DISASTER
dioramas!

(Inside of tank - top)

This panel goes inside of the top of the tank. Fold over on the dotted line and under on the dashed line to create a terrace.

Place inside of the top of the storage tank around the dark grey section of the tank (slanted angle down towards the front of the tank where the hole is).

(Inside of tank - top of hole)

cut here

Bend the piece down (mountain style) on the dotted lines, and up (valley style) on the dashed lines. Place inside of the top of hole in the storage tank. Secure to the inside of the tank. You probably will need to fold up the pieces/tab near the "cut here" to secure to the inside of the tank.
