Cubone V3

By Brandon
Build by LuIS

17

18

13
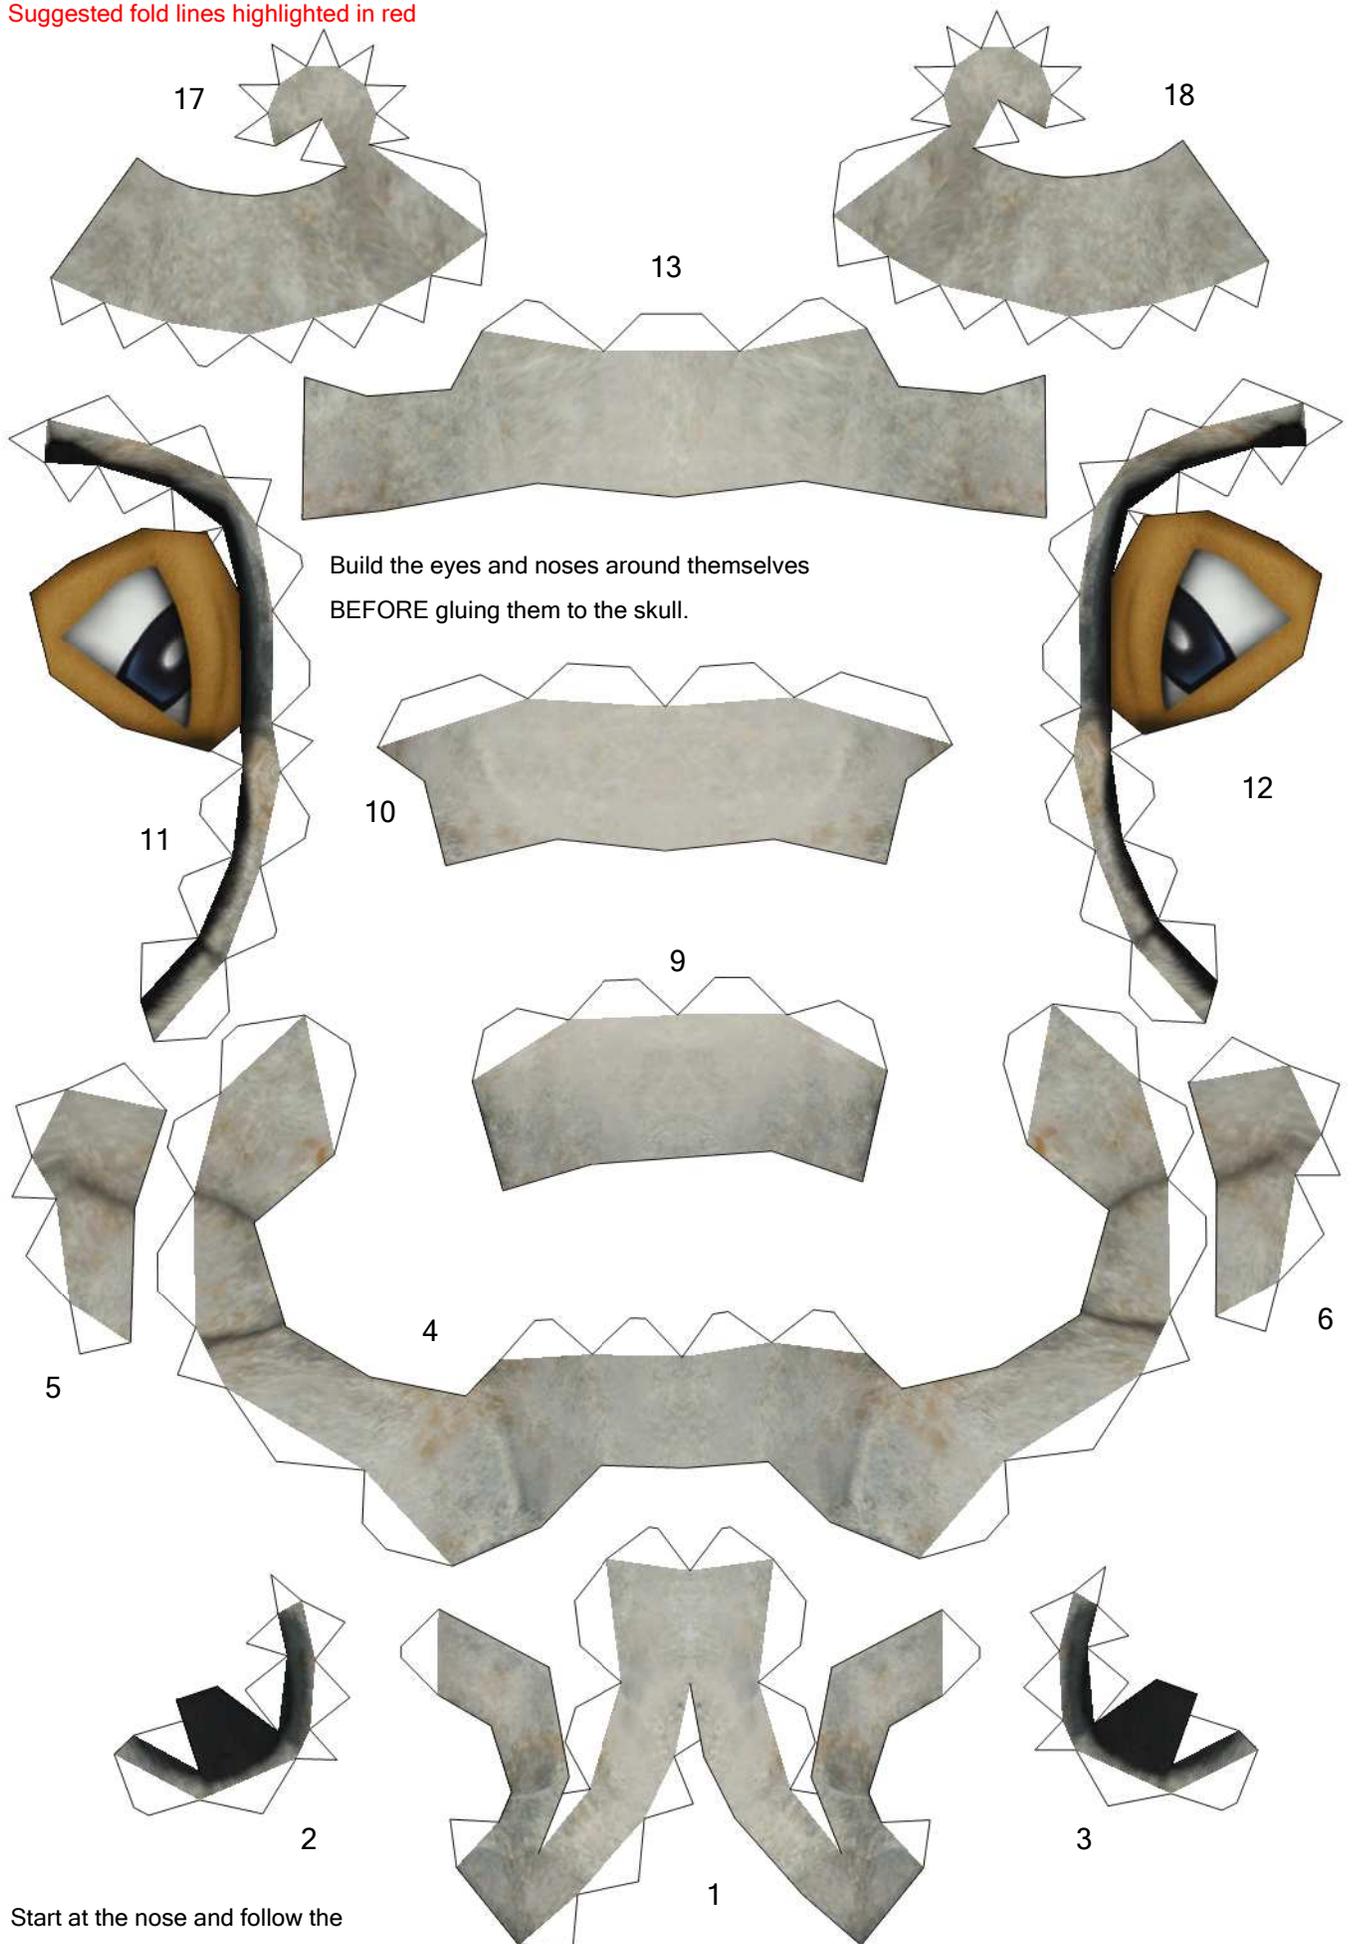

Build the eyes and noses around themselves
BEFORE gluing them to the skull.

12

11

10

9

6

5

4

2

3

1

Start at the nose and follow the

numbers on the skull.

53

16

55

19

52

22

23

8

14

15
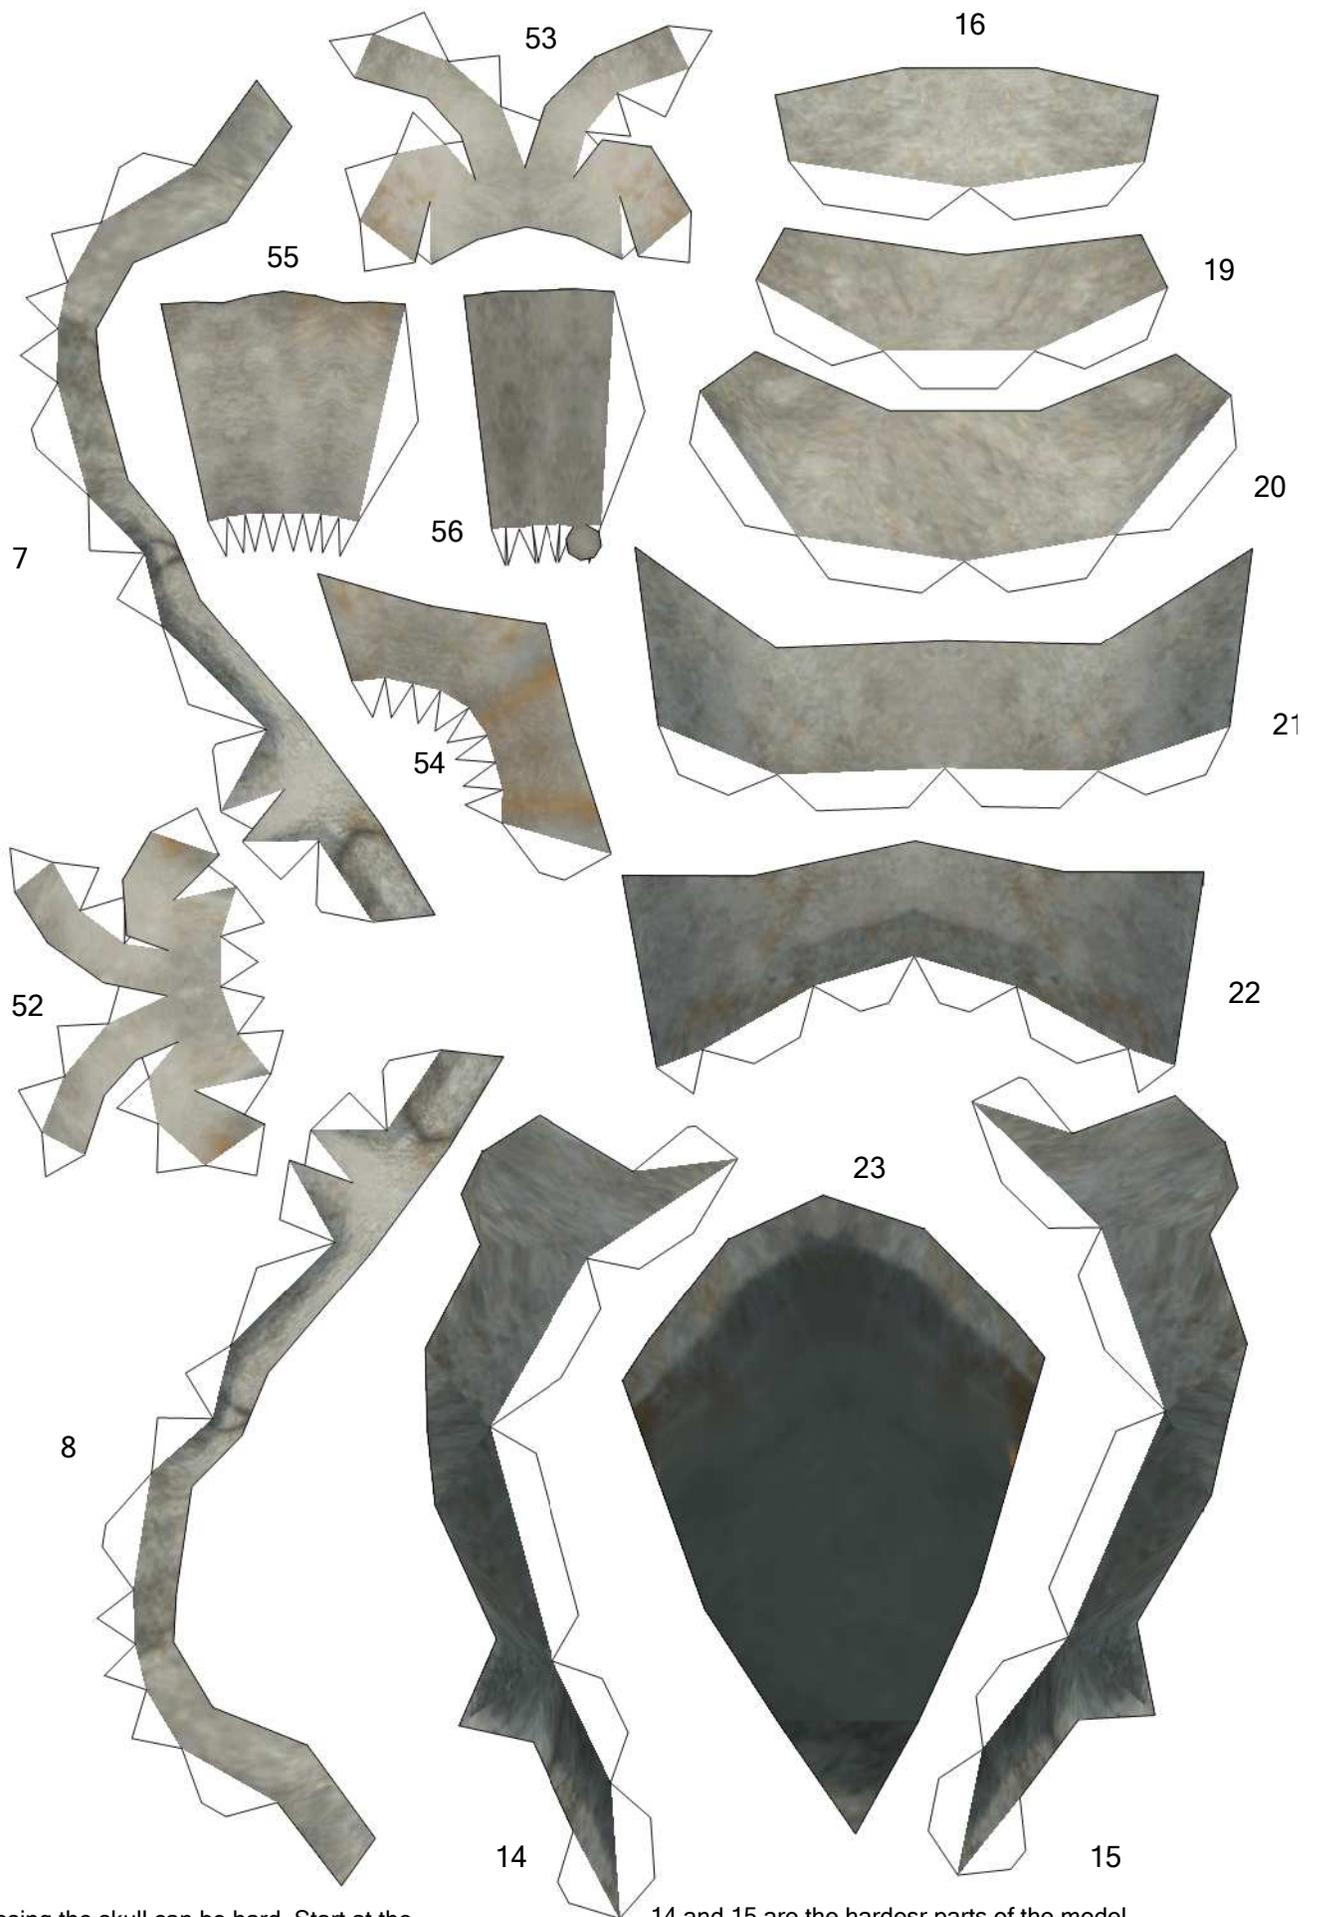

Closing the skull can be hard. Start at the

front and close at the back.

14 and 15 are the hardesr parts of the model.

I strongly recommend you fold the indicated lines.

51

50

28

37

27
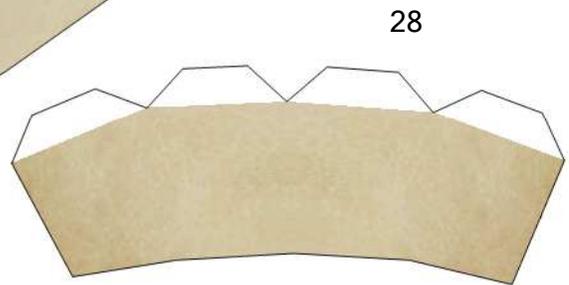

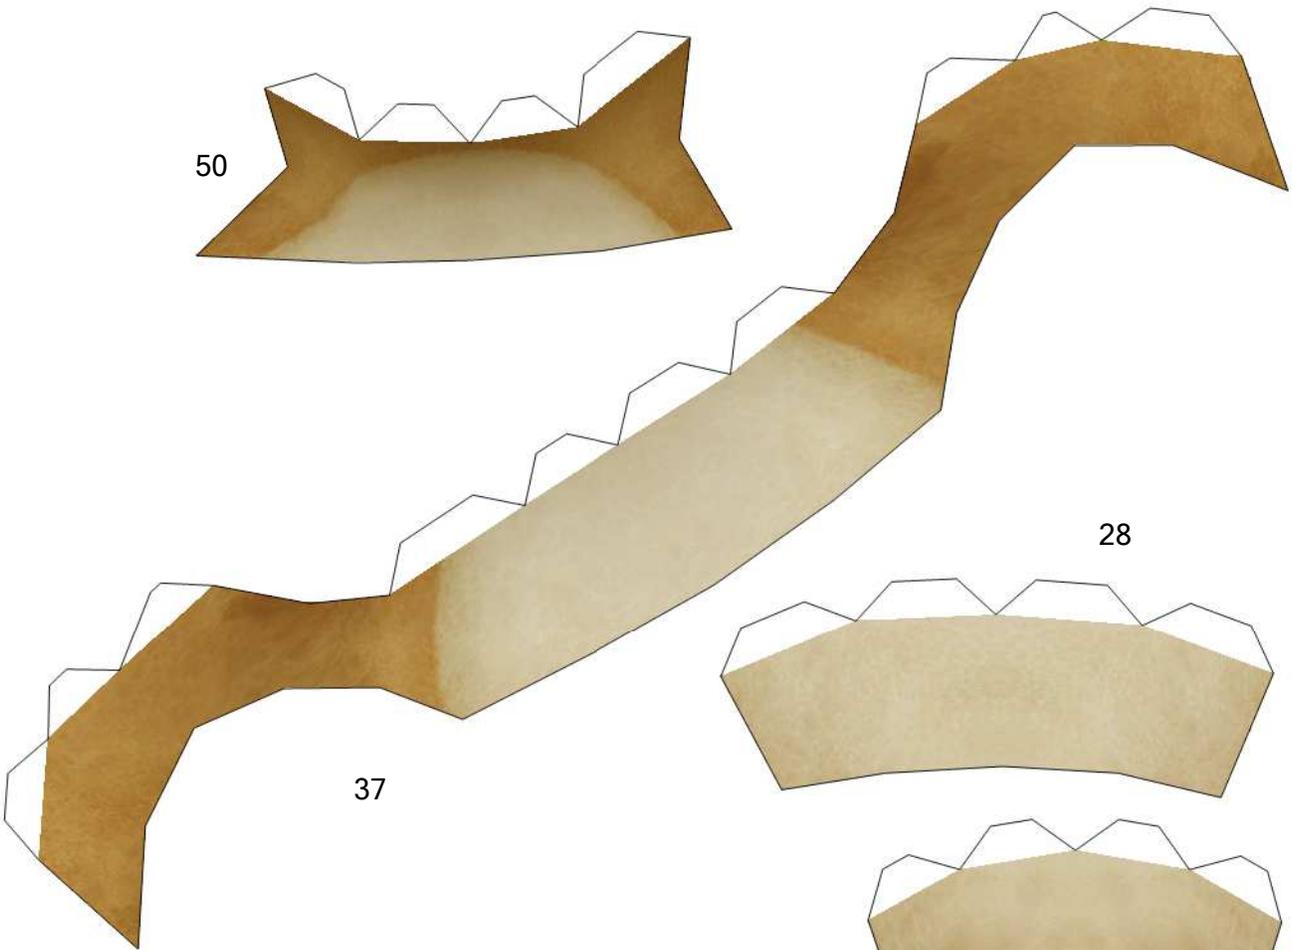

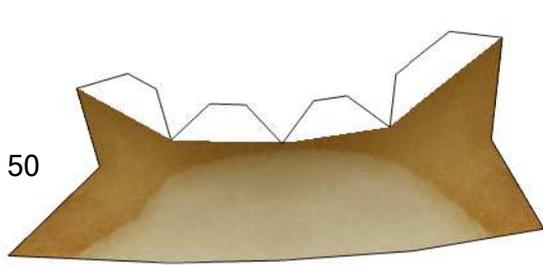

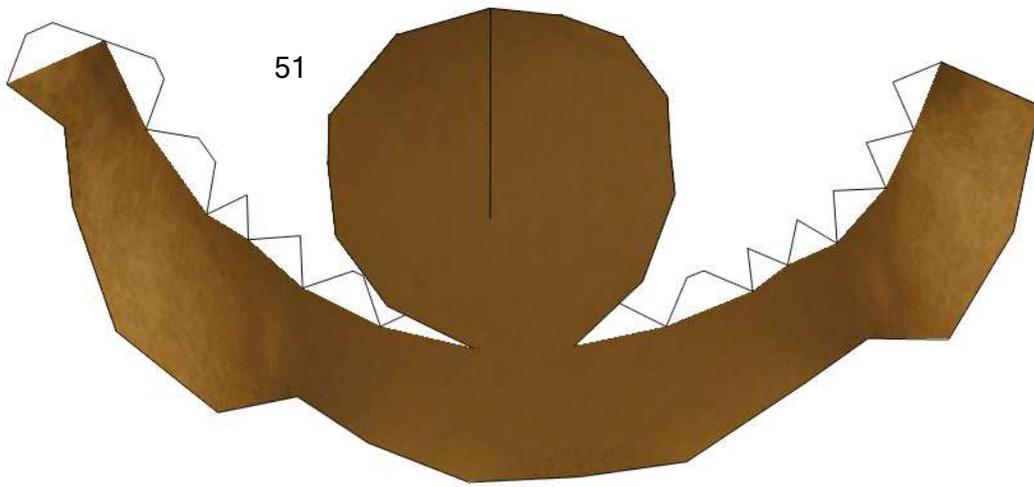

Build the thumbs first, than glue 44 and 48 to their respective parts, starting by the tab in the thumb.
