UBER LEET

The MMORPG Paper Toy

- Print on to 160g White paper
- You will need the following:
  Scissors
  Craft Knife
  Tweezers
  Glue
- Build all the pieces, then use the marked instructions to construct them together.
- Always refer to the Build Example.

Glue 3 Claws to the front of each foot.

UBER LEET

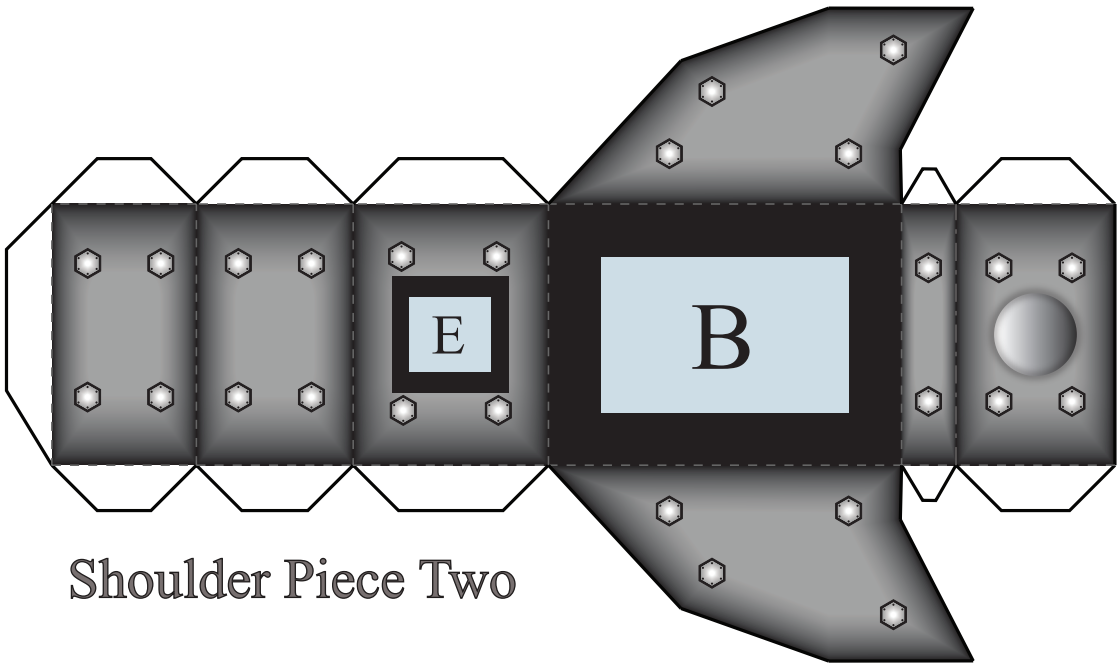

The MMORPG Paper Toy

Glue the Arm on to the Shoulder Pad so the Tattoo faces out.

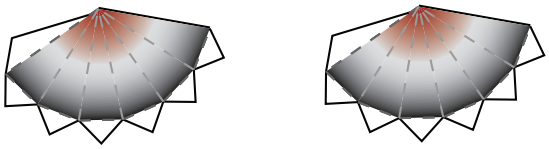

Glue the section with a Red dot to the Red dot on the arm.

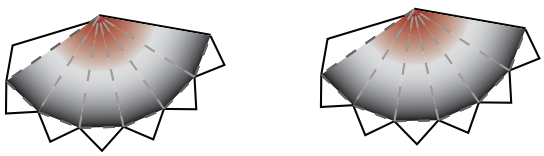

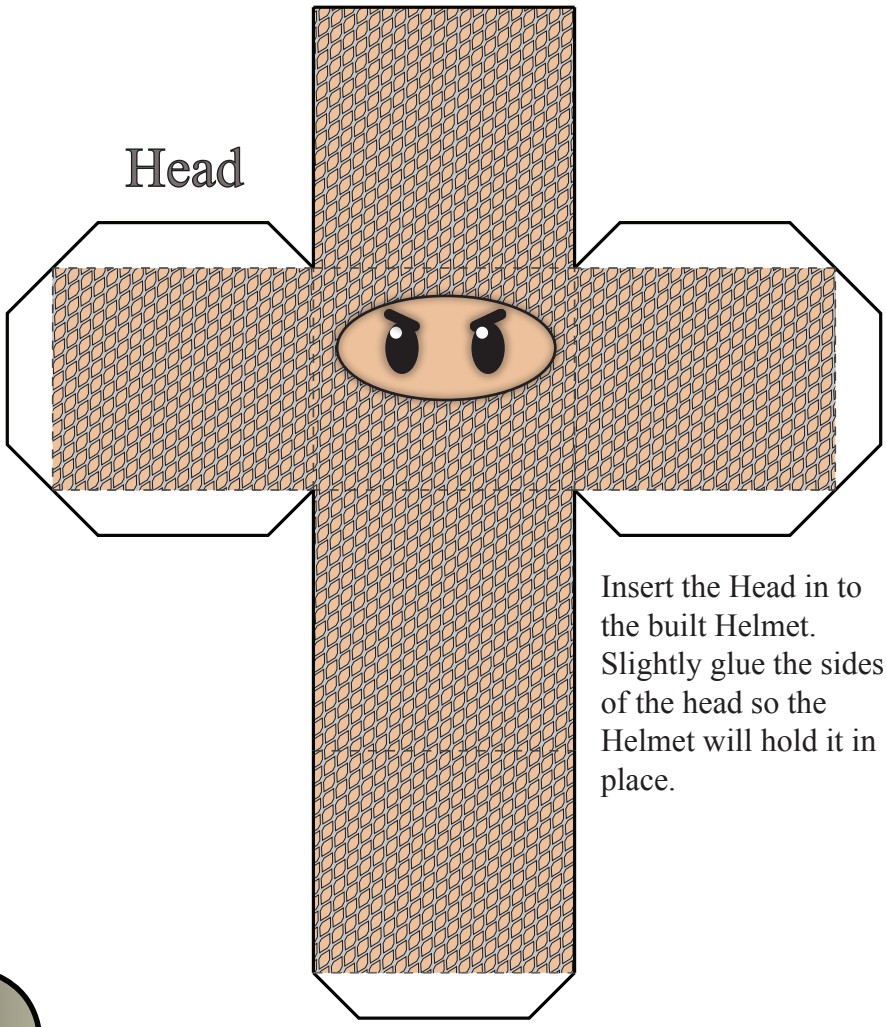

Spikes

● = Glue Spike here

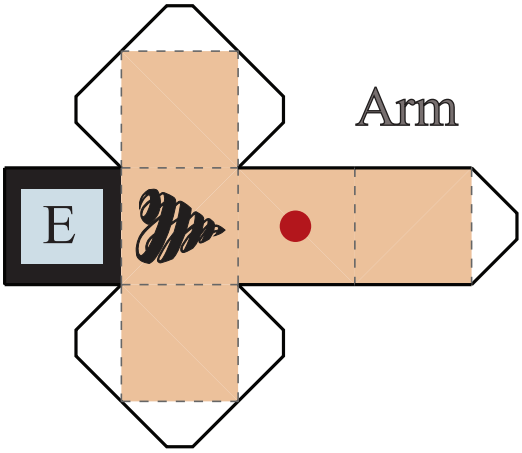

Insert the Head in to the built Helmet. Slightly glue the sides of the head so the Helmet will hold it in place.

UBER LEET

The MMORPG Paper Toy

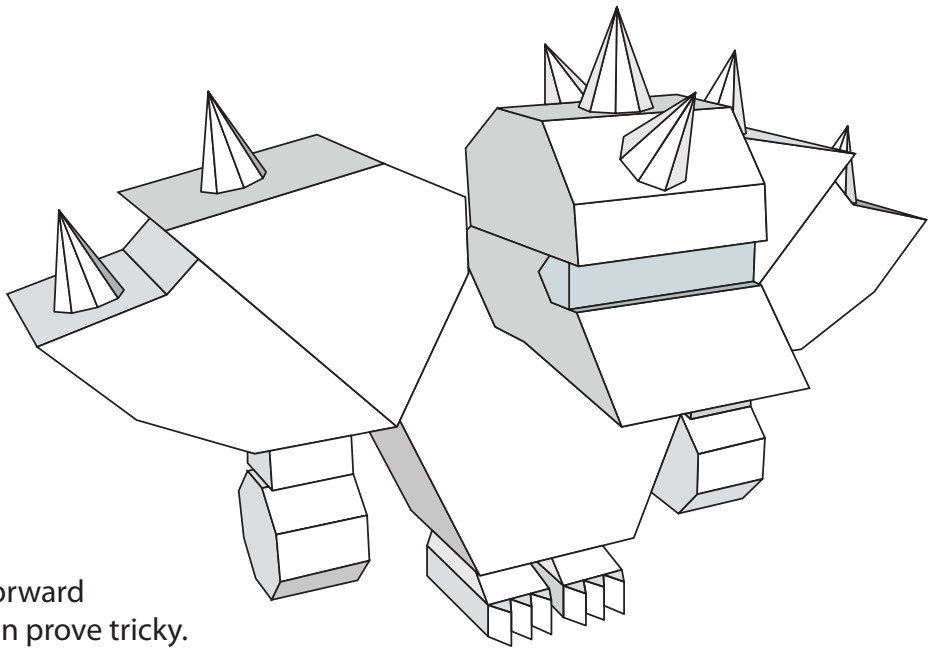

Glue the Arm on to the Shoulder Pad so the Tattoo faces out.

Glue the section with a Red dot to the Red dot on the arm.

Your finished model should look like this.

Most of the toy is pretty straight forward to build, but the Claws & Spikes can prove tricky. Take your time & be patient, just like any good MMO Mission.

Build Example

The MMORPG Paper Toy

Swords

- Cut out, then fold down the middle, & Glue.
- You should end up with Two Swords with Matching graphics on both sides.
- Glue the handles to the inside face of the Hands.
