### step 39

Now glue chest on top of the fur collar, by pushing the larger glueing tabs through the slits. Keep the chest in shape until the glue has dried.

### step 40

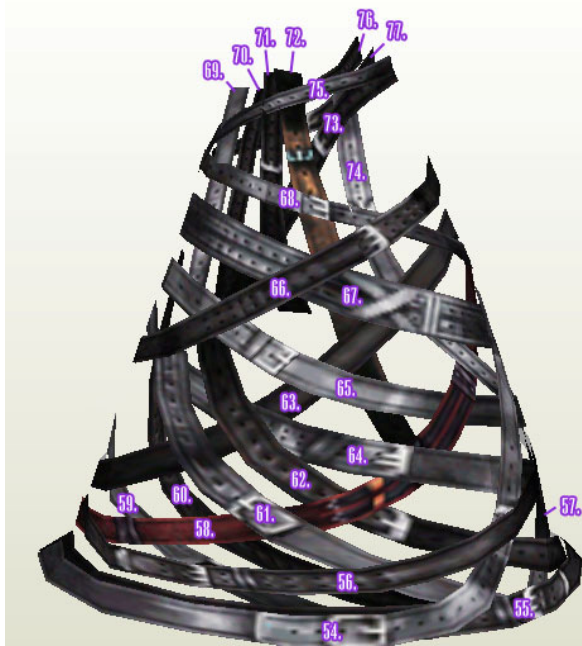

Now glue the fur collar+chest over the top of the dress. Take your time to position it correctly to your liking.

### step 41

Now you can glue the legs inside the body, and then it's time to glue on the belts!

### step 42

You can use the schematic I made to follow the pattern the game as close as possible, or (to some extent) you can glue them on in a pattern to your own liking.
