INSTRUCTIONS

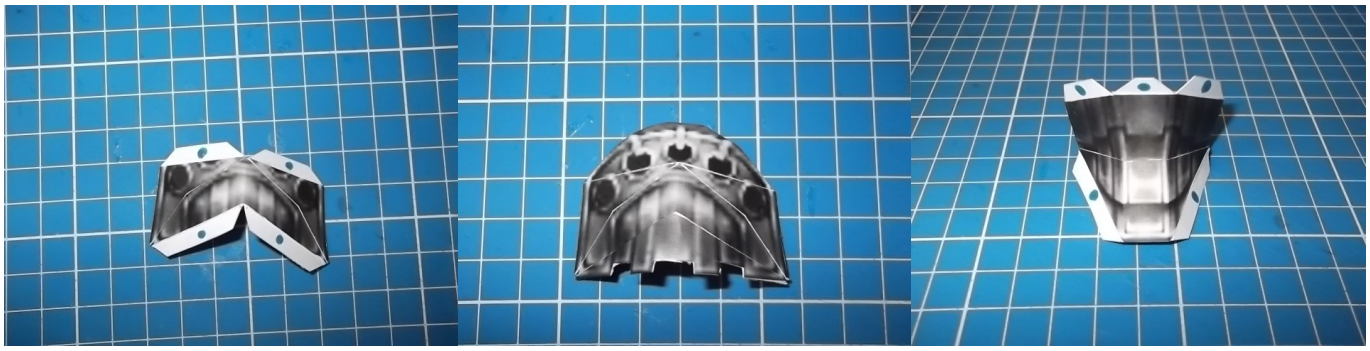

WWW.THELASTINLINEAGAIN.BLOGSPOT.COM

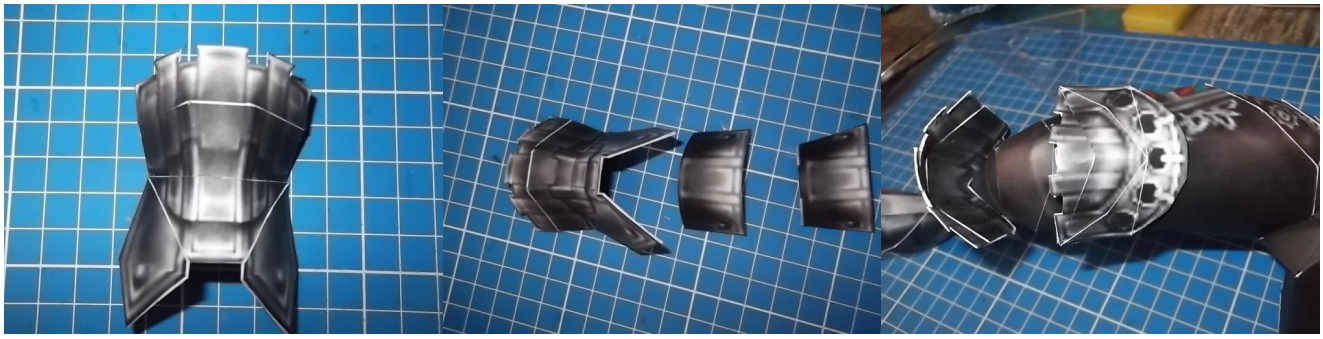

Lets start with the right leg (1-11), do the same for the left leg (12-22), now attach pieces (23-26).

Do the same for the other leg (27-30); now build pieces (31,32) and use it to attach both legs together, glue piece (33).

Now build pieces (34-38), and use the blue points to attach pieces (39,40), trim the excess on piece (40). Build pieces (41-44).

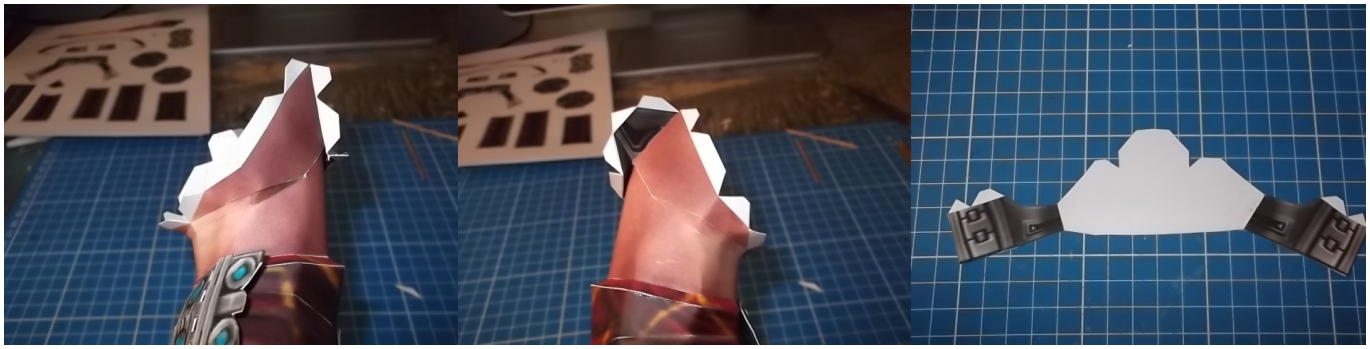

And attach pieces (45-47) on the blue points. Construct pieces (48,49), now attach to the legs.

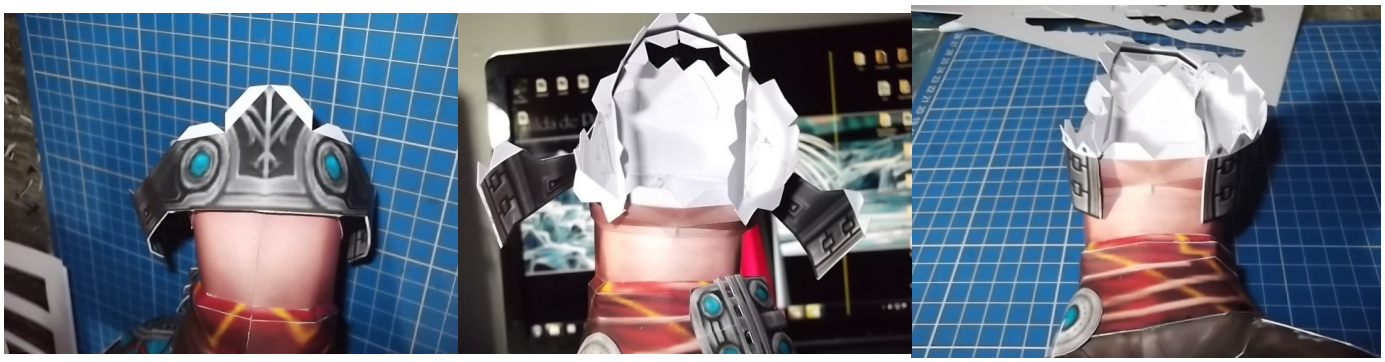

Do the same for the left knee pad (50-65), glue pieces (66-69)

Now build pieces (70,71), trim the excess on piece (71), and glue to the waist, now build pieces (72-74) and attach on the back.

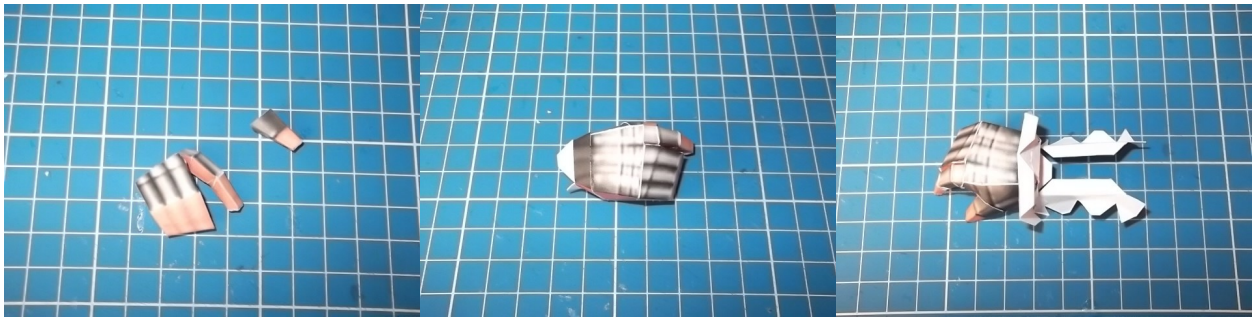

Glue pieces (75-78), now build pieces (79-81).

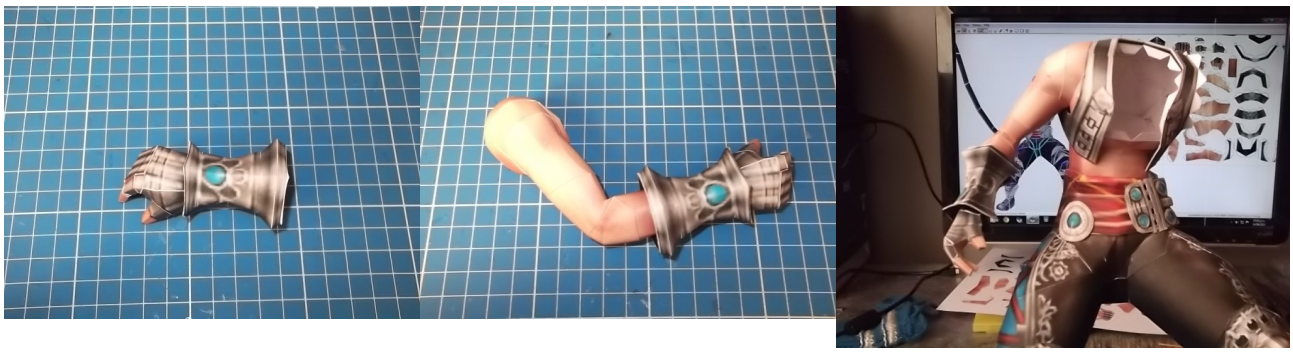

Attach to the body and glue pieces (82-84), use the blue points on piece (84) to glue the coat.
Finish the coat with pieces (85-87).

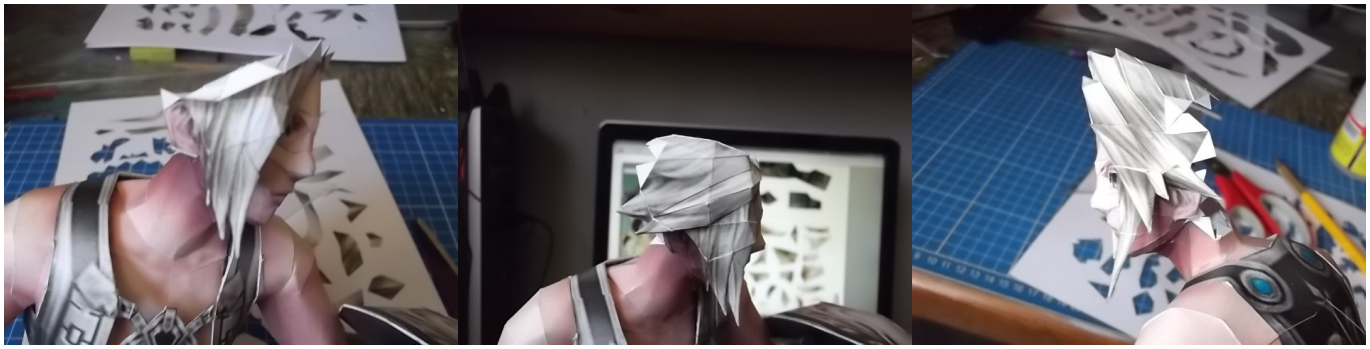

Now build the fingers (88-93) then attach the hand (94-96) here starts a difficult part, first glue (97-99).

Then complete with (100-106). Finish the arm (107-115) and attach to the body. Do the same for the left arm.

Glue pieces (143-146) to the body, now build pieces (a-c) trim the excess on (c) and glue on the blue pints then attach to the coat. Time to build the face (147-165).

Here comes the pain.....first build the right side (166-172), then pieces (173-180), lets continue with the left side (181-194).

Finish the head attaching pieces (195-210) the hair on the neck is really difficult and will take a lot of time but if you can buidl another Dissidia model you can build this one too.

Now build the katana (211-218) and the Shield (219-222), attach to the body and glue the hair details (223-230).
