INSTRUCTIONS

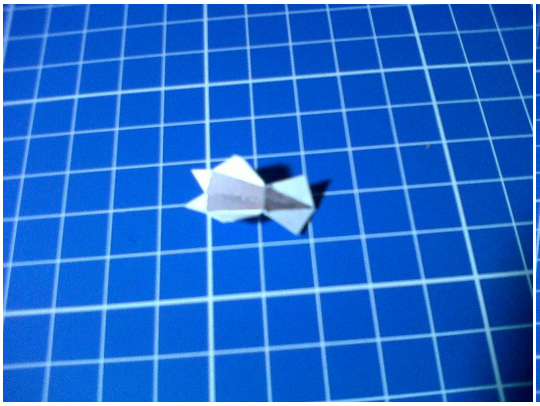

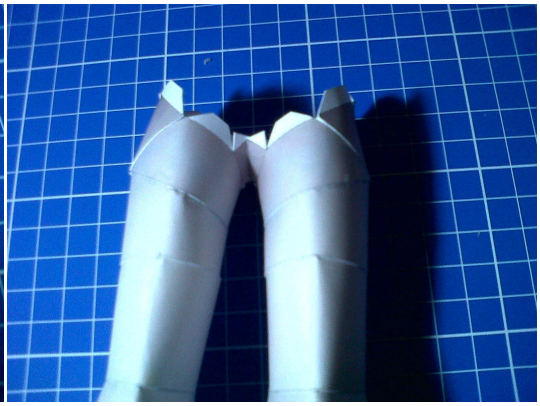

This model is really easy just the head has difficult pieces, lets start with the feet, first build the right foot (1-12) then attach the knee (13-16)

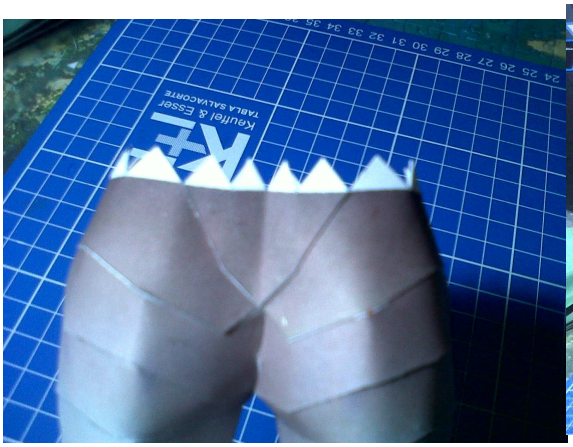

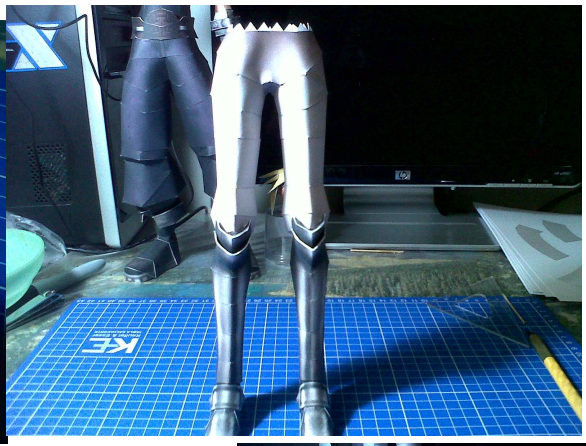

Place pieces (17-19) and do the same for the left foot, then build pieces (39 -46) and (47-54), now glue the legs.

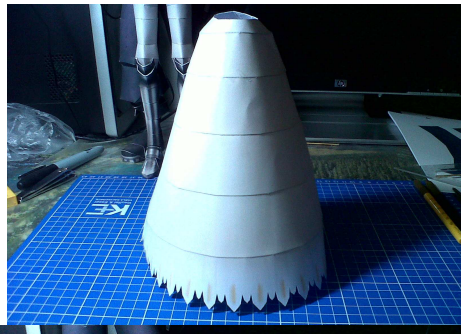

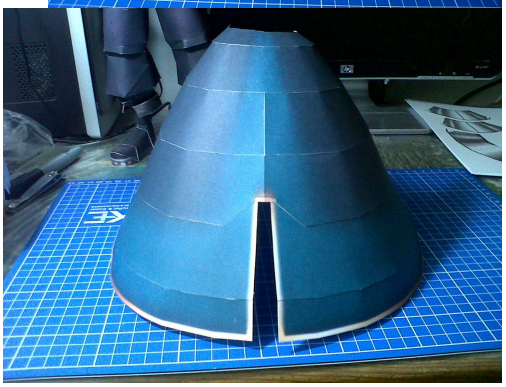

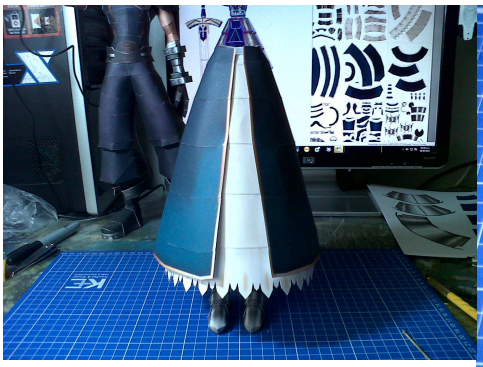

Glue pieces 55 and 56, then add both legs to this piece. Attach pieces 57 and 58

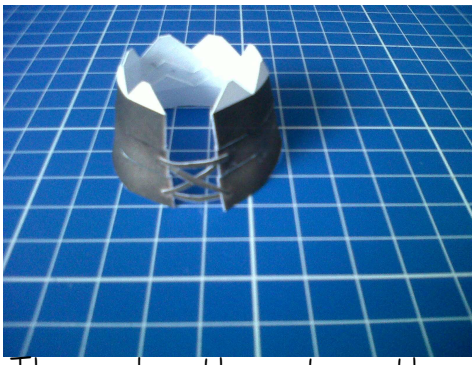

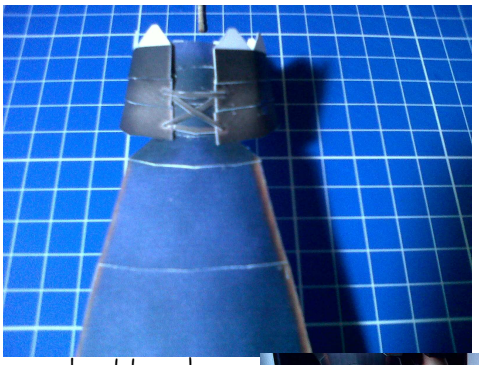

Now lets build the dress, first build pieces 59-68 (the White dress) then pieces 69-78 (the Blue one)

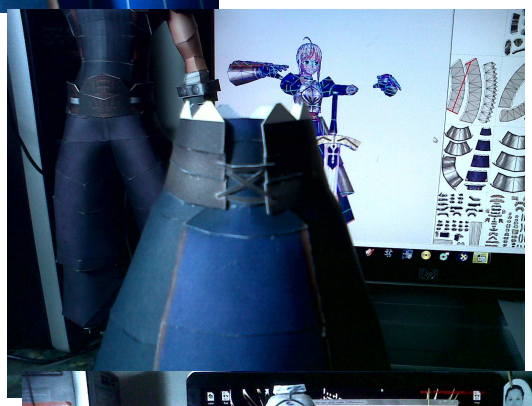

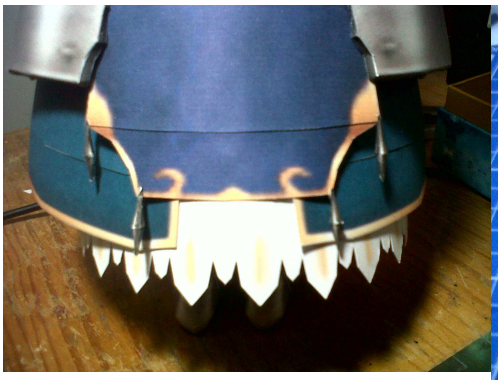

Now attach the dress to the legs.
Build pieces 79-87, then pieces 88-94

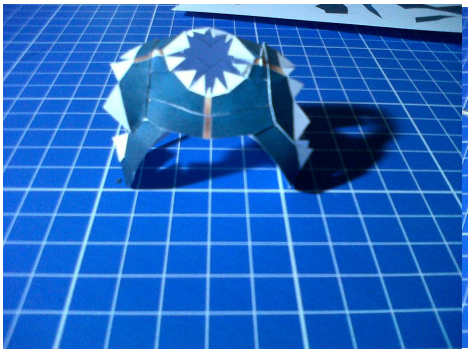

Then glue them together and attach the complete piece to the dress.

Build pieces 95-100 and place on both sides of the dress.

Build pieces 101-108 and place then on the bottom of the dress.
Construct the chest (109-118)

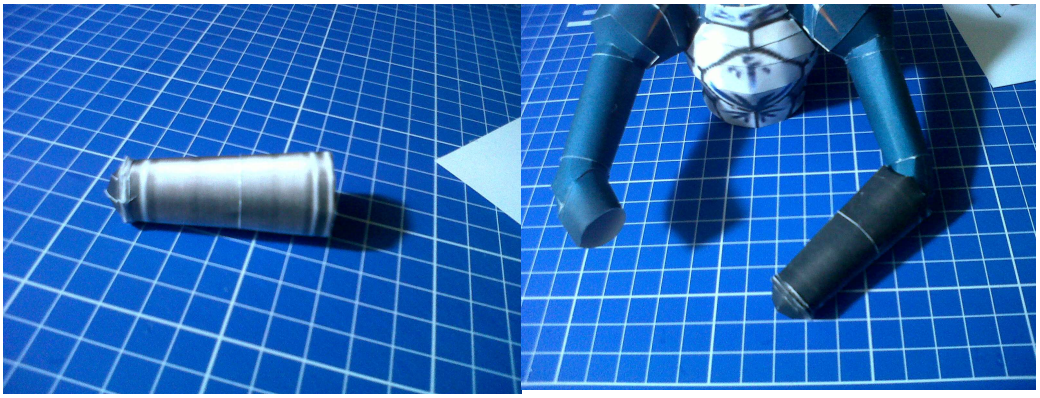

Now continue with the body and the arms, first build pieces (119-129) then build the right arm (130-139) and attach to the body, do the same for the left arm.

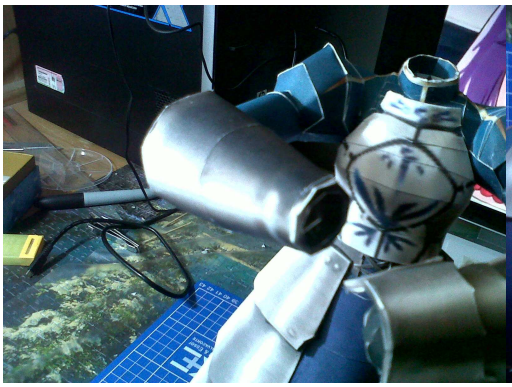

Glue the arms to the chest and place the complete piece on the legs, now build the collar (152-154)

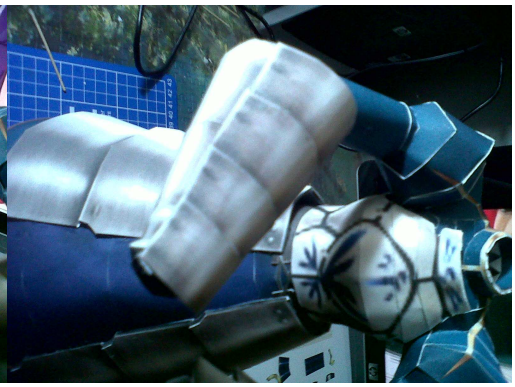

Now build the forearm (155 -158) and attach to the arm.

Build pieces (159-162) and place on the forearm

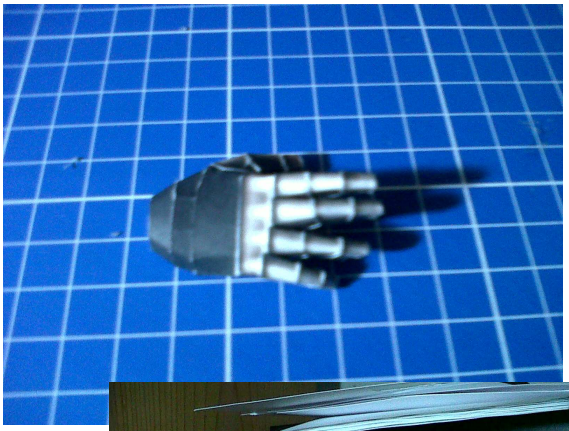

Now build the right forearm (163-166) and glue it to the arm then attach pieces 167-170

This part is not difficult but will take a Little bit time, build both hands (171-204) and attach them on the black spheres on the forearms.

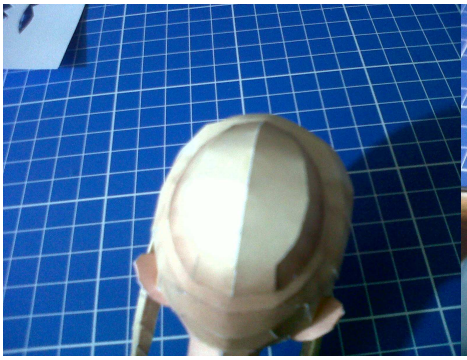

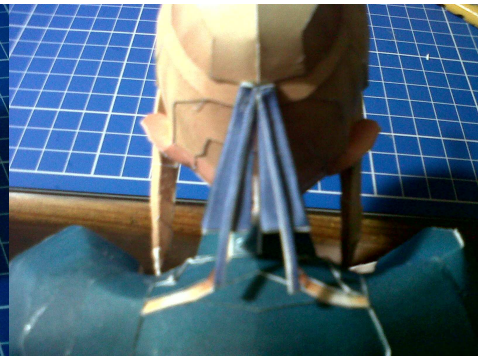

To build the head first glue the neck (205-206) then the face (207-226) now build the hair (231-266)

Attach pieces (227-230) and now glue the hair

Complete the head (268-278) and build the ribbon and more hair (279-298). Build Excalibur (299-306) and it´s done.
