Body Section Part Two

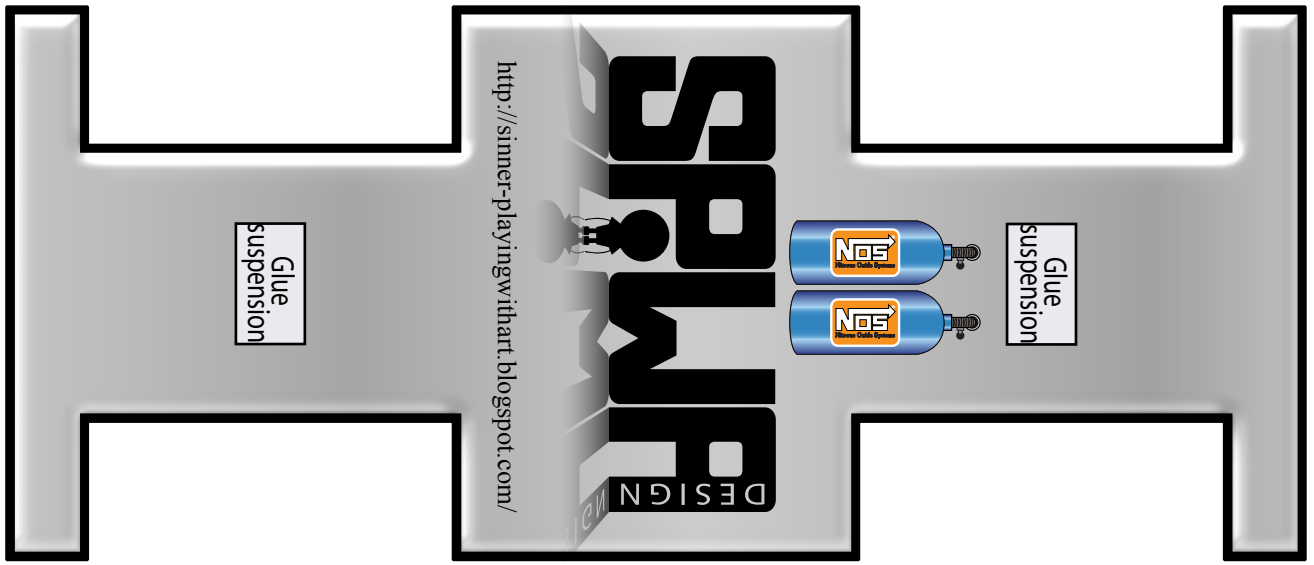

A

B

Under Carraige

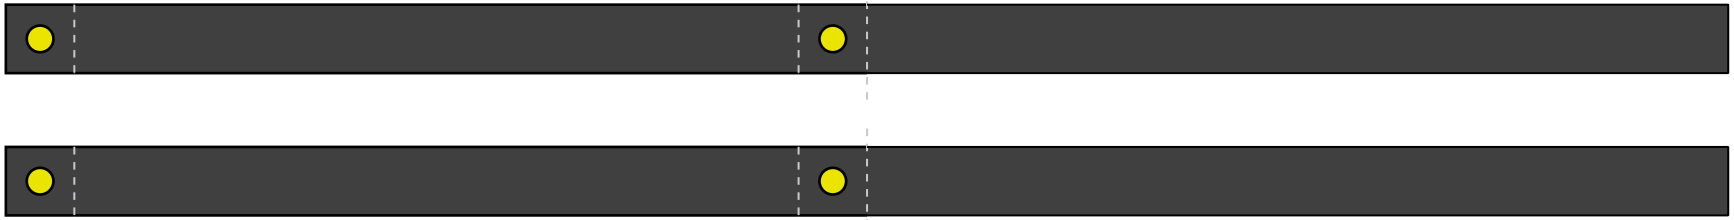

Please refer to the Diagram for build instructions.

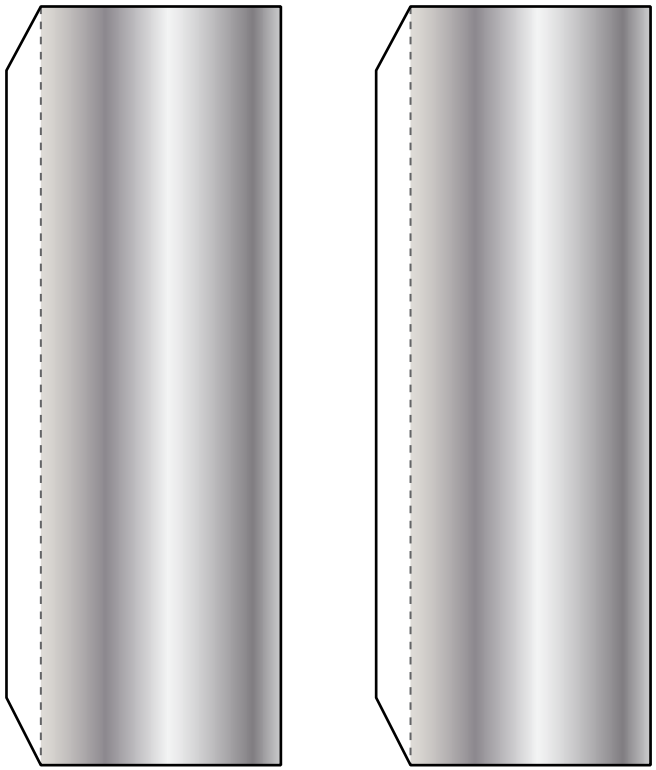

Suspension

Fold down the centre line & glue. Once dry, fold the tabs in, so you are left with an arch shape.

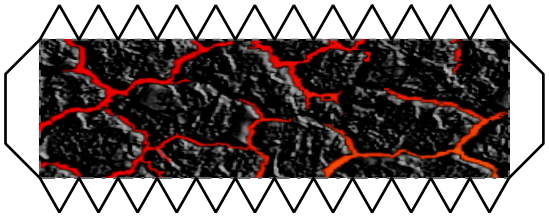

H

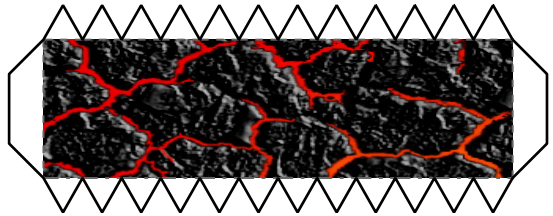

I **Axels**

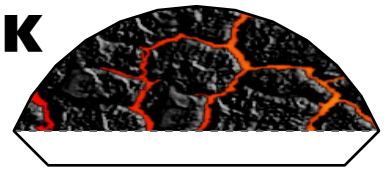

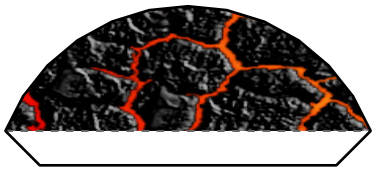

L

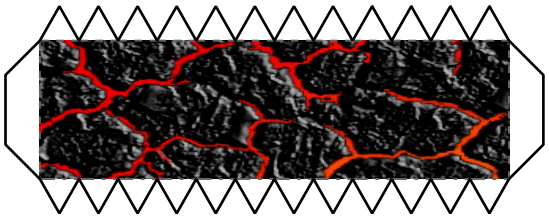

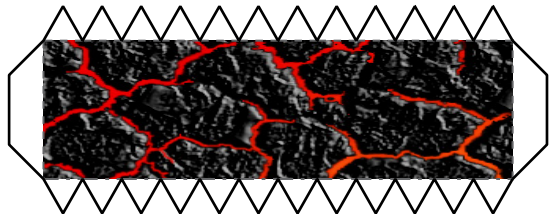

K

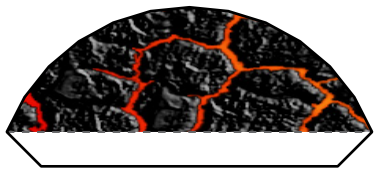

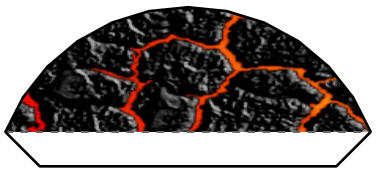

Wheel Arches

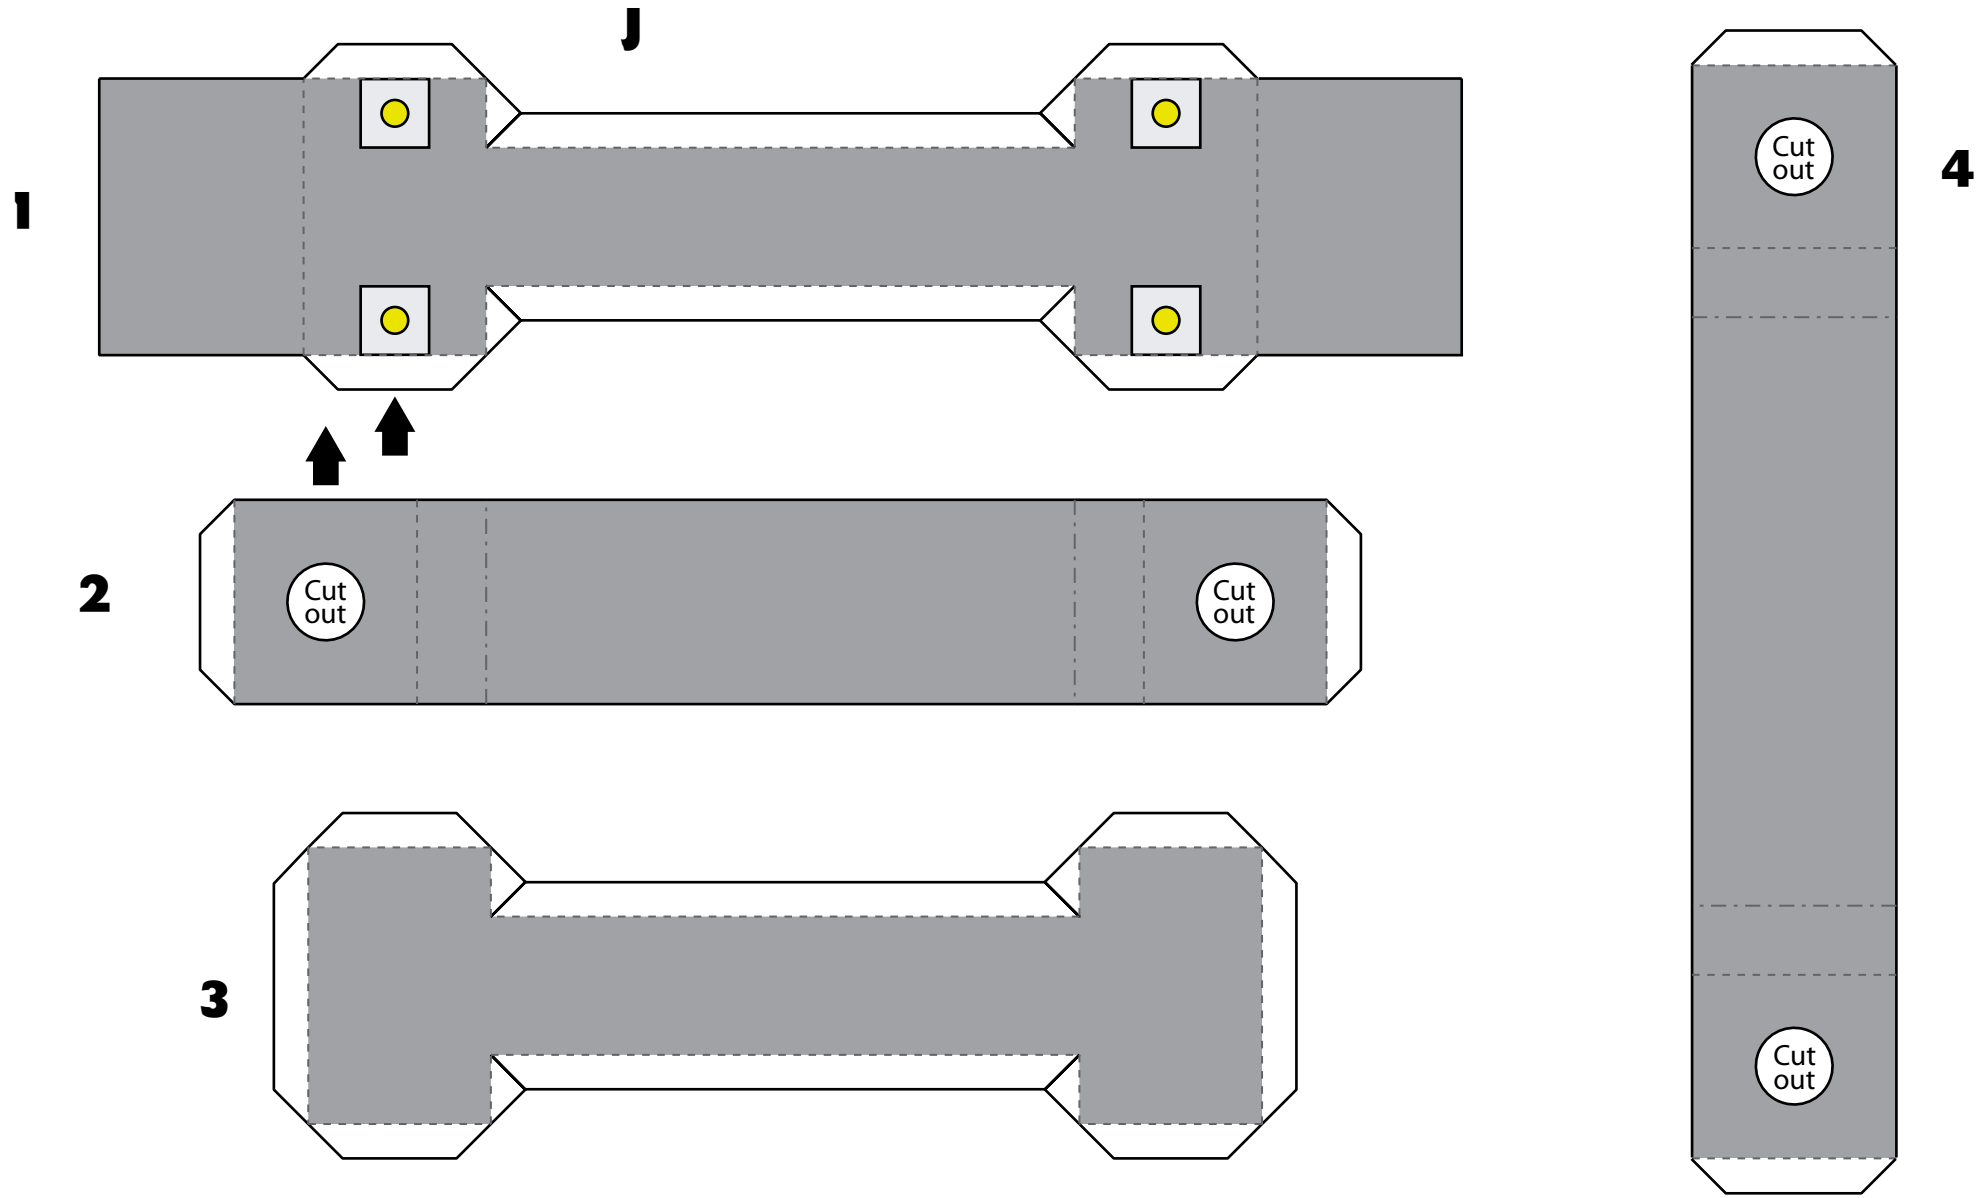

Please refer to the Diagram for build instructions.

Wheel & Axel Frame

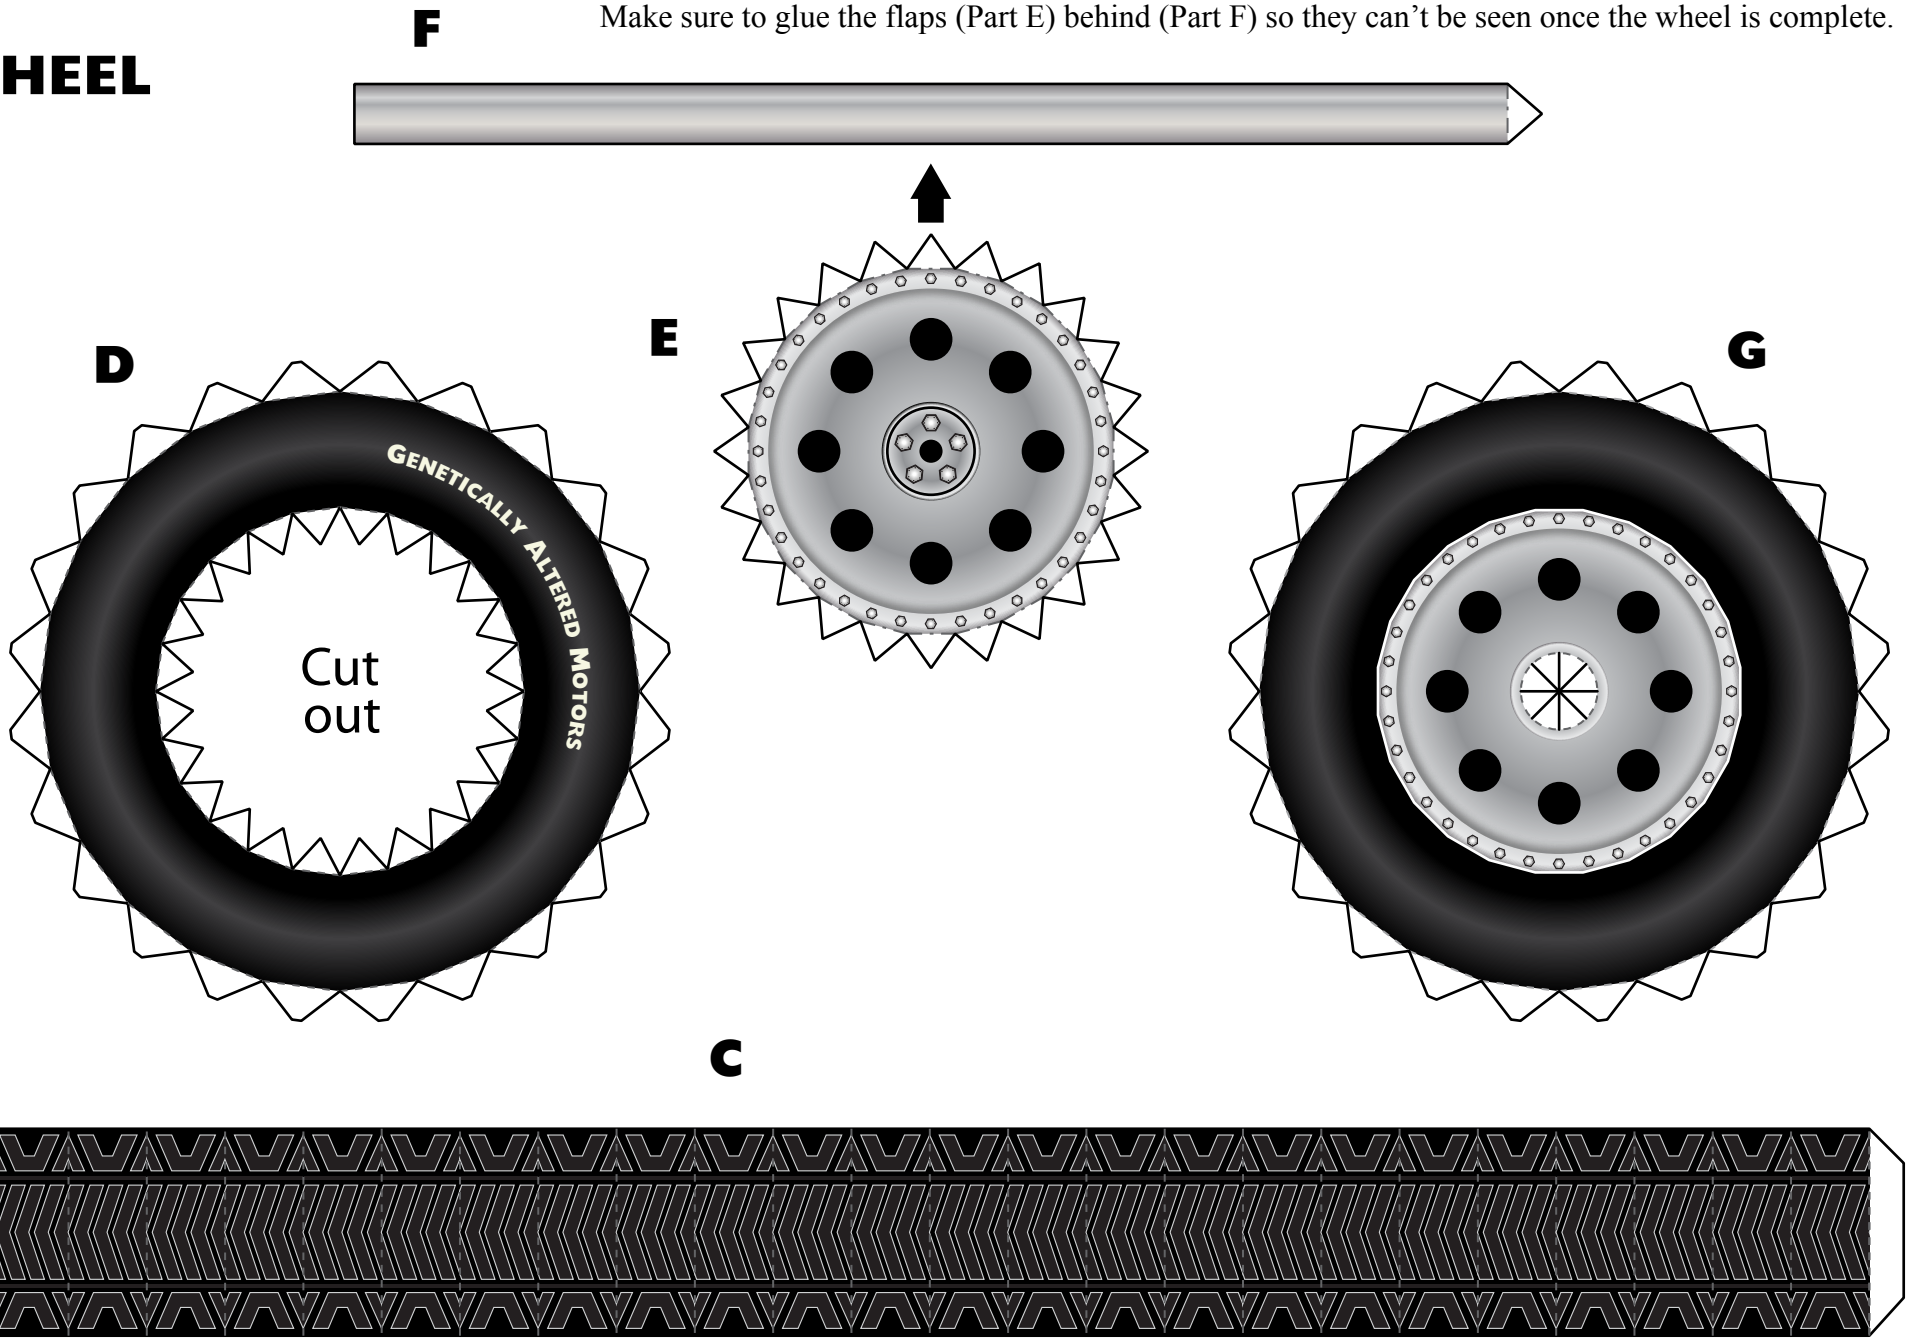

Cut out the holes marked on pieces 2 & 4.
Start building with piece 1, then add in number order.

Please refer to the Diagram for build instructions.

Wheel

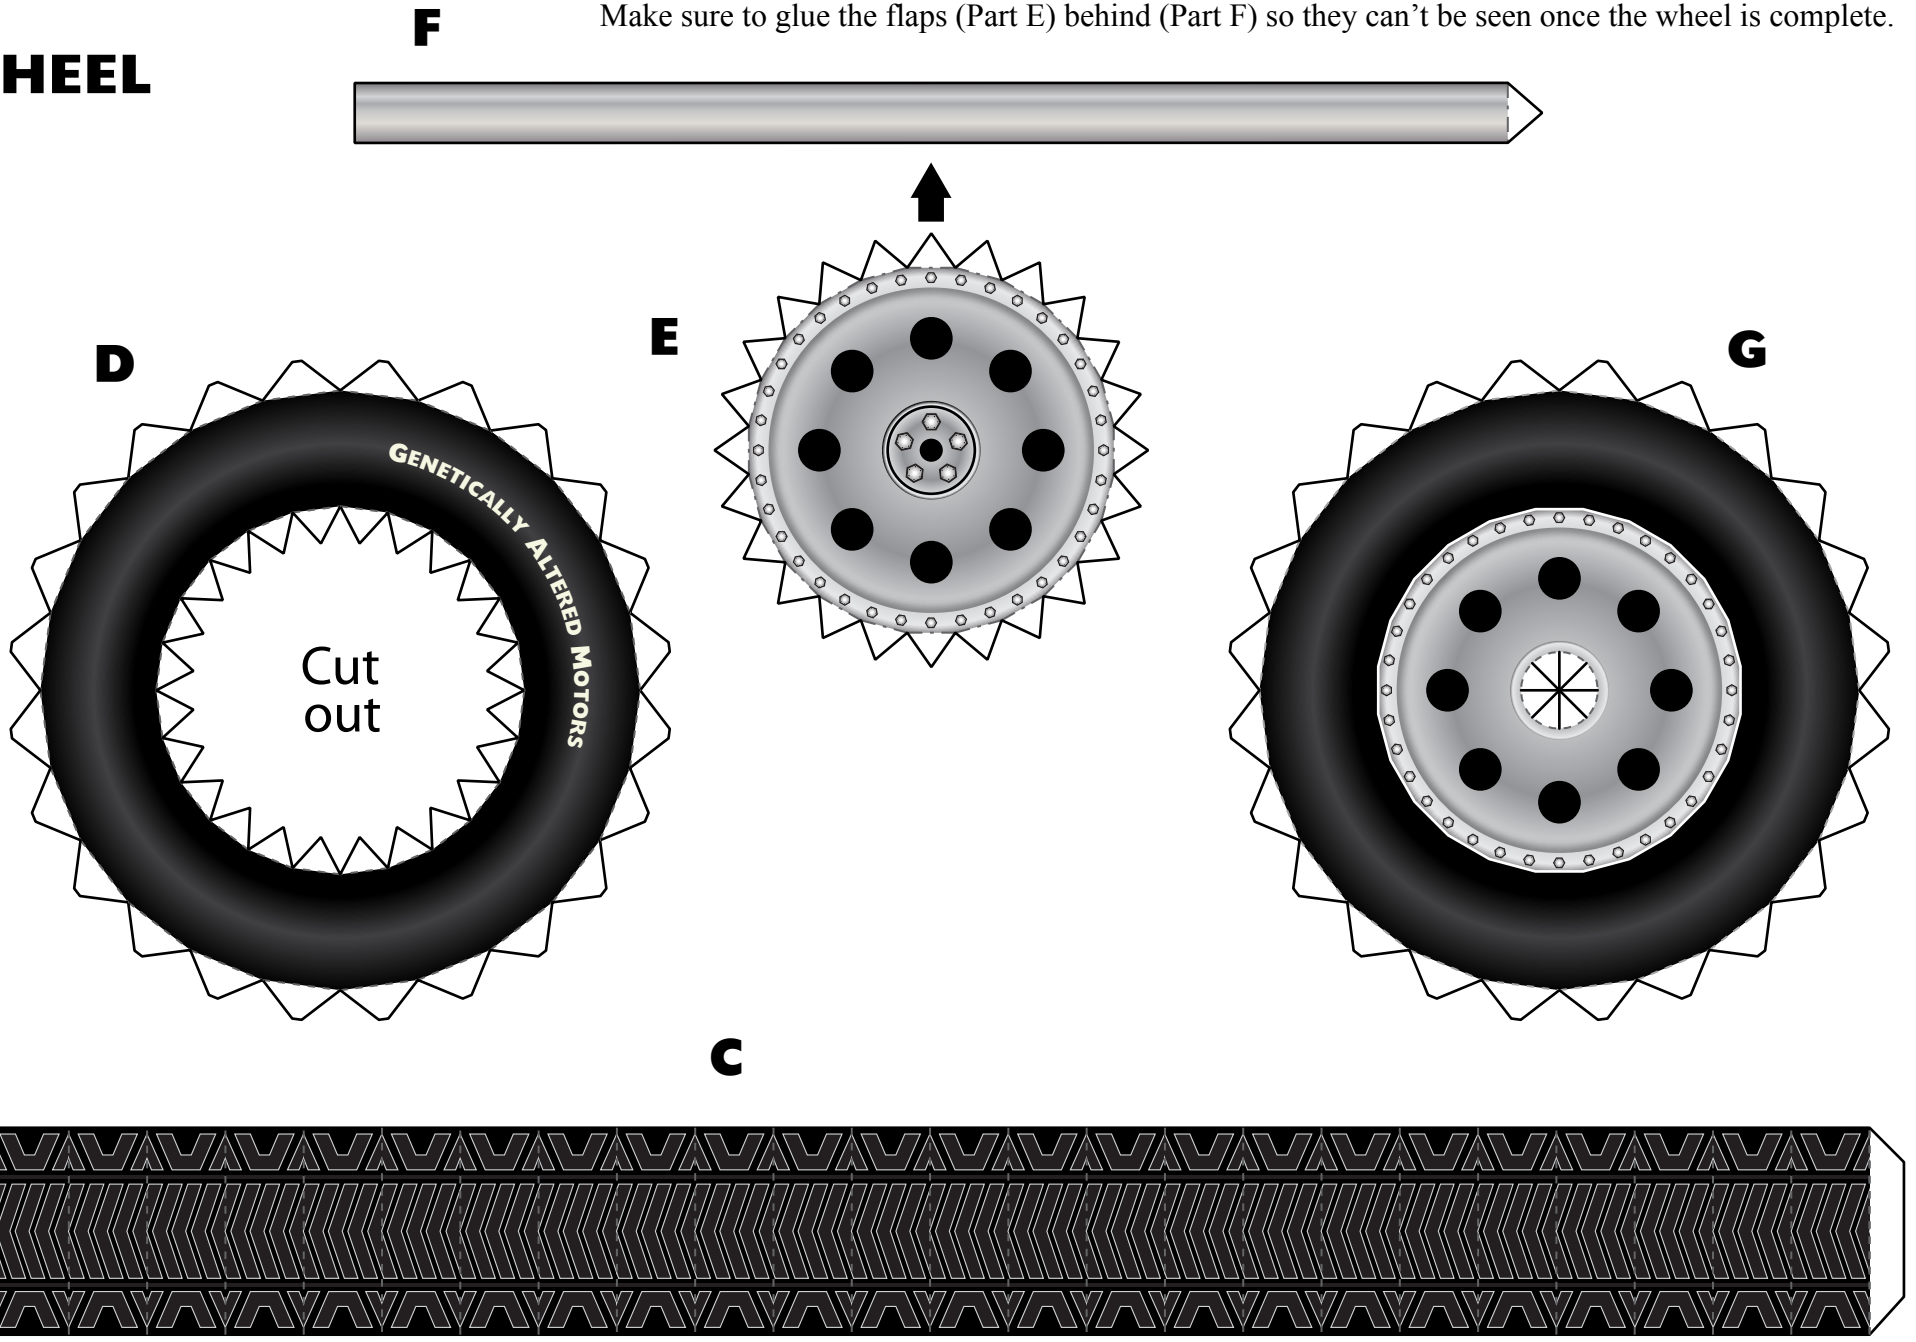

Attach F to E, then attach the finished part to the cut out of section D.
Make sure to glue the flaps (Part E) behind (Part F) so they can't be seen once the wheel is complete.

Please refer to the Diagram for build instructions.

Wheel

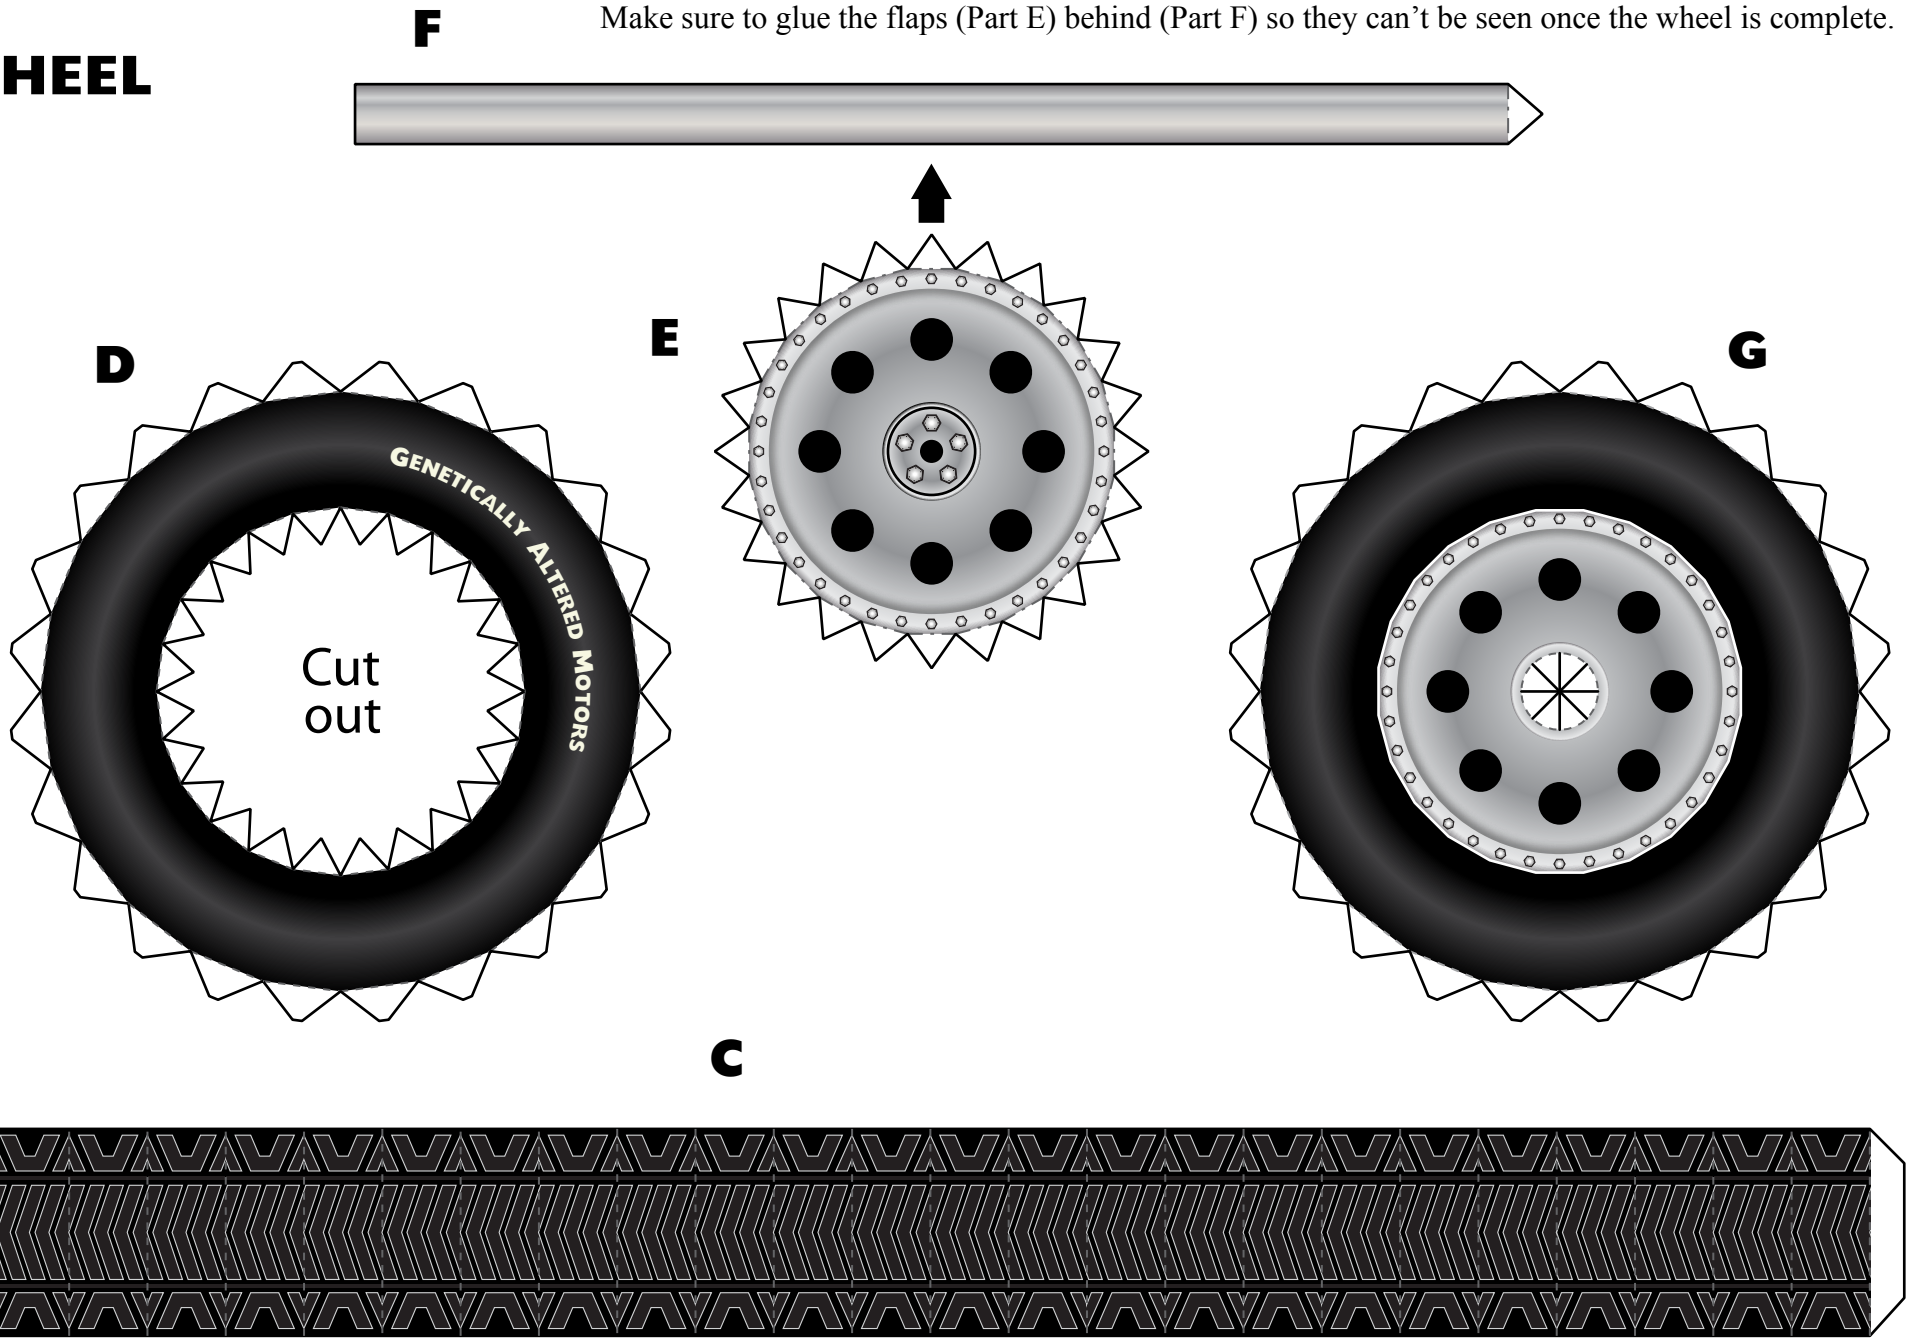

Attach F to E, then attach the finished part to the cut out of section D.
Make sure to glue the flaps (Part E) behind (Part F) so they can't be seen once the wheel is complete.

Please refer to the Diagram for build instructions.

Make sure to glue the flaps (Part E) behind (Part F) so they can't be seen once the wheel is complete.

Please refer to the Diagram for build instructions.

Monster Truck

Build Diagram

Fold lines have been removed from the wheel arch & the tread section of the wheel. This is to give a cleaner & rounder look to the models curved sections.

Your finished Model should look like this.

The centre of part G, should be opened up into 8 small flaps. This is to grip the Axel. Apply glue before inserting the Axel
