www.pokemonpapercraft.com

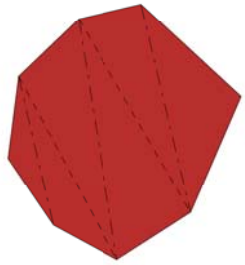

Glue flame cuffs to mirrored pieces
(if using the mirrored pieces, they are optional)
then attach to arm after the entire
arm is built. But before attached
to the body.

Close back/top with this piece.
v
Build arms
from hands
to shoulder

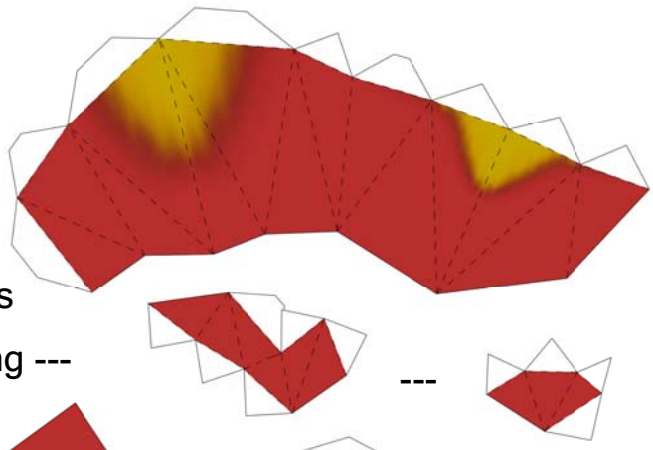

Bottom of foot
Build legs from feet to waist
Fold flaps on these edges outward, and attach to flaps of the bottom of the foot.
Bottom of foot

Close bottom with this

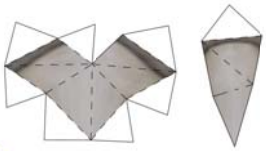

Attach spikes

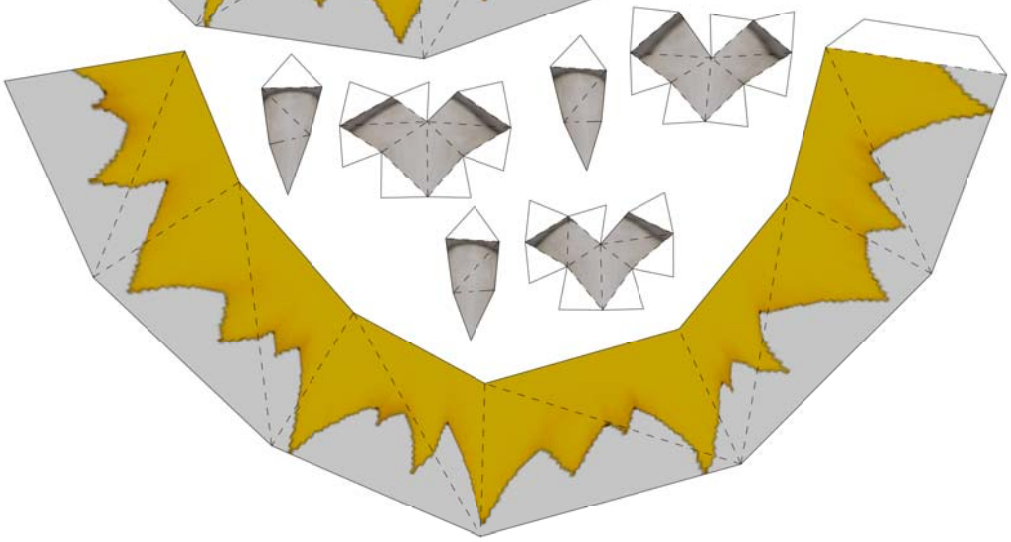

before closing ---

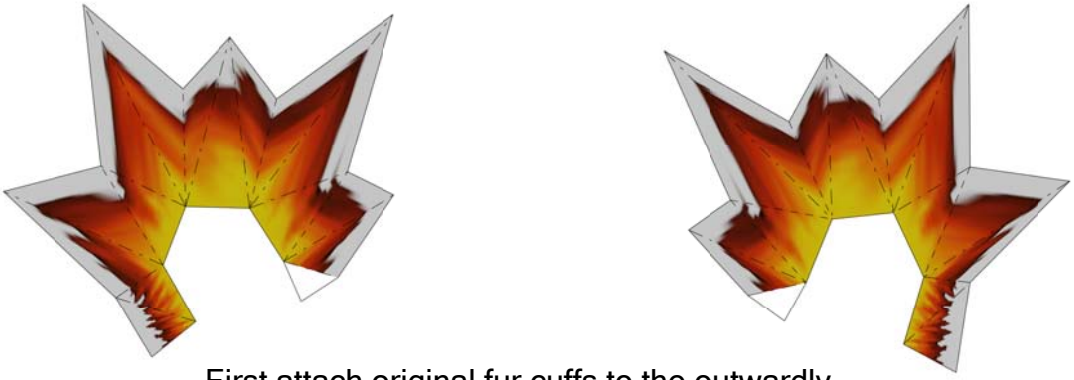

--- Original Furcuffs

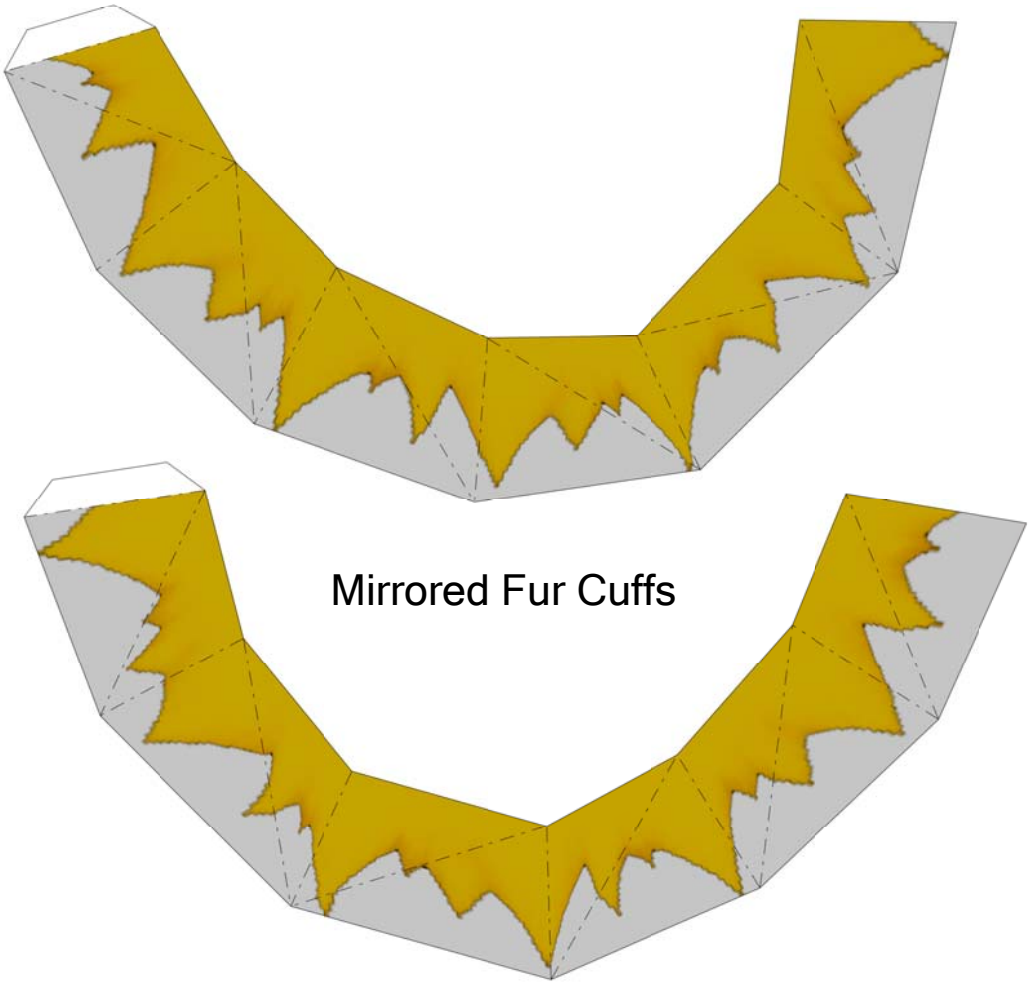

Mirrored Flame cuffs

First attach original fur cuffs to the outwardly projected tabs from the bottom of the foot, and the first piece of the leg. Then attach Mirrored fur cuffs to the inside of the original cuffs, so that the yellow is visible. Then use th edge seen on the outer side of the cuffs to cut the edge of the fur.

(Both Mirrored Cuffs are optional btw.)
