INSTRUCTIONS

CLOUD STRIFE

KAIZOPAPERCRAFT.BLOGSPOT.COM

Preliminary

Tools to consider:

Self-healing cutting mat

Scissors

Xacto knife

Glue

Glue palette

Tweezers

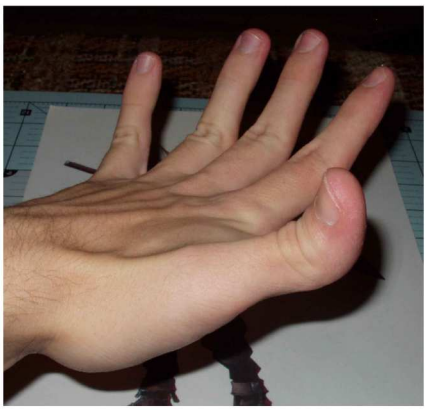

Scoring tool (chopstick)

Fold creasing tool (highlighter)

Glue applicator (toothpick)

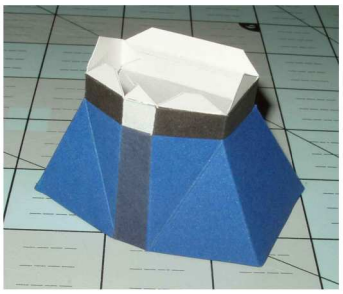

Opposable thumbs (they need not be as freakishly double-jointed as mine)

That sword

sure is developing quite a history...

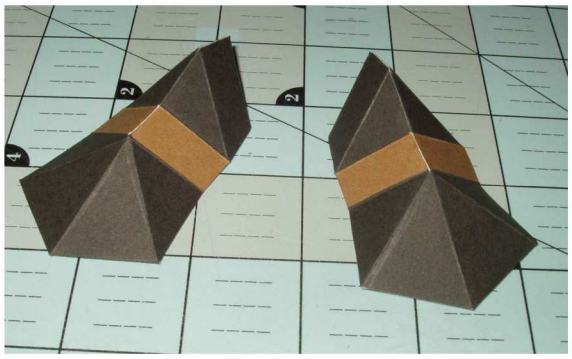

Construct parts 1-6

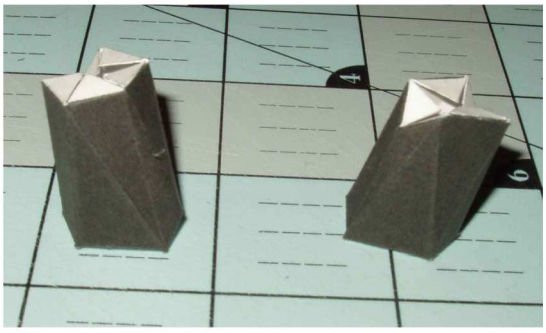

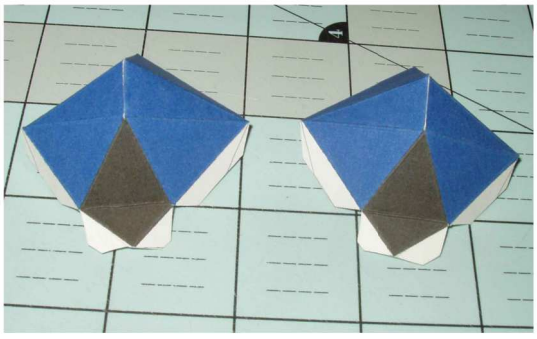

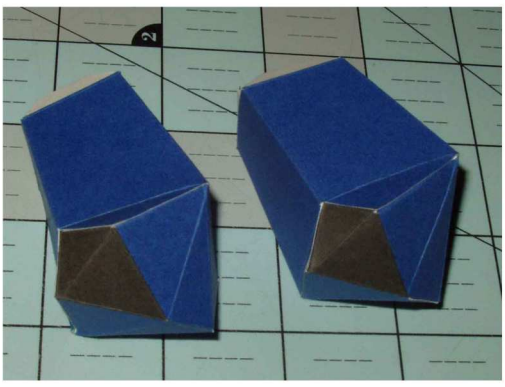

Construct parts 7 and 11

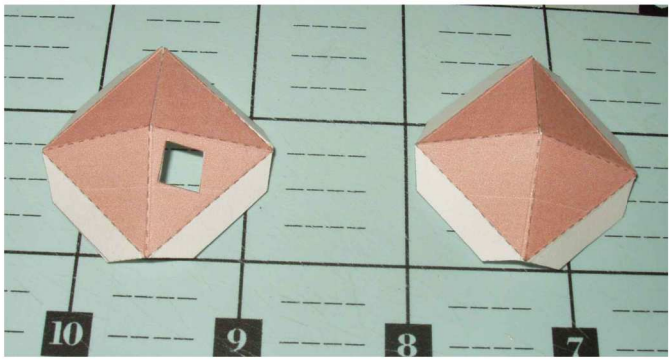

Construct parts 8 and 12

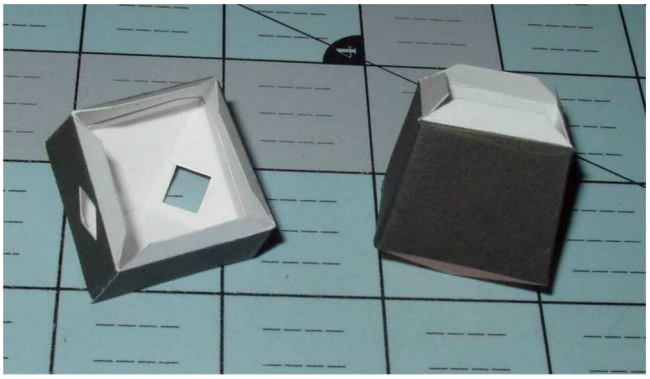

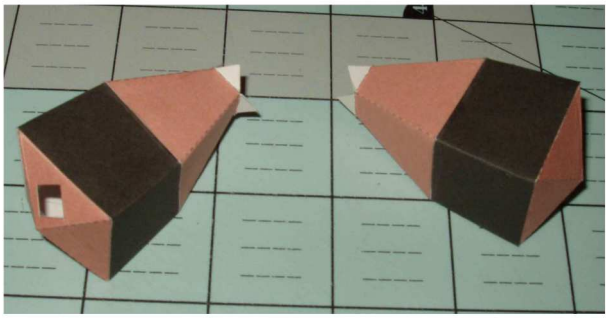

Construct parts 9-10 and 13-14

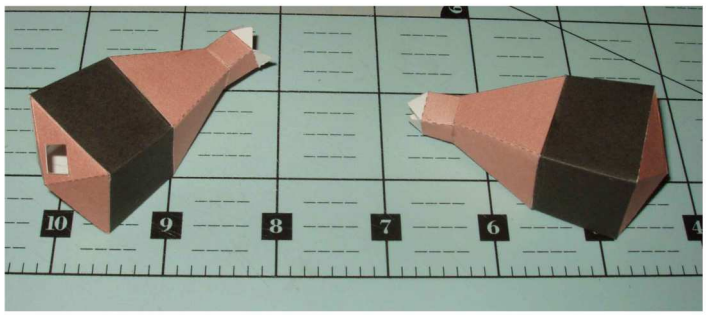

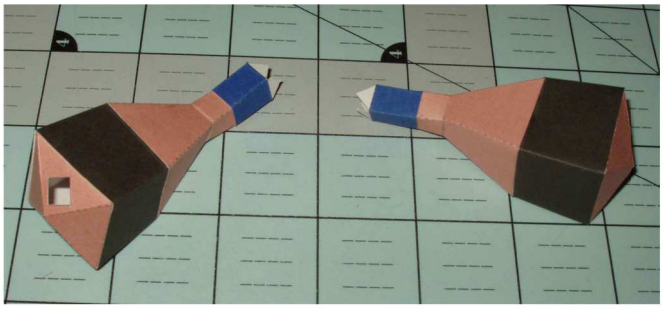

Construct parts 15-21 and 22-28

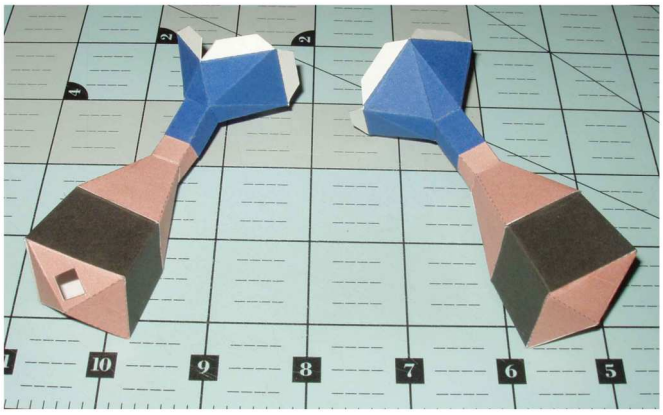

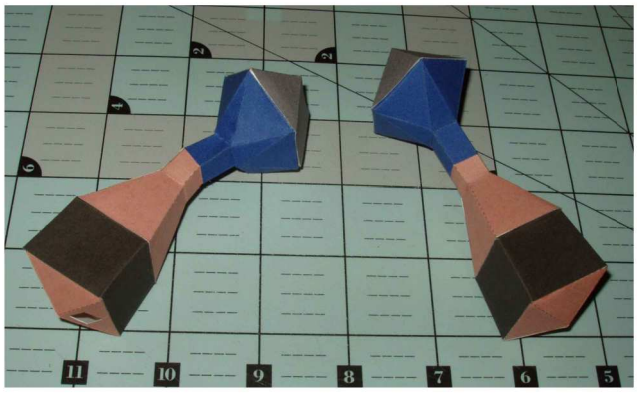

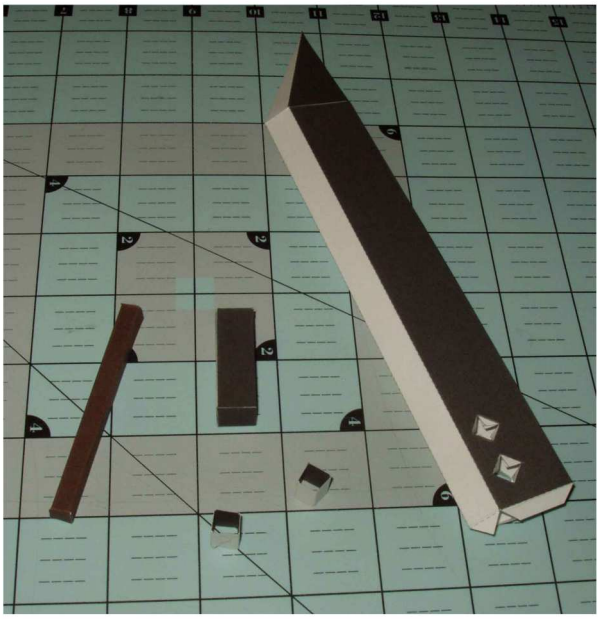

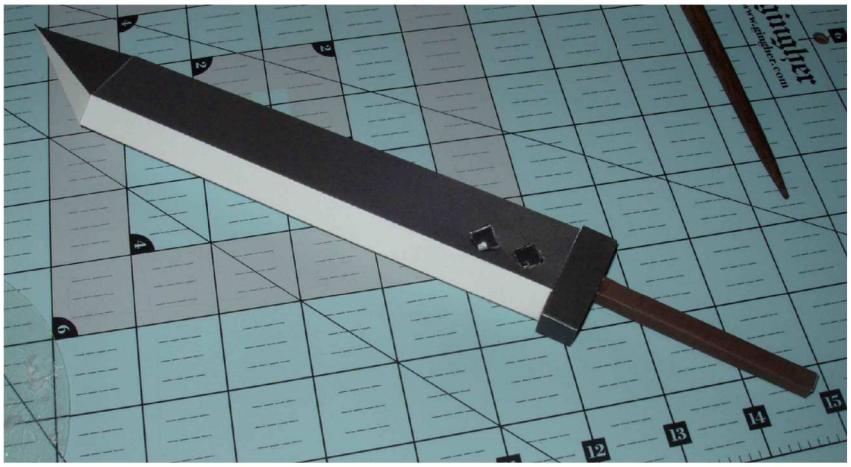

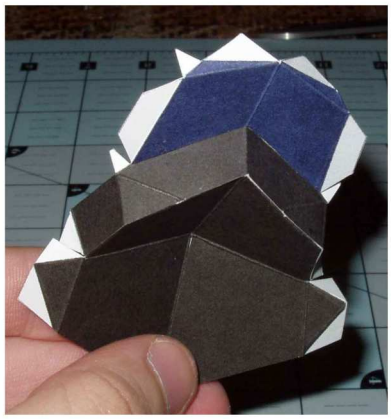

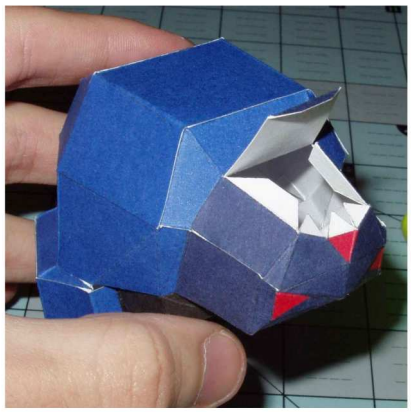

Construct parts 29-34

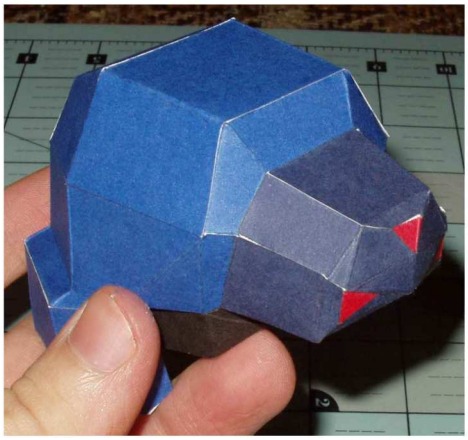

Combine to form the sword, remember the handle should be like a diamond, not a square, and yes, making the holes in the blade look decent is excessively difficult

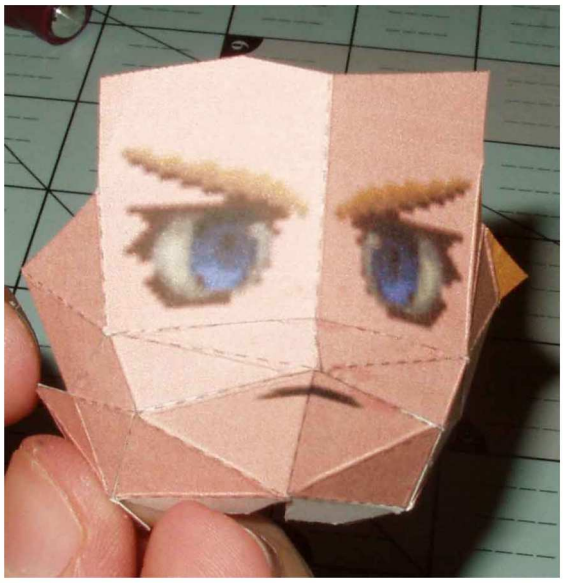

Construct parts 35-37

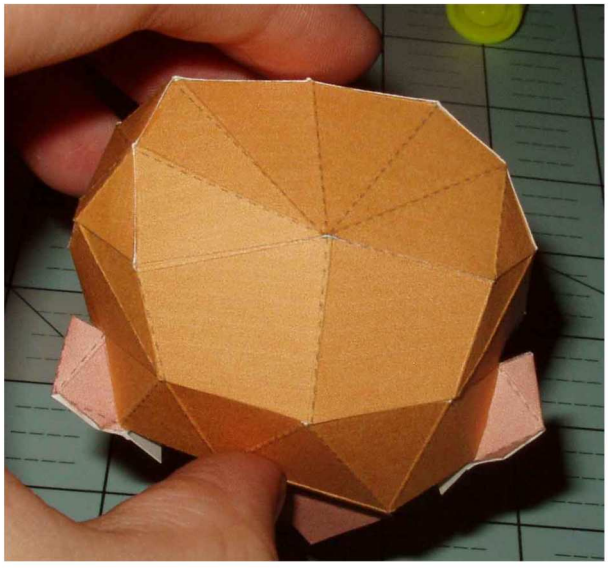

attach parts 38-46

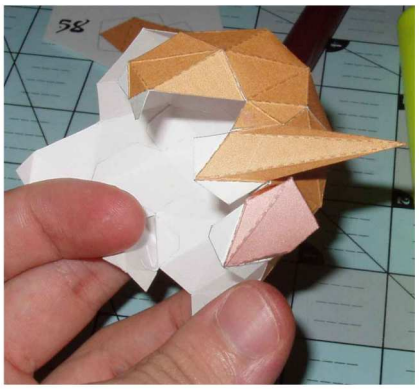

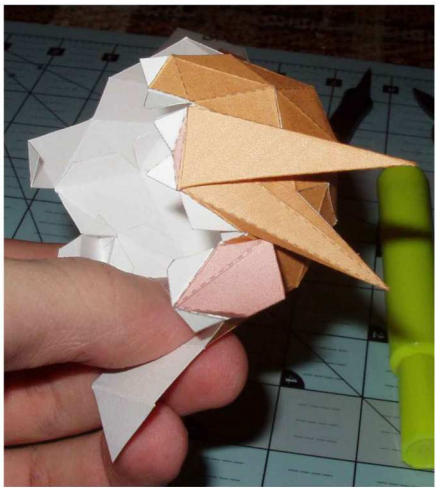

Construct parts 47-49

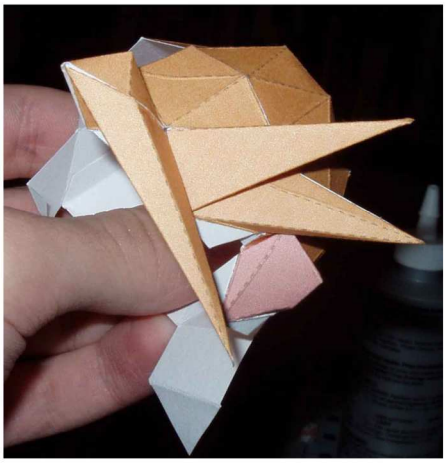

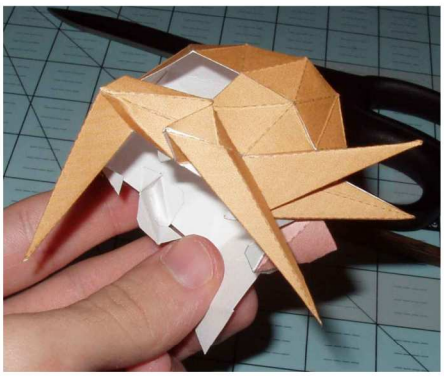

Construct parts 50-56

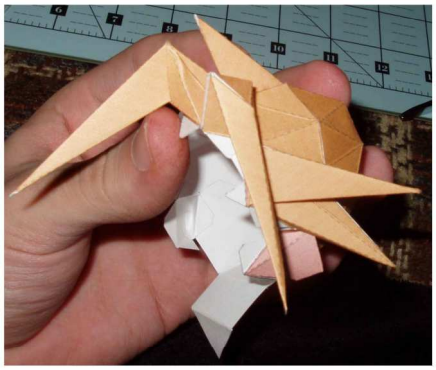

Attach parts 57-68

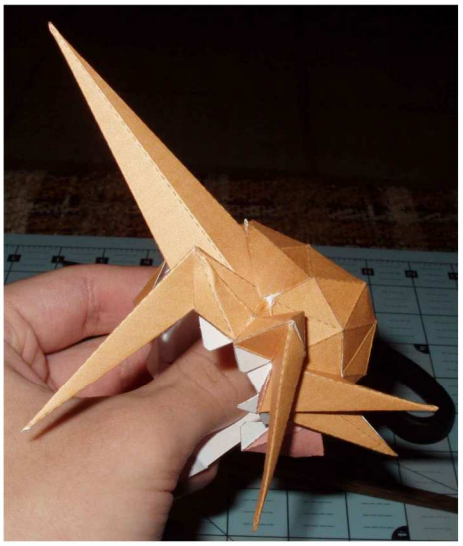

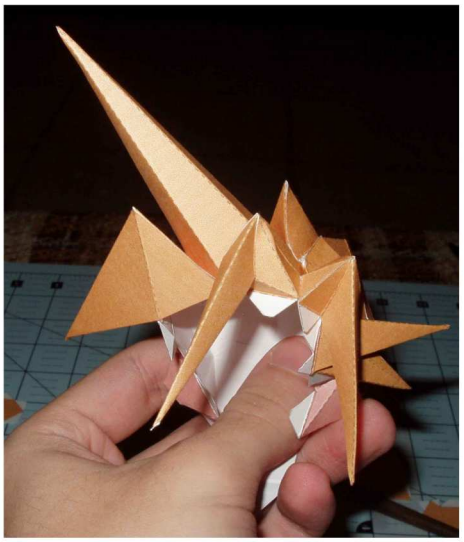

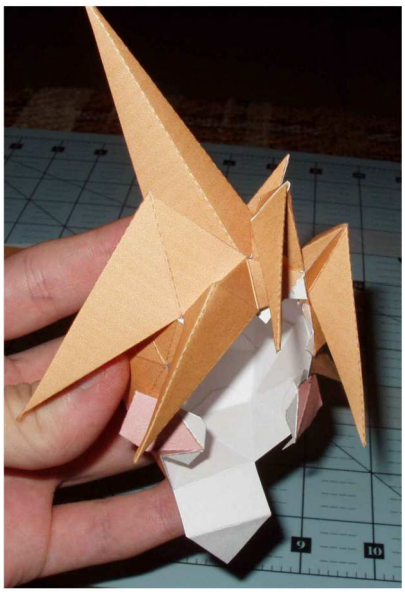

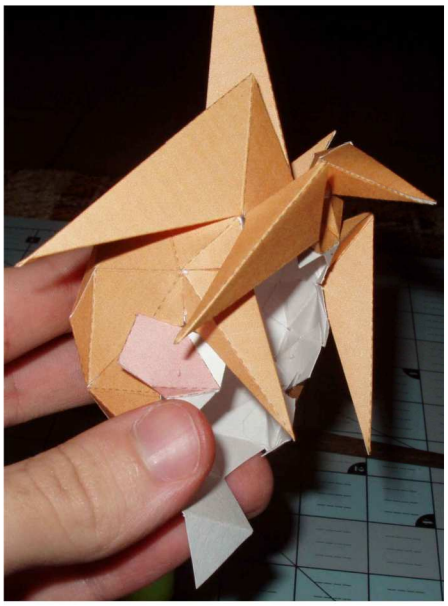

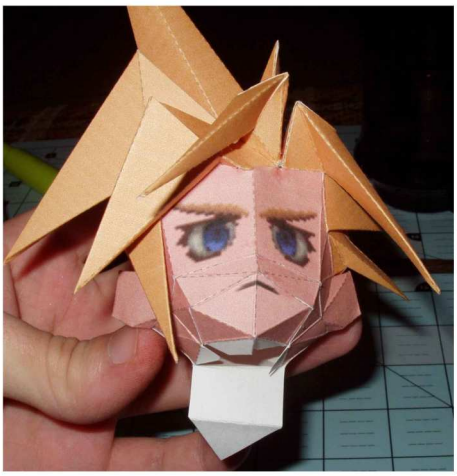

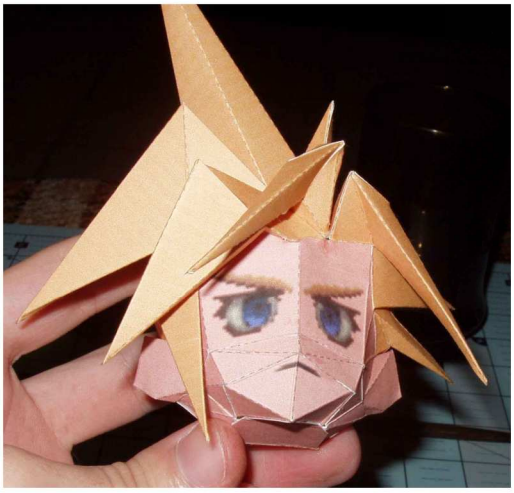

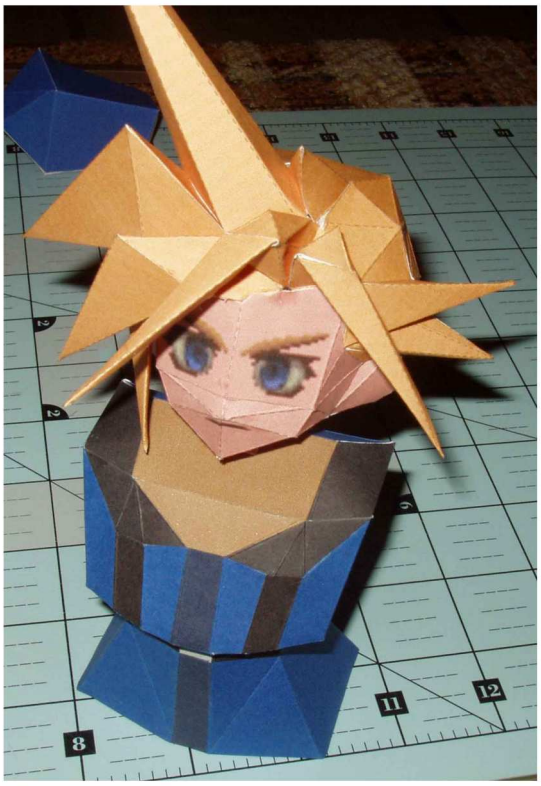

Attach the face
(parts 47-49)

Close up the
bottom
of the head

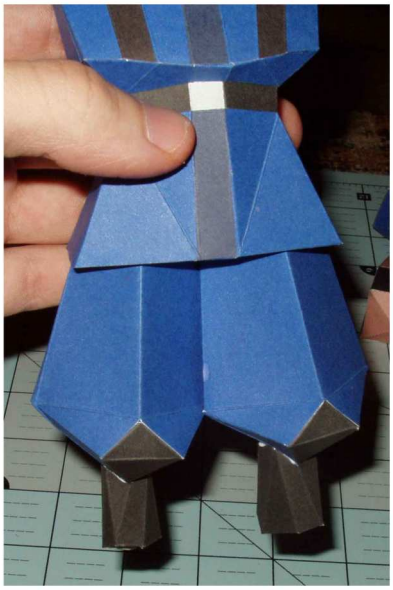

Construct part 68 and
attach to the body

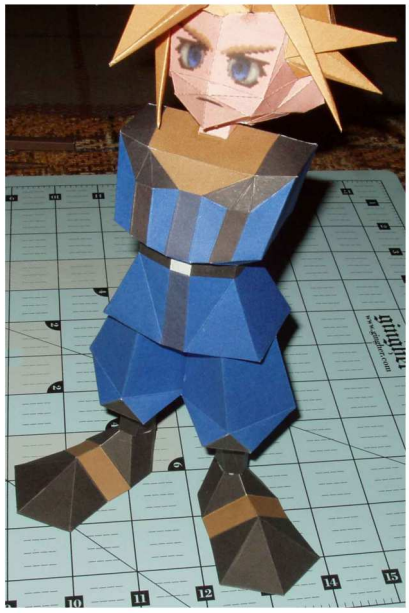

Attach
the head

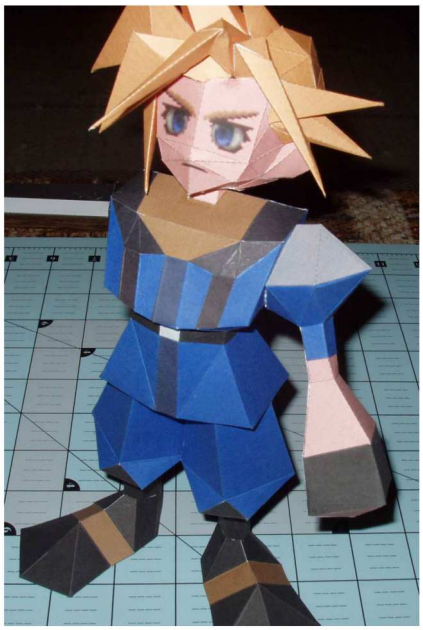

Attach the legs

Attach the calves and feet

Attach the arms

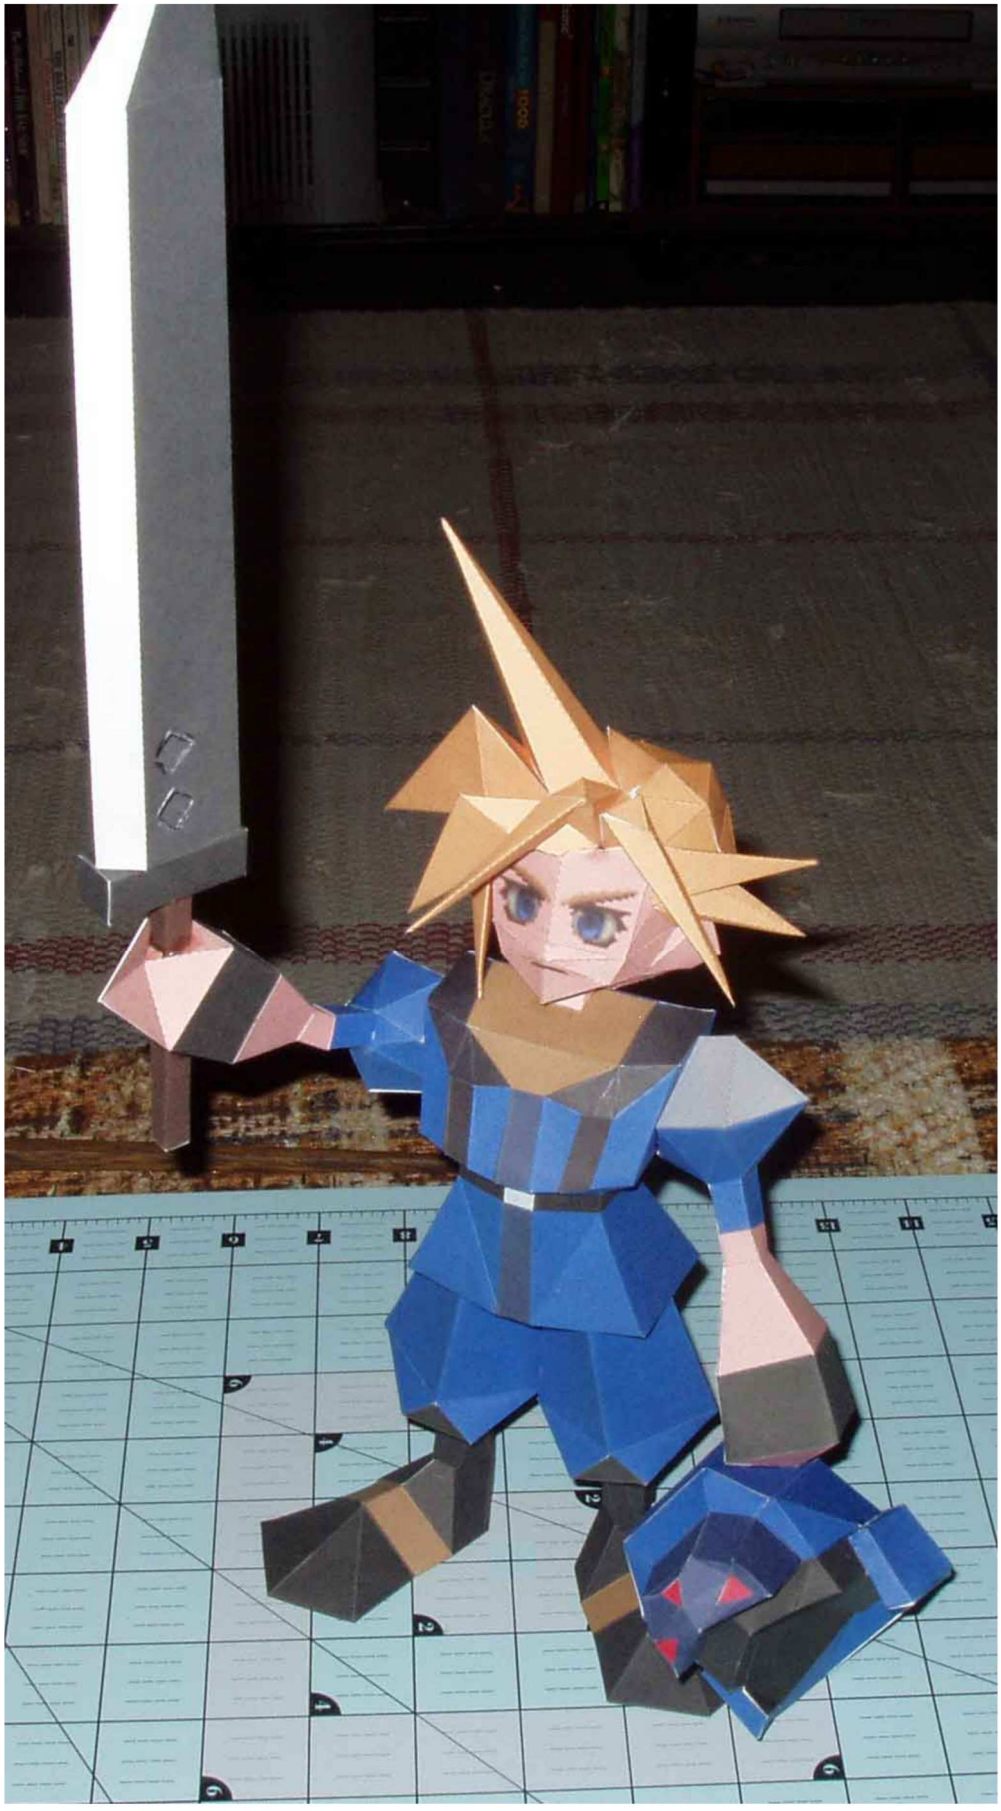

Attach the helmet and sword

Now go get some revenge for your burning village

Just look out for mad scientists locking people in tubes
