Dedenne

By POdragon

Build by LuIS

Start the ears
at the inside
and close at
the bottom.
Glue to the
head as the
numbers get
to them.

34

Close the feet at the bottom.
Start at the toes.
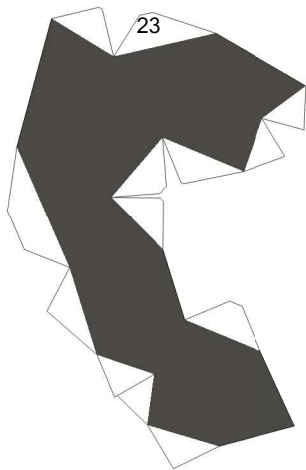

The tip of the tail is hard, use the
pdo for reference, fold all the lines
and take your time. The rest of the
tail is repetitive, but not as hard.
Glue the tail after the body is built,
but before closing, since you need to
add some weight inside.
After you make sure it stands,
close and glue the feet.

37
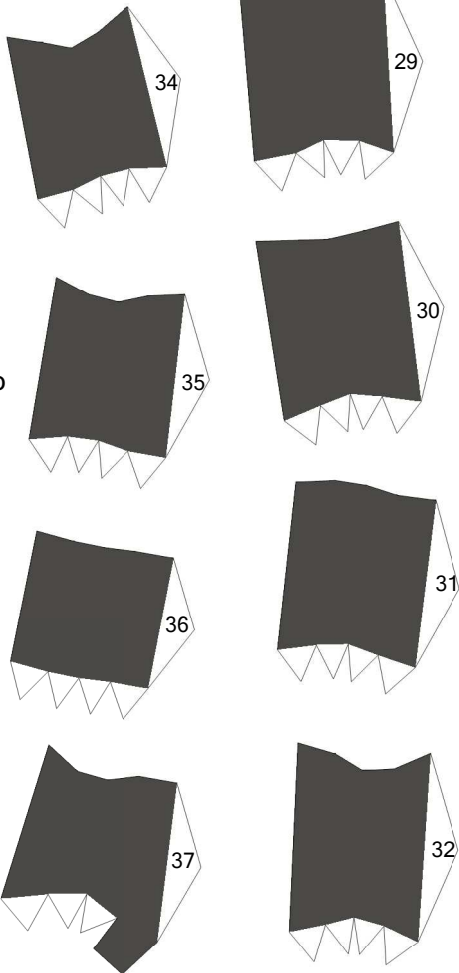

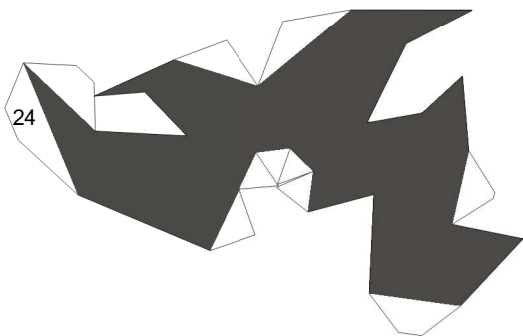

Optional scarf. Glue piece 40
from the top and piece 39 from
the bottom of the scarf, as shown
in the pdo.
