Left arm
Glue pieces 6 to 11 on 12 and than attach to the built part.
Glue 1 and 2 together and after that connect them with piece 3.
Attach the teeth before gluing the bottom of piece 6. 7 and 9 are the ones inside and 8 and 10 are outside.
Be carefull when attaching the claws to pieces 29 and 35. Start by the part with the red tab and make your way to the end. After they are placed glue the small claws.
Right arm

First glue theparts with * on piece 26, than glue pieces 15 to 24 before attaching piece 25 to the face. The tabs with the numbers (from 15 to 24) face up.

When attaching piece 40 you may need some presure on the pieces it connect to in order to get the right shape of the model.

42
13
14
41
43
Build the tail (43) and join it to pieces 44 and 45. Attach the whole set to the body after.

Left leg
Close at the numbered tabs on the feet.
Attach the nails (52 to 57) to the feet before attaching them to the body.
Right leg
The two lines in red must be fold for an easy and better result.
