NINJATOES' SSBM ADULT LINK PAPERCRAFT MODEL

SSBM ADULT LINK

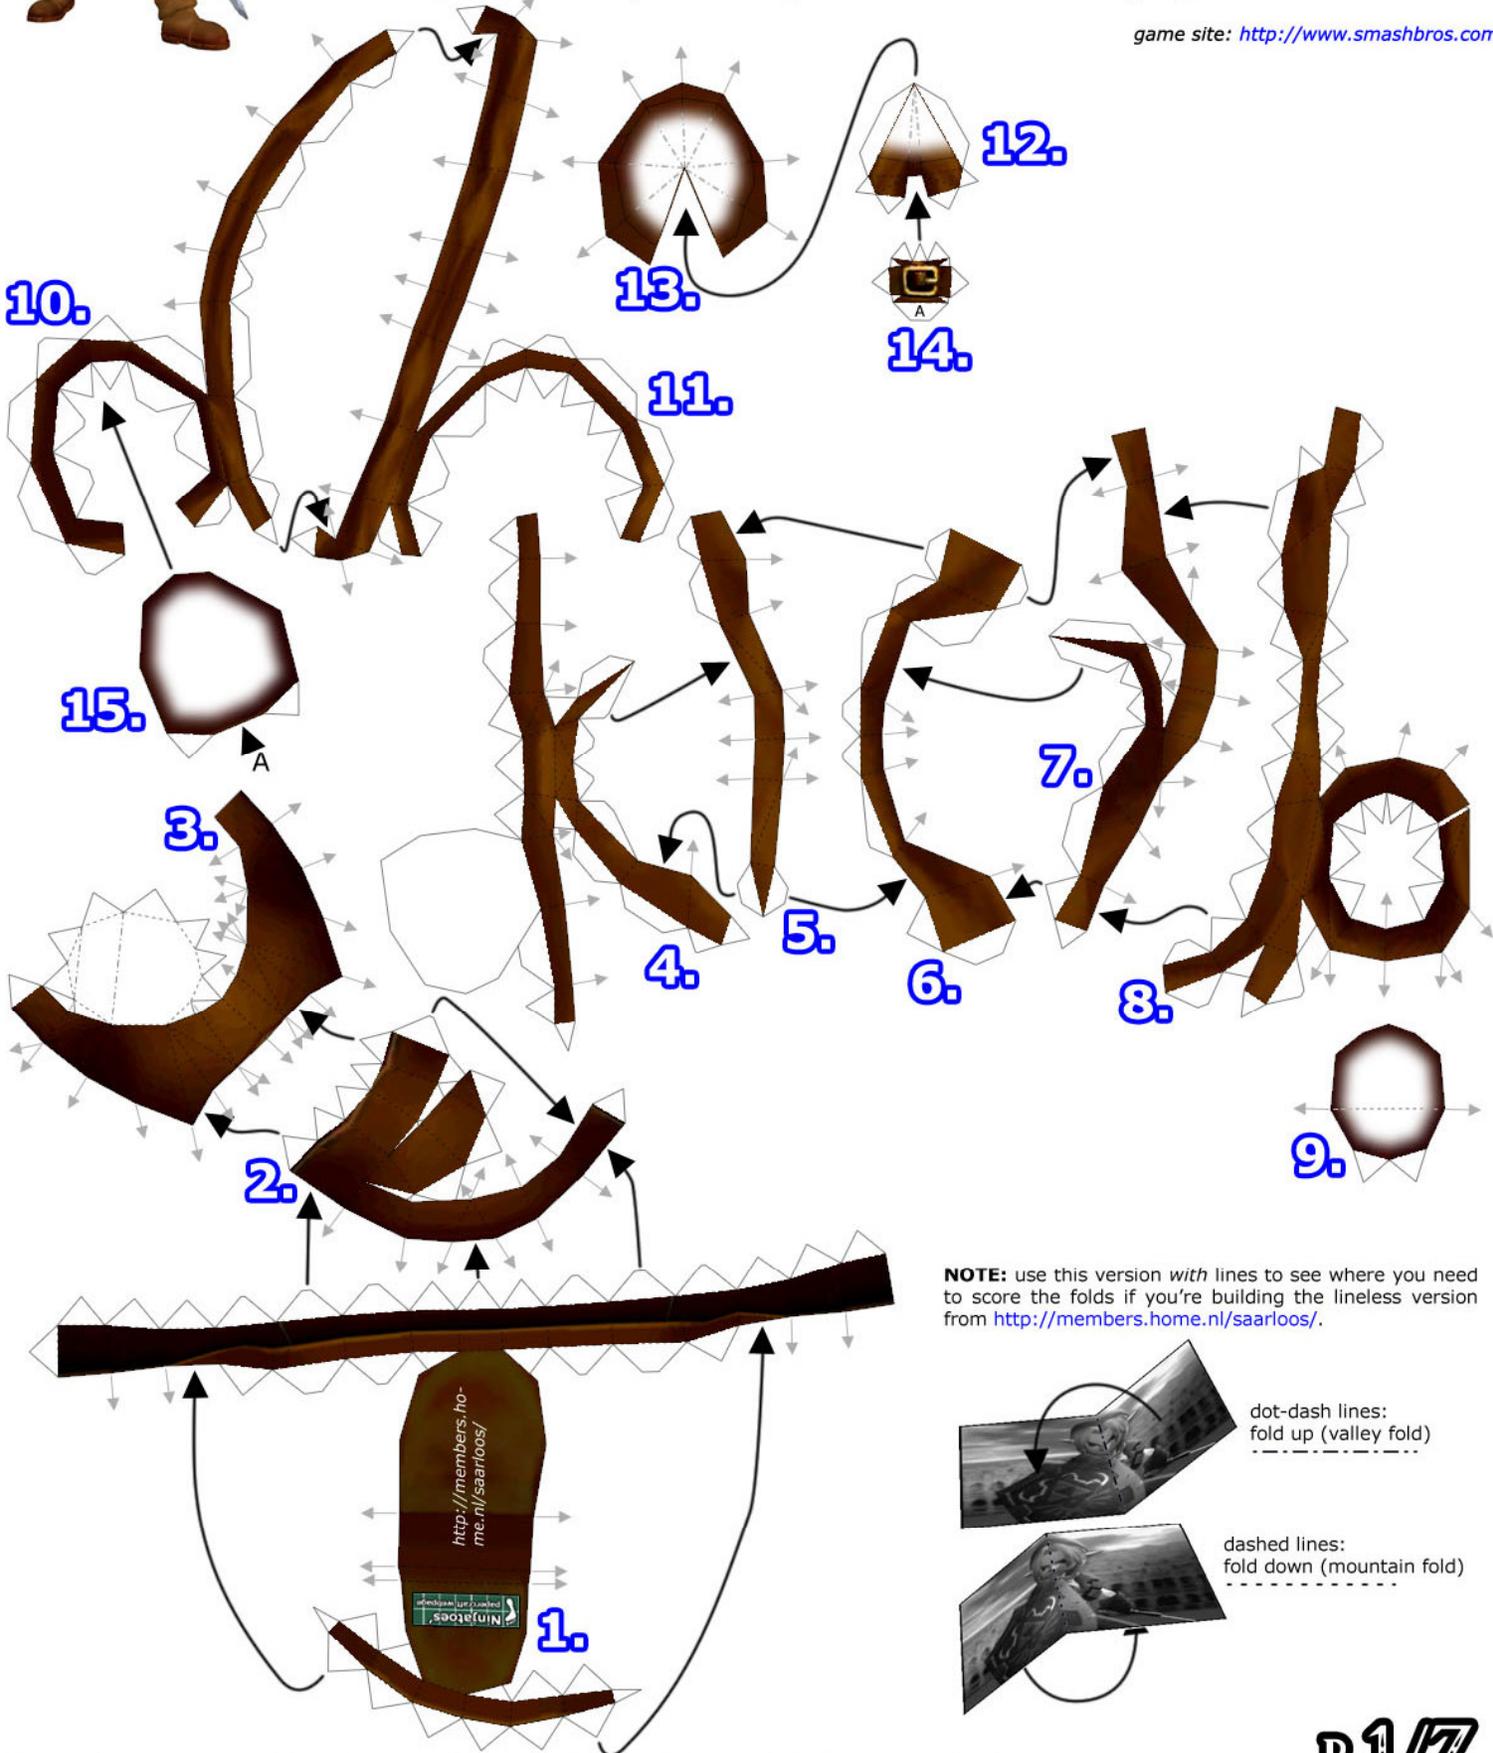

Our sword-wielding hero brings along some of his trademark weapons and moves to **Super Smash Bros. Melee** on Nintendo's Gamecube. Just like the Standard Attacks that let you swing the Master Sword and block enemy attacks with the Hero's Shield, all of Link's Special Moves are taken directly from the **Legend of Zelda** series.

His long-range Special Moves include using his Bow and Boomerang, while his famous Spin Attack will annoy the crap out of your opponents. And as if that wasn't enough, he can even hurl Bombs at his enemies!

But that's just a small collection of the moves available to Link. It's up to you to learn new ones and use them. The secret to winning a battle with Link, is to strike a perfect balance between his long-range and his melee attacks.
