

40 FATHOMS LARA VIGNETTE INSTRUCTIONS

step 1

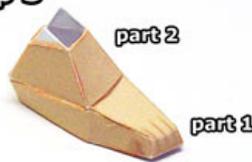

Besides the usual tools, to make this papercraft Tomb Raider III "40 Fathoms" vignette, you'll also need a plastic straw, like the ones you can find on juice boxes (preferably a clear, transparent one).

step 2

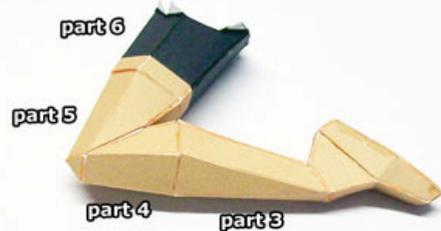

Start by cutting out and gluing together part 1.

step 3

Do the same for part 2 and glue both parts together as shown here.

step 4

Keep on assembling and gluing on parts 3-6.

step 5

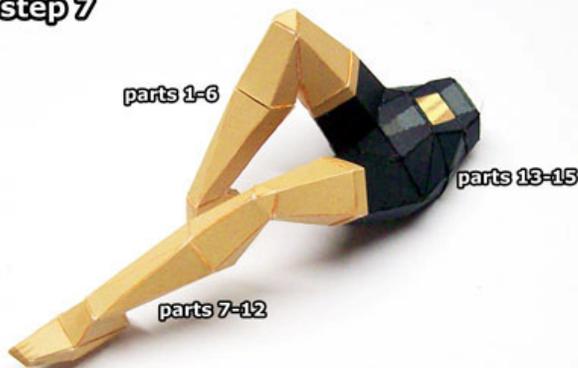

Do the same for the other leg (parts 7-12).

step 6

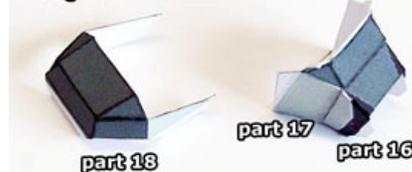

Take your time to score and fold all the fold lines on part 13, so you can easily glue it together using the directions on the template.

step 7

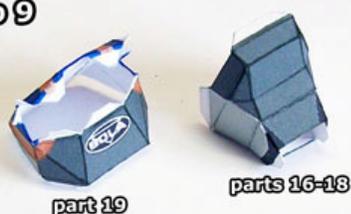

Glue the legs (parts 1-6 and 7-12 to part 13, and then cut out, assemble and glue on parts 14 and 15 as well.

step 8

Cut out and assemble parts 16-18 and glue them together.

step 9

Take your time to score and fold all the fold lines on part 19 so you can pre-shape and assemble it very easily as shown here.

step 10

Glue part 19 to parts 16-18, and then score, fold and pre-shape part 20...

step 11

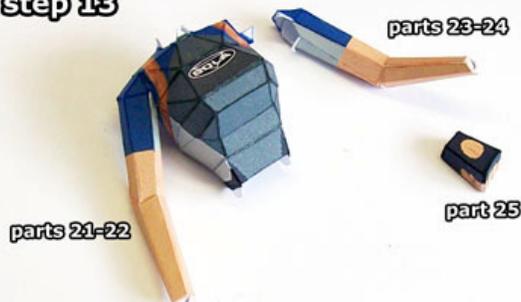

...so that you can easily glue it to the rest of Lara's torso (take your time to shape Lara's shoulders).

step 12

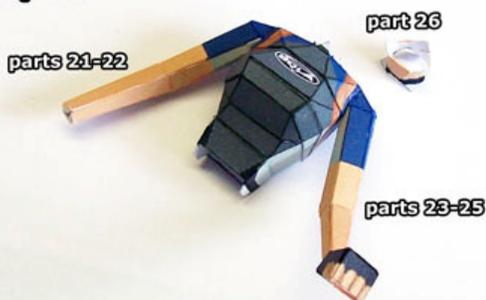

Cut out and assemble parts 21 and 22 so you can glue them together...

step 13

...and glue them to Lara's torso! Do the same for the other arm (parts 23-24) and left hand (part 25).

step 14

With both arms glued on, you can cut out and assemble the neck (part 26)...

step 15

so you can glue it on as well. Then cut out and assemble the backpack (part 27)...

step 16

...glue it to Lara's back, and then glue together Lara's legs and upper body.

step 17

Now cut out and glue together part 28.

step 18

Fold and shape and glue on the rest of Lara's face (parts 29-31).

step 19

To pre-shape and assemble part 32 properly, make sure you score all the fold lines (especially the valley fold in the middle!) and follow the directions on the template.

step 20

Assemble and glue on part 33 to the back of part 32 following the directions on the template, and cut out, score and pre-shape part 34.

step 21

Glue part 34 to the back of Lara's hair as well, to create a square hole as shown here.

step 22

Glue Lara's hair on top of her head, aligning her forehead with the hair and folding out the 2D ears a bit.

step 23

Part 35 will be Lara's hair elastic, and part 36 is the start of the ponytail!

step 24

Glue them to the square hole on the back of Lara's hair.

step 25

To easily glue together Lara's ponytail itself, take your time to score and fold the small gluing tabs, pre-shape each strip which will be the four sides and then glue together one side at a time.

step 26

Once the ponytail (part 37) is done, glue it to the rest of the hair as shown here.

step 27

...and then glue Lara's head on top of her body!

step 28

Cut out and assemble all the pieces to make the harpoon gun (parts 38-40). Now you can also assemble the right hand (part 41) so you know how big to cut the rectangular hole for the grip of the harpoon gun (part 39).

step 29

Push the grip of the harpoon gun through the hole in Lara's hand, and then glue the hand to her right arm.

step 30

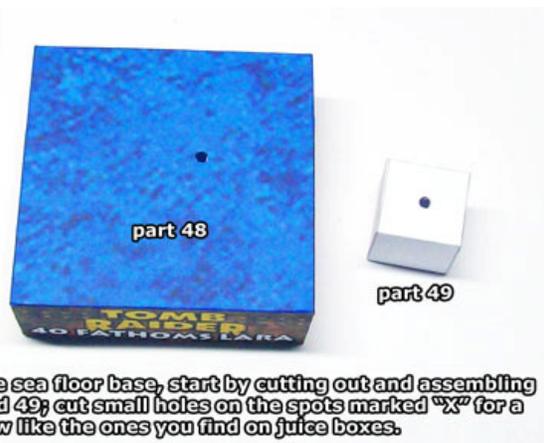

Cut out and assemble Lara's holsters and dual pistols as shown in this picture...

step 31

...and then glue the holsters to Lara's sides and place the dual pistols inside!

step 32

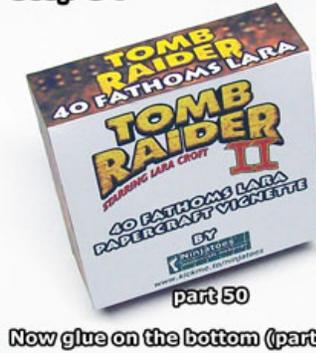

To make the sea floor base, start by cutting out and assembling parts 48 and 49; cut small holes on the spots marked "X" for a plastic straw like the ones you find on juice boxes.

step 33

Glue part 49 underneath part 48, aligning the holes so when you push in the plastic straw, it will stand upright.

step 34

Now glue on the bottom (part 50).

step 35

Cut out and assemble the 2 rusty barrels (parts 51 and 52) and glue them on top of the base.

step 36

Now take your plastic drinking straw, and cut off the top at the same angle as Lara's left foot, making sure Lara will be perfectly vertical compared to the straw itself.

step 37

Use a fair amount of glue (maybe even use super glue) to glue the plastic drinking straw to Lara's left foot (make sure to glue it on straight of course!) and let it dry thoroughly before trying to hold Lara by the straw!!

step 38

Once everything has dried thoroughly, push the plastic straw through the holes on the base!

Thank you for building a Ninjatoes' papercraft model!
