This image contains a variety of 2D templates for a paper robot. The templates are as follows:

- Head:** A large, angular head piece with two black, triangular eyes. It has a long, thin neck and a small, pointed chin.
- Torso:** A large, rectangular torso piece with a black rectangular window on the left side. It has a small, rectangular protrusion on the right side.
- Arms:** Two arm pieces, each with a circular base and a rectangular body. They have a small, rectangular protrusion on the outer side.
- Legs:** Two leg pieces, each with a circular base and a rectangular body. They have a small, rectangular protrusion on the outer side.
- Decorative Elements:**
  - Three star-shaped spikes of different sizes.
  - Three sets of three parallel lines, likely for a sensor or antenna.
  - Three circular pieces with a central black dot and a serrated edge, resembling eyes or sensors.
  - Three rectangular pieces with a black and white striped pattern.
  - Three small, rectangular pieces with a black and white striped pattern.
  - Three small, rectangular pieces with a black and white striped pattern.
