Tools and materials

Scissors, set square, glue(We recommend stick glue), pencil, used ballpoint pen, toothpicks, tweezers, (useful for handling small parts)

Assembly tip

Before gluing, crease the paper along mountain fold and valley fold lines and make sure rounded sections are nice and stiff.

Caution

Glue, scissors and other tools may be dangerous to young children so be sure to keep them out of the reach of young children.

Before starting assembly :
Writing the number of each section on its back side before cutting out the sections is highly recommended.
(* This way, you can be sure which section is which even after cutting out the sections.)

→ Indicates where sections should be glued together.
→ Indicates where to insert sections.
Do not glue the sections together.
Indicates sections that should be glued first, then cut out.

[1] Assemble the foundation and base pillars.

The staircases are minute and difficult to fold. Use a ruler to define the folding lines as shown in the illustration.
