BRITISH AIRWAYS

AIRBUS A320-232

British Airways Airbus A320

160

British Airways plc (BA) is the flag carrier of the United Kingdom. It is headquartered in London, England at Waterside, near its main hub at Heathrow Airport.

The airline is the second largest UK-based carrier, based on fleet size and passengers carried, behind easyJet. In January 2011, BA merged with Iberia, creating the International Airlines Group (IAG), a holding company registered in Madrid, Spain. British Airways is the first passenger airline to have generated more than US$1 billion on a single air route in a year (from 1 April 2017 to 31 March 2018 on the New York-JFK – London-Heathrow route).

The Airbus A320 family is a series of narrow-body airliners developed and produced by Airbus. The A320 was launched in March 1984, first flew on 22 February 1987, and was introduced in April 1988 by Air France. The first member of the family was followed by the stretched A321 (first delivered in January 1994), the shorter A319 (April 1996), and the even shorter A318 (July 2003).

The A320 series has two variants, the A320-100 and A320-200. Only 21 A320-100s were produced. These aircraft, the first to be manufactured, were delivered to Air Inter – later acquired by Air France – and British Airways as a result of an order from British Caledonian made prior to its acquisition. The primary differences from the -100 were the -200's wingtip fences and increased fuel capacity, providing increased range.

Scale: 1:100
Length: (375mm)
Width: (358mm)
Parts: 302 (12 pages)

This model has been designed in 2 styles.
On the ground (with wheels)
In Flight style (without wheels)
Is nesessary assemble the stand for the "in flight style*

*This model is Designed for Papercraft and is different in several ways from the Real Life Plane.
*Build the model by carefully watching the Assembly Instructions Video.
*Make sure you have the correct printer settings before printing.
It is recommended to use Adobe Acrobat Reader to print models at 100% scale option.
