

## LULU PAPERCRRAFT MODEL BY NINJATOES

FINAL FANTASY X

ディナルファンタジーX

7.0m

Lulu. What sounds like a sweet and harmless little girl, is actually a powerful black magic user, and a formidable ally to have on your side.

Her mastery of the black arts allow her to make light work of elemental enemies, attack flying foes that are out of range for your melee fighters, and well... basically just deal \*massive\* damage to any fiends that dare cross your path...

What she lacks in physical strength, she makes up for with her agility, evading many of the enemy's attacks until she can unleash her **Fury** overdrive to chastise her enemies with powerful magic spells.

Lulu. What's in a name?
