

# INDIANA JONES

and the  
**NINJATOES**  
**PAPERCRAFT MODEL**

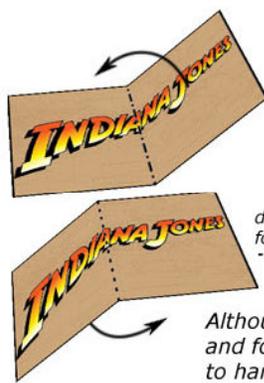

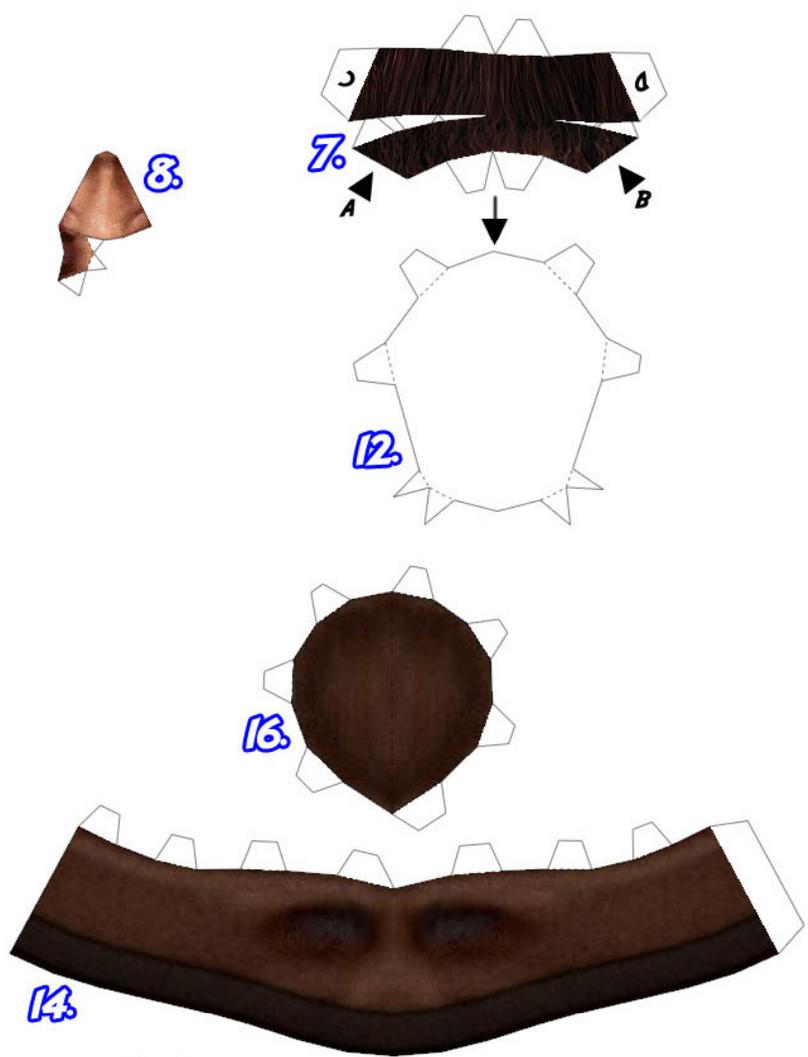

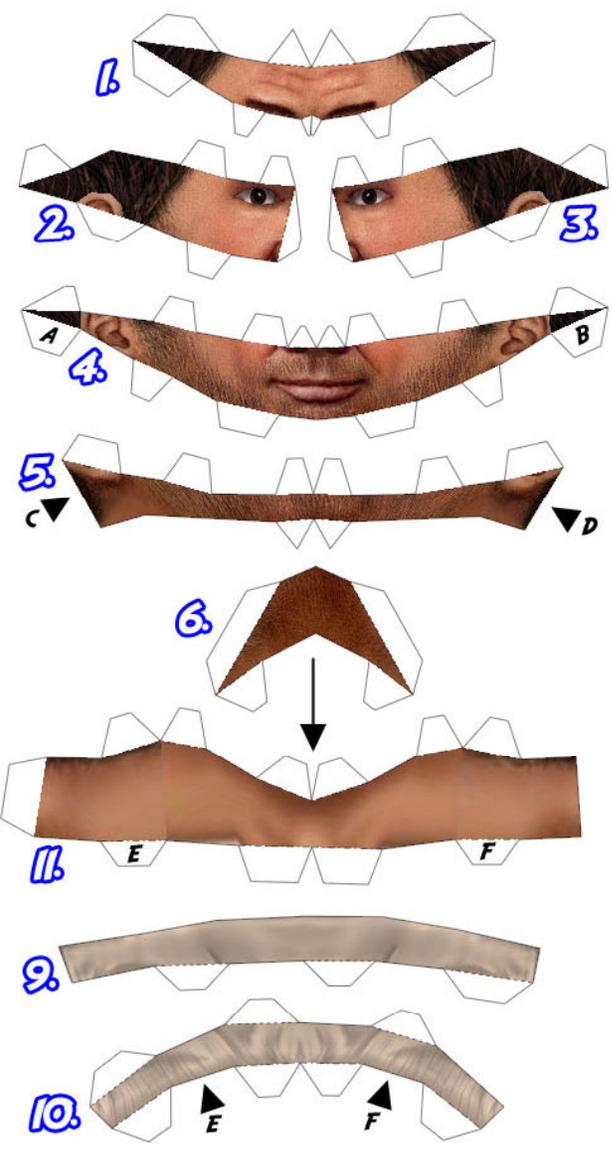

His full name is Dr. Henry Jones Jr., but everybody knows him as *Indiana Jones*, professor of archeology, expert on the occult, and 'obtainer of rare antiquities'.

Not your average archeology professor, donning a leather jacket, wide-brimmed fedora, revolver and bullwhip, he has often been accused of being nothing more than an ordinary *tomb raider*. And it must be said, his methods are often somewhat 'questionable'... His intentions however never are: hunting down *rare antiquities* and *objects of strange power* he does whatever it takes to keep them from falling into the hands of power hungry bad guys.

I wish my history teacher was this cool.

dot-dash lines:  
fold up (valley fold)

dashed lines:  
fold down (mountain fold)

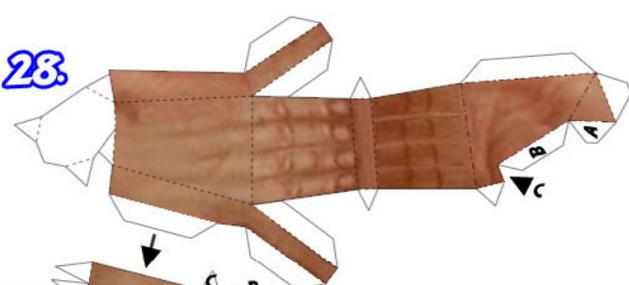

Although most parts on this particular paper model needn't be scored and folded, if you do encounter any fold lines, here's the key on how to handle them.
