MALTA AIR

BOEING 737 MAX 8 -200

Malta Air Boeing 737 MAX 8 -200

109

Malta Air is a low-cost airline that operates from Malta. It is a joint venture between Ryanair and the Government of Malta. The new airline initially operated six former Ryanair aircraft. Ryanair planned to assign 66 routes it operates to and from Malta to this new airline and there were plans to grow the network beyond that. However, these plans were revised in May 2020, when redundancy for one third of the full complement of 179 pilots and cabin crew was announced in response to the COVID-19 crisis.

On 9 June 2019, Ryanair announced together with the Government of Malta that they were to set up a subsidiary airline called Malta Air, which was to consist of an initial fleet of 6 aircraft and operate the existing 61 flights operated by Ryanair from the island. Ryanair was to transfer all its existing Maltese operations to the new airline with its fleet increasing from 6 to 10 Boeing 737-800 aircraft and all in Malta Air colours by mid-2020.

The Boeing 737 MAX is the fourth generation of the Boeing 737, a narrow-body airliner manufactured by Boeing Commercial Airplanes (BCA), a division of American company Boeing. It succeeds the Boeing 737 Next Generation (NG) and competes with the Airbus A320neo family. The 737 MAX is based on earlier 737 designs, with more efficient CFM International LEAP-1B engines, aerodynamic changes, including its distinctive split-tip winglets, and airframe modifications. The new series was announced on August 30, 2011. It took its maiden flight on January 29, 2016 and was certified by the U.S. Federal Aviation Administration (FAA) in March 2017. The first delivery was a MAX 8 in May 2017 to Malindo Air, with whom it commenced service on May 22, 2017.
