. Glue on back of body.

Left antenna



2. Z



2. You can either glue the wings on the body or, better is to cut a small slit on each side and glue the wings thru it. The place where you should cut are noted Y and Z, follow the folds.
