

Pteranodon

This is a paper craft of a pteranodon in flight with its wings spread wide. The pteranodon is one of the most well-known winged dinosaurs. Believed to have existed in the late Cretaceous period of the Mesozoic era, pteranodons have large, distinctive crests, and a wingspan of around 7 to 9 meters. Display this paper craft by placing it on the stand included, or use string to hang it from the ceiling!
