

Lulu's Cait Sith doll instructions

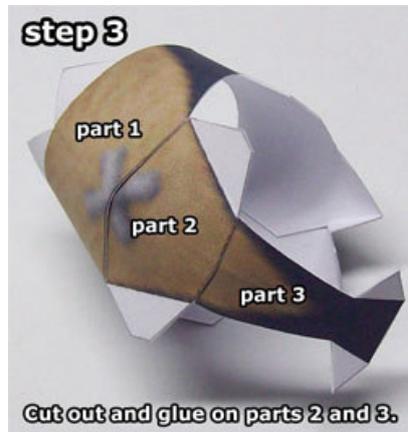

step 1

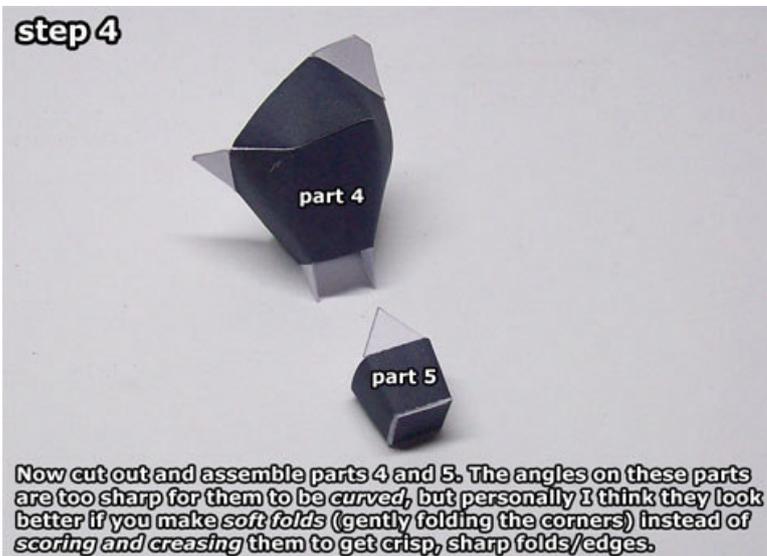

step 2

step 3

step 4

step 5

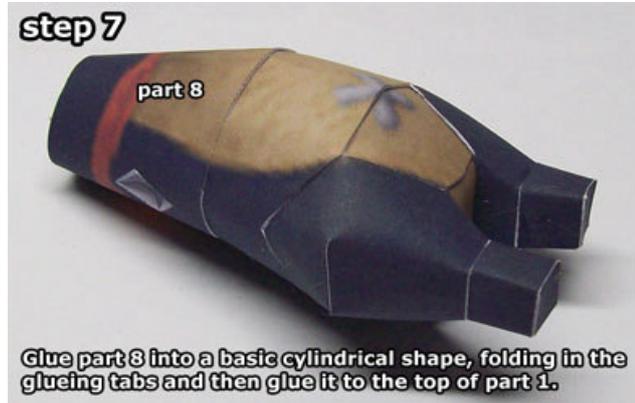

step 6

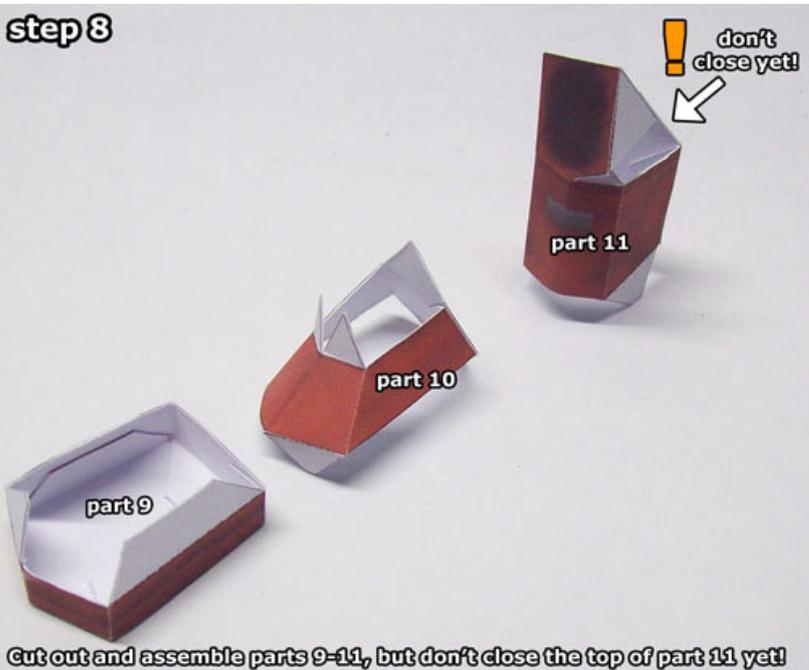

Do the same for the parts 6 and 7 on the left side.

step 7

Glue part 8 into a basic cylindrical shape, folding in the glueing tabs and then glue it to the top of part 1.

step 8

Cut out and assemble parts 9-11, but don't close the top of part 11 yet!

step 9

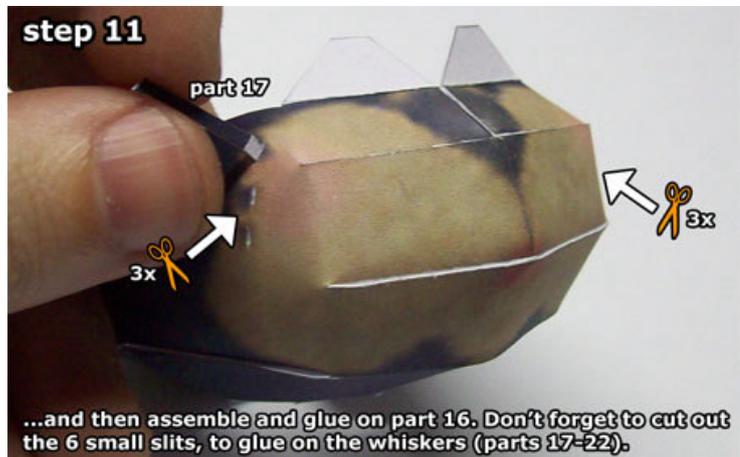

Wait until you've glued all three parts together, before closing the top. Do the same for parts 12-14, and then glue them underneath the legs. Make sure Gait Sith can stand with both soles flat on the floor.

step 10

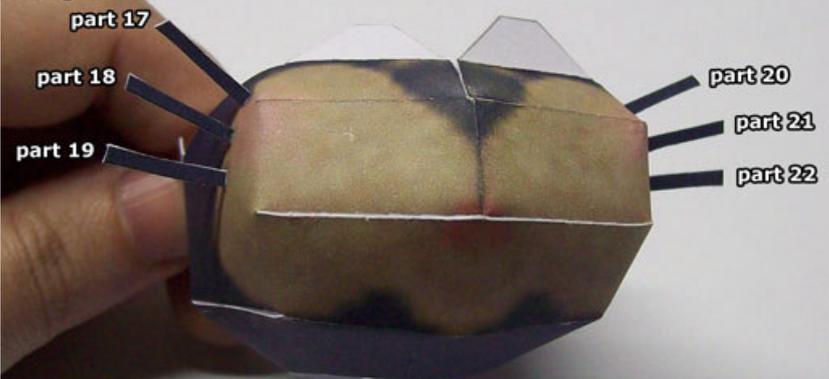

Glue the two ends of part 15 together...

step 11

...and then assemble and glue on part 16. Don't forget to cut out the 6 small slits, to glue on the whiskers (parts 17-22).

step 12

You can simply glue the whiskers on top of part 16, but I thought it would look better with the glueing tabs on the inside.

step 13

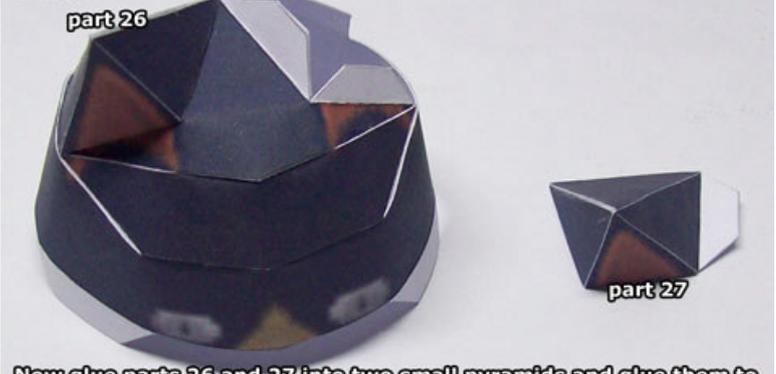

Glue together the back of part 23 as shown here...

step 14

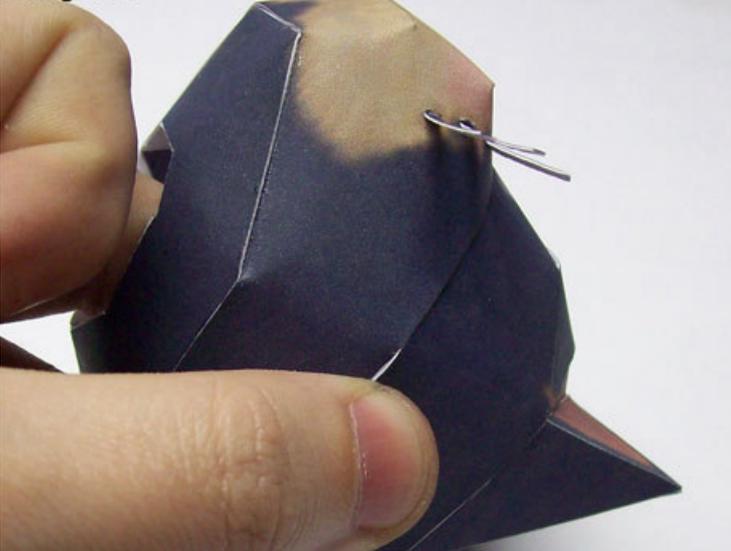

...and then glue on parts 24 and 25.

step 15

Now glue parts 26 and 27 into two small pyramids and glue them to the head as shown here.

step 16

Take your time to glue the two halves of the head together, using the hole in the bottom to reach inside.

step 17

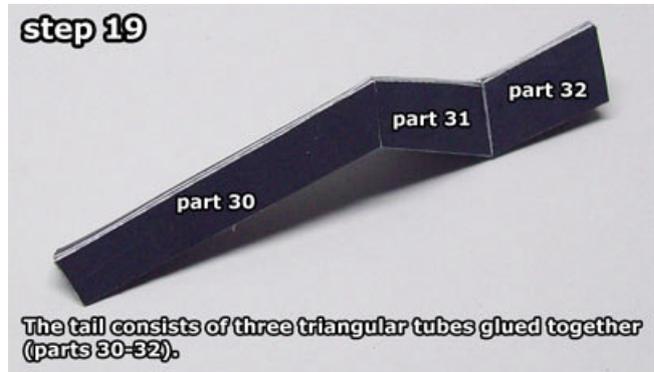

Glue together the two ends of the crown (part 28) and place it on top of Cait Sith head. You can use a bit of glue on the bottom edge, or simply clench it between the ears.

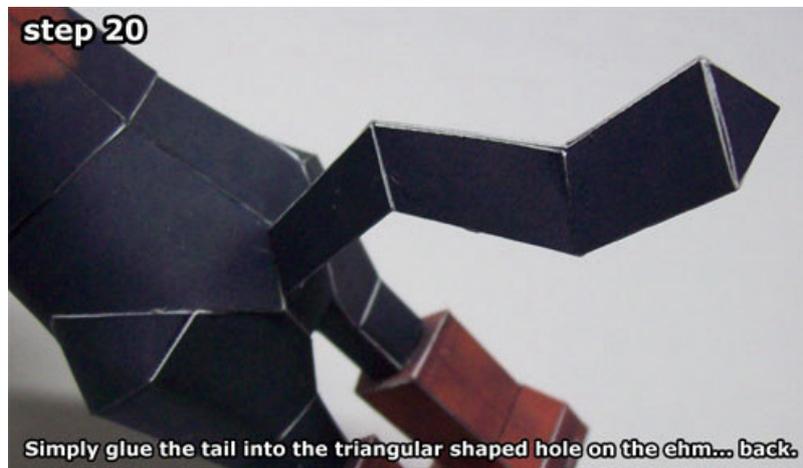

step 18

step 19

step 20

step 21

step 22
