

Laytoes' Challenges Nr.003 Time Flies

With all the digital clocks nowadays, can you still tell the time on an analog clock...? ;o)
 If all the information in the puzzle is confusing you, maybe you can build this clock to help you visualize the problem!

The answer might be easier than you think! Good luck and have fun!

2.

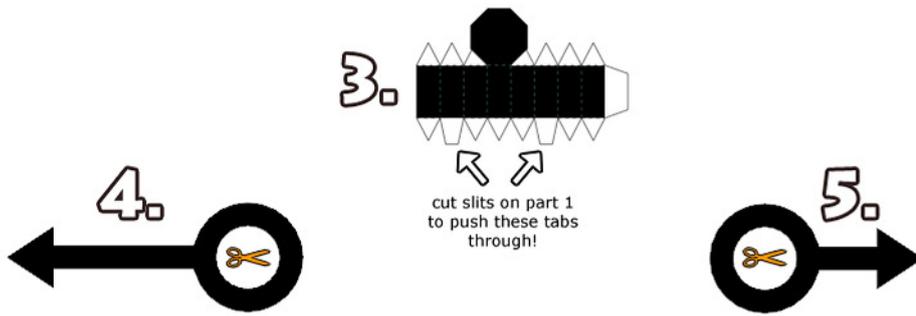

Dash-dotted lines (- · - · - · -) need to be folded up (this is called a valley fold).

Dashed lines (---) need to be folded down (this is called a mountain fold).

TIP: if the hands are too flimsy, cut out multiple layers and glue them together.
