

# Skipray Blastboat

For use with Wizards of the Coast's Star Wars Starship Battles game.  
Available for download at [www.momirfarooq.com](http://www.momirfarooq.com)

1. Glue the two halves together.

Make sure the gun barrels at the tips of the wings are bent outwards and are NOT glued together yet

2. Fold the gun barrels inward so that they form 2 triangles at the tip of each wing.

3. (the hard part) Glue each side of the hull to the main support piece.

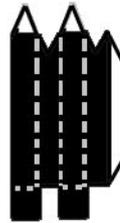

4. Fold the side wings as shown and then attach them to each side of the hull.

5. Attach the engines to each side.

6. Glue the engine exhaust on the back.
