## Zebra

- Mammalia Perissodactyla Equidae
- Length (incl. tail): Approx. 2 to 2.4m (approx. 6.6 to 7.7 feet)
- Weight: Approx. 200 to 300kg (approx. 441 to 661.3 lbs)
- Habitat: Africa (ranging from northern Mozambique to Tanzania and Kenya)

Known for their distinctive black and white stripes, zebras are herbivorous animals from the equidae family. There are various theories about the functions of zebras' stripes, but it is thought that the depth of color and number of stripes help zebras to identify members of their herd, and that the stripes can also be used as camouflage when hiding from carnivorous predators.

Zebras usually live in groups consisting of one stallion and several mares and their foals. However, in the dry season they often move in herds of several hundred, traversing the land seeking water and fresh grasses. While on the move, they let out cries that are higher pitched than a horse's, and more similar to a donkey's bray.

Tools	Notation Key
Scissors	——— Scissors line
Paste, or woodwork glue	..... Mountain fold
Stencil pen, or bodkin	- - - - - Valley fold
Ruler	⊕ Glue spot
Pencil	⊙ Glue reverse side
	A1, B1 Parts No.

◆ The Assembly instructions are divided into four blocks: A (head and neck), B (body), and C (legs and back). Follow the instructions for each block to assemble your zebra.

◆★ marks a basic assembly technique that remains the same regardless of the part. Instructions are printed only for the first instance.

<Caution>

- ※ Keep scissors and glue away from small children.
- ※ Be careful not to cut your fingers when using scissors.
