

Tidus

Sorry, but no photos this time.

SHOES

Firstly, attach part 1-5 first, making sure to preshape part 1.
Trim of the excess of part 6 and glue it to the tab with a .
Then, attach part 7 and 8 and glue it to the flat part of the shoe.
Flatten the tabs above part 8 and glue part 9 to it. Refer to the PDO to make sure you it is in the right direction.
Repeat with parts 18-26.

LEGS

Attach parts 10-14 and glue it to the shoe, referring to the PDO for the right direction and angle.
For the right leg, make parts 27 and 28, but cut a hole in 28 to insert the leg later.
Then make 29 and 30 and try to insert it into the hole in 28 until it fits.
Then glue part 27 and 30 to the shoe, referring to the PDO again for the right angle and direction.

PANTS

Attach parts 15 and 16, by doublesiding part 15 and trimming of the excess.
Then insert part 17 by referring to the PDO for the right direction.
Repeat with 31 -33 and then attach 34.
Now attach part 35 and 36.

BELT

Preshape and glue part 37 together, then attach part 38 and 39 to it. Repeat with parts 40-42.
Then attach parts 43. Doubleside and trim part 44 and attach to the tabs marked with .
Make parts 45-47 and 53-55. Doubleside ant trim parts 48-50 and glue them together.

SHIRT

Attach parts 51,52,56 and 57 together. Attach 58-61. Then attach 62. Attach parts 63-66.

ARMS

Preshape and make parts 67-77, referring to the PDO if you find it hard.
Then,doubleside 78 and trim it to make the bangle.
Make part 78 and insert the bangle, before making parts 79-84.If you find any sides which have 2 tabs, glue the backside of the tabs together.
Doubleside part 85 and trim the excess, before glueing it to the tabs.
Glue 86-89 and attach to the body. Do not worry if the arm stick out, as we will fix that later.
Now repeat with the left arm and refer to the PDO to make sure you have the correct angle and direction when glueing the hands to the forearm and arm.
Attach part 182, trimming the excess and doublesiding as usual, to part 98.

COLLAR

Before that, to fix the arms. Crush them to the right angles and glue it in place.
Now make part 105 and 106, trimming any transparent parts (cut the tabs too so it will not show when you glue other parts later).
Attach 107-111, referring to the PDO, doublesiding and trimming where necessary.
Attach them to the shirt and attach part 112-117.
Make 133-135, timming and doublesiding as usual, and glue them to the neck.

HEAD

Attach 118-132 and the glue 157 and 158 to it.
The hair is very tricky, but start with 137. Trim and doubleside, then attach it to a preshaped and folded part 138.
Make parts 139-146, folding and glueing where necessary. Refer to the PDO if it gets confusing. Glue it to the head.
Now make 147-156, folding where necessary.
Make 161 and 162 and attach to the head.
Now preshape and make 163-170, referring to the PDO.
Finally glue the 5 unlabelled parts (sorry, forgot to label them) on the 11th page to the head.

SWORD

Make 171-174, preshaping them first.
Then, double side and trim 175-179. Refer to the PDO and attach them to the sword. Slide the sword into Tidus's hand and attach 180-181.

There, finished. Hope your build was fun. You know, you may hate your dad, but he will always love you.
