# SOME GUIDELINES:

CONSIDER THE DEFAULT VIEW ON THE 3D WINDOW  
AS THE RIGHT SIDE OF THE SWORD.

LEAVE THE POMMEL (THE HILT'S END)  
TO BE THE LAST PIECE TO BUILD.

THIS WAY YOU COULD INSERT  
SOME WOODEN STICK OR ROLLED PAPER  
THROUGH THE SWORD'S BODY,  
SO THE MODEL WILL BE MORE STABLE.

## USE SOME GLOSSY 120G PAPER AT LEAST.

I TRIED TO MAKE THIS MODEL IN A MORE SIMPLE WAY, BUT  
DUE TO THE ENORMOUS NUMBER OF SMALL PIECES,  
IT WAS ACTUALLY THE BEST WAY TO "DISMANTLE" THE MODEL  
TO BE POSSIBLE TO BECOME A PAPERCRAFT.

GOOD HEADACHES FOR YOU AND THANKS FOR BUILDING IT!
