INSTRUCTIONS

- Take and cut the page 1-3. Put the leg's pieces aside (page 3.)
- Form all the "Black pieces".
- Create the Head (Yellow parts on page 2-3).
- Glue the body pieces from page 1 to the head part.
- Glue the "Black Pieces" to the body.
- Glue the body's sides (page 2).
- Glue the bottom of the body (page 2).
- Create the Left Leg (page 3) on the body starting from hip to the bottom of the feet.
- Close at the bottom of feet.
- Do same with Right Leg (page 4 / keep fingers for later).
- Add some pennies/weights inside the Right foot before closing.
- Cut the pieces from page 5-6.
- Keep the Green Shoulders parts for later.
- Form all the "Black pieces".
- Create the arms from shoulder to hand (or reverse).
- Glue the black pieces as you build the arms.
- Build the Yellow Shoulder/Hands (page 7-8).
- Both sides are identical so glue the Shoulders on each side of the body.
- Glue the Hands on each of the arms. Let it dry.
- Create the Fingers (page 4), they are two pieces. Build each parts and close the fingers by glueing both part together (at middle of fingers).
- Finally, build the 2 Green Shoulders parts and glue the over the body.
- This will be hard without Pepakura. There's some colors to help you tho.
