HALF-LIFE ALYX

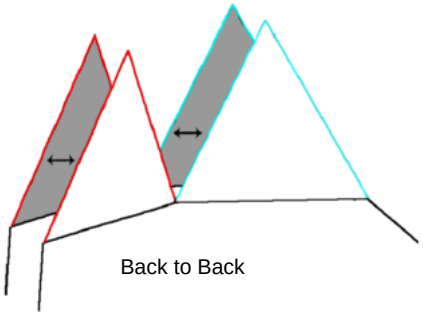
G-Man

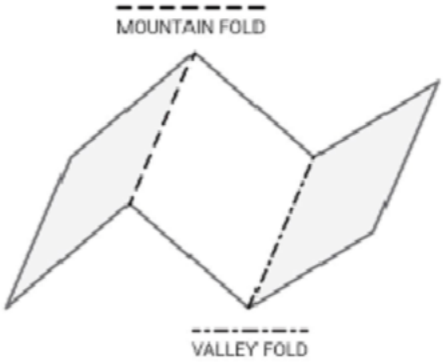
"The right man in the wrong place can make all the difference in the world."

- A weird man in a suit

Main parts:

A: 1-7 Shoes
B: 1-11 Legs
C: 1-17 Body
D: 1-13 Arms
E: 1-6 Bib and a Tie
F: 1-24 Head
H: 1-19 Hands
Extra: 1-5 Brief case and a crowbar





Note:

This model is intended for Smooth method, check the other version with lines.
The lines are for folding to give an edge to a smooth surface.

The colored flaps are there to guide you to which side will you stick the flap and the colored flaps are intended to be glued back to back from the same color and the rest has to follow to support the hollowed area.

You must follow the numbering in order to have the best results.
Parts like E 1-6 (polo and tie) and F 1-24 (Head) are meant to be easly slide to vacant area.

You must use thick paper or thin card for this model.
Office paper will not be strong enough to support its weight. I prefer using 140gsm or 160 gsm for a good results.
Also consider placing small weight (like coins) inside the shoes to keep it upright.

Thank you and have fun building!
